Fifth " —P. M. Goodrich, of Carroll.

THE RESULT OF THE ELECTIONS.

We refer our readers to the telegrams in another column for the result of the elections in Ohio and Pennsylvania yesterday. The former State, it seems, has gone Republican by a large majority, and the returns so far point to a similar result in Pennsylvania. Up to the hour at which we write (1 A. M.) no information has reached us concerning the election in Indiana, but the returns may come in before we go to press, in which event they will appear in the telegraphic column.

The election in Pennsylvania has evidently been hotly contested, and the result shows that the revolution in public sentiment unfavorable to the Radical party which has been in progress for two years, has made some headway there, even if they carry the State at this election. The Democracy are undaunted and by no means to be despised. Even with the loss of Pennsylvania we do not relinquish the hope of Seymour's election, although we should be disappointed if the majority shall prove to be very decidedly in favor of the Republican party.

LECTURE ON PUBLIC AND PRIVATE CREDIT.—We refer our readers, interested in this subject, to the announcement elsewhere in this issue, of a lecture to be delivered at the Lyceum Hall, in the Municipal Building, on Thursday evening, 15th inst., by R. M. Davis, Esq., well known as the former Cashier and subsequently President of the Bank of Louisiana. The subject of this lecture is one Mr. Davis is familiar with and well able to treat. He proposes to speak on public and private credit and the absurd, shewing how paper money, currency and bonds, issued in anticipation of the labor of the people are made by legislation to usurp the place of real money—that is gold.

MRS. GEN. POLK.—We are pleased to learn that Mrs. Polk, widow of the late Bishop Polk, has returned to New Orleans for the purpose of reserving her home in our midst. She intends, we learn, to open a school here, and will be assisted by one of her accomplished daughters. Mrs. Polk, since the close of the war, has had charge of the Columbia Female Seminary, at Columbia, Tennessee.

We have received from Mr. J. W. Maddox, publisher, 73 Camp street, a copy of the City Comptroller's Report, embracing a detailed statement of the Receipts and Expenditures of the city of New Orleans from January 1, 1868, to June 30, 1868.

We acknowledge the attention of Mr. Walter H. Rogers in sending to this office a copy of the *Raleigh* (*N. C.*) *Daily Standard* of September 19, edited by N. Paige & Co., containing the indecent and infamous article touching the women of the South lately exposed by our city contemporaries.

RECOGNITION OF THE PROVISIONAL GOVERNMENT IN SPAIN.—The telegraph announced to us on the 12th that the Ambassador of the United States at Madrid had, by instructions from Washington, recognized the new government of Spain. It is said the United States Government was the first to recognize the Junta.

REGISTRATION IN ST. LANDRY.—The Opelousas *Courier* of the 10th announces the arrival of the Supervisors of Registry for that parish and the speedy opening of the books.

MR. STANTON'S HERCULEAN LABORS.—The Philadelphia *Bulletin* of the 9th begins an editorial notice of Mr. Stanton's late speeches thus:

"Although sadly broken down by the Herculean labors of the War Office, Mr. Stanton's devotion to the great cause of the country has not permitted him to rest, etc."

How the war ended in April 1865, about three years and six months ago, and as Mr. Stanton was relieved from the duties of the War Department about 12 months ago, one would think he has had time enough to recuperate from these Herculean labors. It is about time to stop that sort of stereotyped commendation of the ex-Secretary.

—Radicals Repudiating their Party.

We find the following disavowals of participation in the late Opelousas riot in the *Courier* of the 10th, published at that place. These cards speak for themselves. No Southern man—white or colored—should ever have belonged to that party; the occurrences in Opelousas and elsewhere which have inaugurated the war of races were the legitimate consequences of the doctrines taught by the Republican leaders and their unprincipled organs.

We shall see these withdrawals from the Republican party to the New York *Tribune* and *Times*. The signatures to the first card we are informed, are those of respectable men of color, resident in St. Landry parish. The second card bears the signature, if we mistake not, of the former editor of the St. Landry *Progress*, a Radical sheet published at Opelousas:

NOTICE TO THE PUBLIC.—I acknowledge to have belonged to the Radical party, and to have given it my aid and support; but having seen in the sad and deplorable occurrences of last week that this party was arraying itself against the white race with such audacity as to be eventually bring on a war of races, I hereby withdraw from the Radical party, and intend to have hereafter nothing more to do with it; protesting to devote myself to my ordinary business, and asking for peace which will insure the prosperity of our country. This notice is voluntarily signed by me.

JOSEPH BALLOU. DR. MAULLION,
ALPHONSE MERLIOUX, JULIA FELIOT,
PHILOGENE OZENNE.

October 6th, 1868.

