WARNER'S SAFE KIDNEY & LIVER CURE

Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of each chemist will show that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact that prior to the discovery of Brown's Iron Bitters combination had never been found. Brown's Iron Bitters does not injure the teeth, cause headache or produce constipation—all other iron medicines do. Brown's Iron Bitters cures indigestion, biliousness, weakness, dyspepsia, malaise, nervousness, and neuralgia—for all these ailments Iron is prescribed daily. Brown's Iron Bitters, however, does not cure in a minute. Like all other thorough medicine, it acts slowly. When taken by the one in the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effects usually are more rapid and marked. The eyes begin at once to brighten; the skin clears up; heady color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious.
