L. DUPERRON & E. DELCAMBRE DRS' DENTISTS

NO 230 BOURBON STREET

Between St Philip and Maine.

MESSRS DUPERRON & DELCAMBRE have the honor to inform the planters of St Charles, St John the Baptist, Donaldson, Lakeourche, the Attakapas, &c. that Dr. L. Delcambre will call upon them, through those sections of the country during the ensuing season, with the intention of exercising his profession. Messrs G. Duperron & E. Delcambre, who are in the habit of warranting their operations, inform those persons who may honor Mr. Delcambre with their confidence, that if they have any fault to find, their establishment, which is permanently fixed in New Orleans, will be promptly opened to them. All those requiring dental operations may, with perfect confidence, apply to Dr. E. Delcambre, more especially for the insertion of artificial teeth, from a single one to an entire set, which he accomplishes by a new process that ensures its complete success.

DR BLANCHARD—Ex dentist to their Majesties the King and Queen of France, the Princes and Princesses, Surgeon dentist to the faculty of Medicine at Paris, and of New Orleans;

Fixes natural teeth, without the least pain, in imitation (perfectly natural) of the human teeth in a complete set;

Directs the second teething of children—and corrects any deviation in their teeth;

He has had long experience, minute and constant practice, in France and America, in the dentist art, and all that relates to its operations, preserving at once the mouth and the teeth;

He possesses a gum cement, which repairs ravages effected by decay, of the same color of teeth, and which is the most precious substance that has yet been employed—and none other can, at this time, plumb the teeth so beautifully as this;

The operation is made without any pain, and is achieved in a few minutes.

Dr. Blanchard has recently invented for the Teeth

Or Gaulic, without mixture, the most insensible and most perfect or nearly employed.

A new Fluidic (still painless) toplumb the teeth;

Lithe-Caustic, instantly causing pain in the teeth to cease;

In order to reform the gums, consolidating the looseness;

Tooth-Water for healing the mouth and preserving the teeth;

Powder of Cayac rectified, to give a tone to spungious gums;

Opiate of Quinine to clean and fortify the teeth;

Tooth Brushes of the most famous kinds, to erase all sense of a tartar taste about the teeth.

Dr. His Office, at No. 196 Royal street, is open every day from 9 o'clock, morning until 3 in the afternoon, Sundays excepted. Charges moderate.

By first destroying the nerve with this remedy, the excruciating pain frequently caused by inserting pivot teeth upon the old method, is entirely avoided.

All other operations carefully performed. m8

SPECIFIC AGAINST YELLOW FEVER.

NO person who has used this remedy, even in the mild incontinent to these cruel phlegmatics, the yellow fever and the plague; they are inflammations of the mucous membranes of the digestive organs, which by the alterations and modifications which for a long time have indicated their approach, have manifested in a group of the most pernicious fevers, which hastened to their gravest issue in eight-ths of those who had the misfortune of seeking the remedies which are to cure them. Under these circumstances, their symptoms are better known, nonetheless is still the case within the reach of their victims. I will not attempt a further description of this pernicious fever, which has so frequently covered with success, having confined me to the efficacy of the specific against yellow fever, I offer it to the public from the implicit confidence which my superiority over any other sort of medicine.

WILLIAM W. THOMPSON'S PATENT IMPROVED *LEADEN PIPES.*

THE manufactory of these pipes, in St. Louis, Missouri, is now in the attention to the excellence of his leaden pipes, made by a new and patent process, (to which he has the exclusive right,) from the Missouri and Mississippi and south-west of the Alleghany Mountains) of a better quality than can be produced by any other known method.

The patent pipes is remarkable for its uniformity of thickness, the accurate bore, the perfect polish of the interior surfaces, the absence of seams and flaws, the very long length without joint, for its unusual strength—these advantages will be evident to any body upon examination.

Besides the usual sizes from one-eighth to five inch in bore, he manufactures all sizes of large diameters and colors, very light leaden pipes for conducting water from spring at long distances under slight pressure or head of water, and for other purposes
