

THE JOURNAL
PRINTED AND PUBLISHED DAILY.
JEROME DAWSON,
STATE PRINTER.
IN THE UNION IT MUST BE PRESERVED,
WEDNESDAY MORNING, JAN. 23, 1833.

FOR GOVERNOR,
J. B. DAWSON.

The present incapacity in the arrival of the mail via Mobile is unprecedented. Yesterday the mail furnished a budget of newspapers (if we may so term them) furnishing dates from N. York to the 15th of December, Boston 13th of December, and Charleston the 22d of December, being nearly a month's arrears, which were all the papers received from the North, except a date of the 7th of January, given at Mobile. Such a fare [imposition] ought to be strictly examined into.

We were politely furnished yesterday by a respectable commercial house in this city, with a circular from Liverpool bearing date of the first of December, and the copy of a Commercial Letter of the 4th, obtained by the arrival at New York of the ship America, from Liverpool a statement of that Market will be found under its appropriate heading. At the contents of the letter dated the 4th, the capture of the citadel of Antwerp as furnished by an arrival at Havre, appears incorrect, but the letter states that a report is current, that the garrison of Antwerp had commenced firing on the French troops.

Appointments by the governor, confirmed by the senate. To the Director of the Louisiana State Bank—M. S. Callie, R. L. Bernard, Zouan Cavalier, F. Gaignier, J. Roynes, C. Tolledo.

Adolphe Le Gendre to be notary public for the parish of East Baton Rouge.

F. Gardner, esq. was on Monday re-elected state treasurer by the unanimous vote of both houses of the general assembly.

CONGRESSIONAL ANALYSIS.

HOUSE OF REPRESENTATIVES.

WASHINGTON, January 5th. Mr. H. Everett offered the following resolution, which has one day on the table, under the rule. Resolved, that the secretary of the treasury be requested to prepare and lay before this a comparative statement of the rates of duties on imports, under the acts of 1816, 1818, 1824, 1829, 1832, and under the bill reported by the committee of ways and means of the present session.

On motion of Mr. Ardin, Resolved, That the committee on the Post Office and Post Roads be instructed to inquire into the expediency of establishing a post route from Calhoun in McMinn county, in the state of Tennessee, by way of Turkey Town, to St. Clair Court House, in the state of Alabama.

On motion of Mr. Thompson, Resolved, that the committee on the Post Office and Post Roads, be instructed to inquire into the expediency of establishing a mail route to New Lisbon, Columbian county in the state of Ohio, by the Village of Clarkson and Maize ears roads; to Beaverton in the state of Pennington, and that said committee further inquire into the expediency of establishing a mail route from Canada, Stark county, by the village of Geo. wt. w., to S., in the county of Columbian, in the state of Ohio.

The house then resumed the consideration of the bill, for the relief of Major General Alexander Macomb, (which goes to relieve him from the payment of \$10,000 as security for a paymaster.) Mr. Ward explained, and advocated the bill with great warmth. It was proposed by Mr. Daniel that the bill go to the committee on the judiciary. Mr. Williams thought it should be referred to the committee on claims; and on these motions a long and desultory discussion arose, which was not terminated when the House adjourned.

[COMMUNICATED.]
Consular Certificate.—A public meeting of the importers of goods from Europe especially called for Saturday last, to consider measures to be taken to repeat the new regulations by which consular certificates, for the rate of exchange, have been required lately, by the custom house of this port, for such favours from certain countries.

Editors of papers friendly to commerce are requested to publish the above.—COURIER.

THE CHOLERA.

This frightful malady has now made its appearance on the plantations between 10 and 80 miles above this place. During the last week John W. Janerette, esp. lost a very valuable negro fellow, and Col. Richardson had 3 attacked, one of whom died. Several others have been attacked in the same neighborhood. It appears to be almost exclusively confined to the coloured population. Really, it seems to be confined to every portion of our fair country, cases which have occurred lately, do not appear to baffl medical skill to such extent as those which occurred during the months of October and November, and in every instance where medical aid is called in at the commencement of the disease, a cure is almost certain to follow. It may be proper to state, that persons who are accustomed to making too free use of ardent spirits, seldom recover.

Boston Atlas.

From the National Intelligencer, of January 7th.—Our readers are already apprised, that the subject of a proposed reduction of the Tariff, is before both Houses of Congress, and that in the House of Representatives a bill has been introduced, in which the sum to be proposed the early report of a bill now introduced, to give an affirmative preference over all other articles of legislation.

