Internal Opinions.
Special Police Force.

It is not to be expected that the Government of the United States will be able to meet the demands of the people of this city for a police force of its own. The Government has been unable to do so for many years past, and it is not likely that it will be able to do so in the future. The people of this city are entitled to a police force of their own, and it is the duty of the Government to provide it for them.