TO THE PUBLIC.—I have heretofore been a member of the Radical party, because I sincerely believed that the principles of the principles would eventually secure peace and prosperity to our country; but in view of the most unfortunate events of the last week, I now formally renounce all connection with that party.

I furthermore declare that I in no manner contributed to excite the riot which took place, and if my name was used to bring about the much to be regretted occurrences of last Monday, it was done without my knowledge or consent. No one deplores more profoundly than I do what recently transpired, and I have determined for the future to have nothing more to do with politics.

CORNELIUS DONATO.

October 5th, 1868.

A CARD.—Being informed by my friends that my name figures in the New Orleans *Republican* of the 5th instant as leader of the body of armed colored men who fired into the whites at H. Pailliet's on Monday, 28th September, I hereby pronounce said statement false, as I was not present, and had nothing to do with the movements of the Radicals on that day.

ADOLPHE DONATO.

Opelousas, October 10, 1868.

ANTI-METROPOLITAN.—The good people of Carrollton have made a respectable protest against being included in the Metropolitan Police District created by the present State Legislature, and have forwarded a memorial in that effect to the Legislature. They claim to be a law abiding people; say they have employed heretofore only five policemen, and that a small force has been found sufficient to preserve the peace in this little community. These five policemen have facilities to support, and the people of Carrollton do not desire to see them turned out of employment, and they object to paying any special taxes for the support of the Metropolitan Police. We sympathize with the Carrollton citizens, and hope the Legislature will grant them their modest request—to be allowed to regulate their own domestic affairs in their own way.—*N. O. CITY INTELLIGENCE.

A Set of Rascals.—The leading white Radical members of the body known as the Legislature of Louisiana, in private conversation, do not deny that they at present are influenced more by personal interests in their legislation than anything else. Over a social glass in the presence of anybody, they laugh at the idea of failing to take advantage of their momentary power. On the grounds, which they assert, that all parties were corrupt, they endeavor to conceal their own dishonesty. With this view of our recently political surroundings, the white Radical members of the hybrid Dryades concern have spared no effort to swindle our already impoverished people. Without alluding to anything else, the adoption of the Printing bill is sufficient to establish this fact. The *Republican* in still receiving $1 per square for the re-publication of the proceedings of the Common Council, which are officially given to the public at 25 cents per square.

Again, the woolly-headed Dryades concern are well aware of the fact that a failure to adopt a vagrant act—out of sympathy, doubtless, for that class of eminent "gentlemen" who principally subsist on a political-light-and-loaf abiding people; any they have employed heretofore only five policemen, and that small force has been found sufficient to preserve the peace in this little community. These five policemen have facilities to support, and the people of Carrollton do not desire to see them turned out of employment, and they object to paying any special taxes for the support of the Metropolitan Police. We sympathize with the Carrollton citizens, and hope the Legislature will grant them their modest request—to be allowed to regulate their own domestic affairs in their own way.—*N. O. LOUISIANA LEGISLATURE.

NINETY THIRD DAY—OCTOBER 13, 1868.

SENATE—Lieut. Gov Dunn presiding.

The bill passed Monday, authorizing attorneys at law from other States to practice in the courts of this States, was reconsidered, and laid over subject to call.

The bill to amend the charter of the town of Carrollton was reported duly enrolled, and on motion of Senator Todd, was ordered printed.

House bill No. 253 was recommitted to the Judiciary Committee.

House bill appropriating $100,000 to defray the expenses of registration was taken up.

Mr. Bacon, in view of the fact that Mr. Baker, the Chief Registrar, when the registration offices were first opened, expressed an ardent desire to have a full and fair registration, regardless of color, condition, sex or party, and had asked an additional appropriation for this purpose, moved to suspend the rules and refer to the Finance Committee.

Senator Todd, as far as his parish was concerned, was opposed to having clerks shipped from New Orleans by Baker, to be paid by the State. He also knew some of the men recommended by Anderson and others, as Registrars for the Northern portion of the State, and thought it an imposition, when good and reliable men residing in the parishes, should have been employed. The bill was referred.

The bill making State warrants receivable for taxes was referred to the Finance Committee.

The special order of the day was taken up, being the House bill relative to marriages.

The bill legalizes private or religious marriage—whatever they mean—regardless of color or previous condition, contracted at any time previously, provided the parties, within two years, make a declaration before a notary.

An additional section was added giving persons who have lived together as man and wife the benefit of this act. The bill passed finally.

House bill No 8, relative to notaries public Considered in committee of the whole, with proposed amendments and made the special order for Saturday, for final consideration.

Mr. Shields offered as a substitute for a resolution previously offered, to the effect that all city employés, except those of the public schools, whose salaries are now $1 50, receive an additional pay of 25 per cent. from the first of March to the first of October. The resolution imposes a fine of $100 for each offense, half of which to be paid to the informer. It was adopted.

