

BLOOD TYPES

What type are you?

Do you know what your blood type is? Have you ever wondered whether this is useful?

It is very important to know what blood types you are. Many people don't have this information. The purpose of this article is to teach why it is vital to know about this issue.

Let's start learning more by reading this [article](#). It expands the information given in the video. Does it contain too much information? Let's do it step by step. This file will help you understand specific vocabulary. And this Cmap will help you organize the information.

So, now we have a clear picture of how blood types are classified and how many blood types there are.

It is your turn to let other people know about this, so that more people each time will become aware about this issue.

Tell others **who they can donate blood to** and **who can donate blood to them**. This may save many lives.

Spread the word!!
