tious. Furthermore, he regards this as absolutely necessary, as the provisions of that amesdement exclude thousands from office, but made the Government and the States, and this will lead to complications which should be avoided.

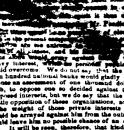

Mr. Chase arges that the most liberal aid should be axtended to the Seath in improving their railread systems and also their navigable rivers. He thinks aid should be given to repair the levees on the Minestepi, but liberal aid which where con the Minestepi, but liberal and which where con the Minestepi, but liberal and which where the provided because the seath in improving their railread systems and also their navigable rivers. He thinks aid should be given to repair the levees on the Minestepi, but liberal and which where the provided because the seath in the provided and the provided to the Minestepi, but liberal and doorsepondingly to the wealth and prosperity of the country.

Mr. Chase streamonely urges the early return to specie payments. He believes it could be done without damage to any interests, and in a comparatively sheet period of time it would not matter whether the bonds were paid in green method and make had considered the bonds were paid in green that the wealth and prosperity of the country.

Mr. Chase streamonely urges the early return to specie payments. He believes it could be done without damage to any interests, and in a comparatively sheet period of time it would not matter whether the bonds were paid in green method and make had considered the provided that the first ball the stream of citizens by Rittlery Commissions in time of passes. He regards it as an arrogant assumption of power most dangerous to the country, and thinks it should not be belorated. The Chief Justice made no reference whatever to the McCardie case, but his opinion, as recorded in the colebrated Milling an ease, admits of no doubt are to the McCardie case, but his opinion, as recorded in the colebrated Milling and case, admits of no doubt as to what they are. in the colabrated Milligan case, admits of ne doobt as to what they are.

Mr. Chase expressed the hope that if Mr. Johnson about reorganize his Cabhant, he would appoint a proper proportion of its members from the Southern Brates.

It is considered to the conversation he deprended the course of fits conversation he deprended the course of Congress. especially of the Rouse of Representatives. He considers their assentis on the jediciary and other legislative extracts are more expectable of the result of the results are considered to the results of the Pratient, Mr. Chase said the pardoning power was certainly a constitutional procognities of the Pratient and Courseas that

From the Selfast (Mr.) Republican Journal, May 22] In placing at the head of our columns, as we do to-day, the name of Hon. George H. Pendieson as ever preference for leader in the coming Presidential campaign, we do so with a conviction that he sembodies the high personal qualities indepenable in that exalted position. But beyond that, and of influietly greater importance to the people of the country—the people, whose united intelligence and labor create its wealth—is the fact that from him emanted those great principles of justice in the finances of the country, no reasonable, fair and equal in their operation, that they have everywhere been adopted with esthusiasm by the Damocracy. He was the first to percolive the