Mr. Shields offered as a substitute for a resolution previously offered, to the effect that all city employés, except those of the public schools, whose salaries are now $1 50, receive an additional pay of 25 per cent. from the first of March to the first of October. The resolution imposes a fine of $100 for each offense, half of which to be paid to the informer. It was adopted.

Mr. Bacon offered a resolution to prevent captains and owners of vessels from selling timber at the wharves without paying dues. The resolution imposes a fine of $100 for each offense, half of which to be paid to the informer. It was adopted.

A resolution authorizing the payment to the Gas Light Company of seven per cent. on the bills due, was laid on the table subject to call.

A joint resolution authorising the appointment of a joint committee of three from the Upper Board and of five from the House, to investigate and report upon the causes of the late overflow, was adopted. The President appointed on said committee Messrs. Kaiser, Pearson and Shields.

The petition of M. Lambias, contesting the seat of Mr. Pesson, was returned to the gentleman with the remarks made by Mr. Shields that the petition addressed to the Council should be couched in respectful terms and without insinuations.

A resolution directing the City Surveyor to deliver to the commissioners of the Water Works the tax-sale levee pipes belonging to the city, was adopted on the second reading.

The Committee on Streets and Landings reported favorably on various matters referred to them, and submitted resolutions accordingly, which were adopted.

Among the last resolutions is one authorizing the fitting up of rooms for the Seventh District Court.

The Committee on Finance reported favorably on various bills ordering the payment of the same. Report received.

One of the resolutions authorizes the payment of $300 to Patrick McNamara for services rendered in the sale of the Waterworks.

The special committee appointed to investigate the matter of contest for the seat of Alderman of the Third District, reported that there was no evidence showing that Mr Lambias had the right to contend the seat of Mr Pesson. The committee of the whole to report on the question should be decided by the Courts, and not by this body. The Board then adjourned.

Board of Assistant Aldermen.—A regular meeting of the Board was held last night, President Kearny in the chair and the following members present: Messrs. Breen, Carey, Walker, Lelong, Rose, Wynne, Fisher, Camp, Pemberton, Grandpre, Stricker and Pandely.

The Treasurer submitted a report. The receipts for the week were $55,185 47; expenditures $257,305 19; balance on hand $167,235 59.

The City Attorney submitted a report in regard to the matter of public printing, which was referred to him. He stated in his communication that since 1803 never has the public printing been by more than one paper. The Crescent obtains the printing by virtue of a contract for one year, under the act of 1856, and that this contract cannot, under the existing laws, be sanctioned. The claim of the *Republican*, based upon section 10 of the act of the Legislature, dated July 10, 1868 The City Attorney stated that the General Assembly has the power to direct in that way the printing shall be disposed of. The act adopted by the Legislature in regard to printing is said to be unconstitutional because it sets aside the contract with the official journal. That this is a mistake. That it only created an additional contract. The Attorney's conclusion is that the printing must be done as near to both journals as the *Crescent*, by act of the Council; the *Republican*, by an act of the Legislature.

The matter was laid over subject to call.

A resolution abolishing the farming of the vacant space between the Beef and Vegetable Markets, was adopted over the Mayor's veto.

The Finance Committee submitted a report for the relief of James Moban & Co., builders of the Upper Board, upon this same subject, was adopted

The resolution from the Upper Board, abolishing the necessity of the specification in regard to contracts was concurred in.

A resolution for shelling Foucher street, from Deford to Calliope, passed its second reading.

A petition to make a banquette and curb Bilvar street, between Lafayette and Common streets, was referred to the Surveyor.

Mr. Camp offered a resolution that a joint committee be appointed by both Boards to investigate matters in relation to the late overflow in the rear of the city. Adopted on its second reading.

A report from the Streets and Landings Committee was received and the resolution to pave a certain portion of St Andrew street and to repair the St. Mary and Soraparu Markets, adopted.

A resolution to sell the contract for building a trunk railroad from the corner of Canal and Old Levee street, down Canal to Basin and other streets to the Lake Ponte Coupee, was referred to the Committee on Streets and Landings.

Messrs Camp, Stricker and Murphy were appointed as a joint committee in relation to the inundation.

A resolution was adopted requiring the City Surveyor to furnish a report relative to what disposition is done with certain public buildings.

The question of the public printing was again called up Mr. Pemberton thought that the matter should be referred to a joint committee.

Mr. Fisher thought it learned that the proprietor of the *Republican* was willing to publish the proceedings of the Council at forty cents per square, providing that all of the usual printing is published. The matter was referred to the Finance Committee.

A number of petitions were received and appropriately referred.

A petition from the Colored Waelyan Society, asking an appropriation of $1000 for the building of a dwelling for the aged and infirm of this society, was referred to the Committee on Finance.