It is still doubtful, whether any legislation will result from this agitation of the question. The view which is entertained of this subject by the friends of the Manufacturing interest in the East, may be inferred in anticipation from the following extract of a letter from this city, which we do not hesitate to attribute to the pen of some Member of Congress, from that quarter:

(Correspondence of the Boston Courier.)
WASHINGTON, Dec. 27, 1832.

The blow which I alluded to, in former communications, has fallen upon the North, as well as upon the South. The Committee of Ways and Means started a tariff bill this morning, which will protect our industry in manufactures and the mechanical arts. Cottons, after 1834, as well as woolens, are to pay but 20 per cent; and the minimum on cottons being already abolished, the protective duty, instead of being from 7 to 8 cents per pound, will be only 1 to 2.

This bill, however, is to be limited to cottons, and that is all more than 60, if it passes, and there is but a slight hope of passing it, for the administration will urge it through, if possible.

Thus the sufficiency is to be put down by the bill, and it is to be adopted.

A written opinion from the Governor, by Mr. Douglass, his private secretary, was delivered.

Mr. Douglass obtained leave to introduce a bill "to incorporate the Orleans Cotton Press Company, and

"An act to incorporate the First Congregational Church in this City and Parish of New-Orleans."

Mr. Douglass, on behalf of the joint committee of arrangements for the celebration of the 5th of January, reported a bill entitled "An act to change the terms of the District Court in the Parish of Carroll, in the 4th Judicial District."

Mr. Berthe, agreeably to notice, introduced the following bill:

An act to incorporate the Orleans Cotton Press Company, and

"An act to incorporate the Public Library—Passed."

Resolution relative to the Public Library—Passed.

An act to incorporate the New-Orleans Library Society—Passed.

A resolution appointing a joint committee to draft a bill for the purpose of ascertaining the sense of the people on the expediency of revising the constitution—Rejected.

The year and day of whose rejection were, for it, Messrs. Moore, LaCoste, Lacoste, Nicolas, Perret, Tenney and Thomas—8 votes.

Against it, Messrs. Moore and Weatherbee—2 votes.

Against it, the Senate—10 votes.

Against it, the House—10 votes.

To the subject of a very brief paragraph on this subject, which we find in the American Sentinel (Philadelphia), of Saturday morning, we attach more consequence than if from almost any other source, were longer. The protective principle cannot be broken in upon, to the extent proposed by the bill now depending in the House of Representatives, without the loss of friends of the Administration in Pennsylvania and New-York. We therefore, following the partisans, indicating beyond doubt, that, on this point, they (or "many" of them) have taken their stand:

From the American Sentinel, Jan. 5.

The Gazette—it is the opinion of gentlemen of the first intelligence at Washington, that the new Tariff will not satisfy many of the members of Congress who would shew themselves averse to the changes, think it goes too far, and that it is abruptly.

The Mail of yesterday brought us the news of the death, by very sudden illness, of the Honorable James Hillhouse, many years ago a Senator of the United States and leading politician, and at the time of his decease one of the most venerable men in the Union. We bear a more particular account of his life, his party, his political career, and his death.

Letters of administration, are requested to present their demands to the Secretary of the Senate, or to the Senate, or to the House of Representatives, who will be satisfied with very small payment.

All persons who may have claims against the estate of

Antoine Durand, are requested to present their demands to the Secretary of the Senate, or to the Senate, or to the House of Representatives, who will be satisfied with very small payment.

Liverpool Market, Dec. 14, 1832.
(For ship America, at New York.)

There has been a moderate demand for Cotton, since we addressed you on the 1st inst. The total sales yesterday were 1,500, and to-day, they have amounted to 1,900 bags, at twelve cents per bag.

A report is current, that the Garrison of Antwerp, has commenced fire upon the French troops: we hope this will draw to a conclusion.

LIVERPOOL, Dec. 14, 1832.

Gentlemen.—The trade induced by the last unsettled state of Continental politics, have during the last

months principally consisted purchases to their immediate wants, and as very little has been done on speculation,

about 4000 Americans are on speculation; and although

the price has not materially given way, yet even with the

present small stock, 25,000 bags less demand: than at the

last, the holding freely meet the demand: but do not alter

the condition of the Orphan Boys' and Female Poor Asylum.

Nicholas, Perret, Saunders, Thomas, Tenney and West-

cott.

The secretary having announced to the senate, that an

amission had been made to the 1st of January, in the 14th inst., in

order to meet the demands of the French.

It was ordered, that the garrison of Antwerp, be

not stoned to death for internal improvements. It was

ordered by the senate, that it be entered on this day's journal.