The foreman of the Orleans Fire Company No. 21 submitted a communication stating that the engine house of that company had been greatly injured by the late inundation, and estimates for repairs were required. Referred to the Committee on Fire.

A resolution to approve of the contract with P. O'Donnell, granting him $7600 for repairing the street car tracks on Bayou Road, led to considerable discussion Mr. Pemberton thought that the Street Commissioner should do this work, and thinks that it is believed that official labors should be more closely scrutinized. Referred to the Committee on Streets and Landings.

A resolution was adopted approving of a contract with Wm McWhirter to repair and fix up the Criminal District Court for $5500.

A resolution relative to the lease of the Kellar Market from fifteen to twenty years, was adopted.

The Board then adjourned.

Accidentally Shot.—About 7 o'clock Monday night, a woman named Adele Bisaco was accidentally shot by Oscar Blasco. The ball passed entirely through her body. The woman herself states that it was entirely accidental. She was attended by the City Physician and Coroner Avila. The woman subsequently died of the wound.

Burglary.—The premises No. 24 Poydras street, were entered the other night and robbed of about $400 worth of watches, etc.

The Butler Homicide.—An extensive search was made on Monday for James Jackson, the murderer of Policeman Butler, in the Fourth District. It was believed he had taken passage on a certain ship for Liverpool, but Officer Carr, who conducted the examination, could find no trace of him. A short time since it was said he had gone to Galveston.

Stabbing Affray.—An altercation occurred on the levee yesterday morning between two colored men, which resulted in Philip Davis being cut and stabbed in the breast of the back by Major Williams. The wound is a penetrating one, and will doubtless prove fatal. Officer Mullaly arrested the assailant, and both parties were brought to the Central Station.

Recorder Gastinel's Court.—John Kalspitt, corporal Sullivan with shooting a pistol in the street and attempting to incite a riot. The corporal seemed to think the accused was disposed to do up a Fenian procession; but it would appear from the opinion of the officers that he was only trying to prevent a collision between the police and colored boys. The affair will probably be investigated.

CARPET-BAGGERY.—The Canton (Ill.) *Ledger* contains the following: "Hon. W. P. Kellogg, *United States Senator from Louisiana*, is now spending a short time at his home in this city."

SENATORIAL LANSQUENET INTELLIGENCE.

Charleston, Oct. 13.—John Quincy Adams, last night, addressed an immense meeting of the South Carolina Democracy, in Columbia.

His speech was long and elaborate, berating the same moderate and conciliatory spirit as his recent letter.

Referring to the pending political struggle he said: "Your relations to the political parties at the North have a very important bearing upon your fate, at all events just now, and demand careful meditation. Most of you doubtless regard the success of the Democratic party as essential to your release from your present situation, but it is my duty to remind you that in your present situation have no right to be bigoted partisans. You must, of course, feel a deep interest in the result, and prefer a ruler who will be acceptable to Frances and Europe.

OFFICE OF THE BEE
TUESDAY EVENING, Oct. 13, 1868

COTTON—The sales to-day comprised 2200 bales at about previous rates at the commencement, but at a falling off of a ¼ subsequently, LOW AND FAIR ORDINARY were offered at 23½ to 23¾c, low middling at 23¾ to 23¾c, middling at 24¼ to 24½, and strict middling at 24¾ to —.

The market opened with a fair demand for the North, and an ample supply, but factors were disposed to ask full prices, predicating their pretensions on the Liverpool accounts. Under these circumstances strict low ordinary could hardly have been bought under 24c, and some sales were made at these figures; but later in the day, foreign shipping houses withdrew from the market, and the tone of business was mostly for Great Britain and the North, but a limited amount was taken for the Continent. The sales of to-day were three days sum up 8450 bales, as the receipts 10,686 bales, showing a falling off (against 9147 corresponding time last week) and 960 from Mobile and Galveston. The exports comprise 11,598 bales, 2000 of which went to Liverpool, 1908 to Havre, 1300 to Boston and 4324 to New York.

SUGAR—Are very dull. There are some 300 casks on the levee, but only 75 and 500 casks sold to-day at 60c per basket.

BEAN—200 sacks sold at $1 25 per 100 lbs. The market is dull and unchanged.

CORN MEAL—Is dried is retailing at $ 50 to $4 75 per bbl. We hear of no sales of round lots.

BEANS—Northern Beans are dull at $19 to $20 per bbl. Very few Western in market.

HAY—150 bales Shipps sold at $28 per ton. Prime and choice Western is scarce from Galveston, or C. A. Whitney & Co; bark L. Mason, from Boston; ice and general cargo to G. A. Foedick & Co.; ship Rio Grande, from Wales, with a cargo of railroad iron to Lovell & Bailey; ship Vanguard, Nas from Boston to Wm. Prescott; general cargo to G. A. Foedick & Co.
