ADOPTED

FOR COUGHS, COLDS, ASTHMA, BRONCHITIS, CROUP, &c.

STABLER'S DIARRHŒA CORDIAL

THE valuable medicine above named, are not empirical, but act upon the most rational principles with the experience of some of the most learned and judicious practitioners, and have not one cent, further than a necessary to procure the proprietors and those who use them from prosecution. They are warranted to be what they are, and have made known, CONFIDENTIALLY, from time to time, to parties

500 PHYSICIANS!!!

in Maryland, Virginia, District of Columbia, Ohio, and other places, all of whom, without a single exception, have approved of the formula, and most of them acknowledge that they are the best practice that they have ever known for the cure of the diseases for which they are recommended. Our confidence in the excellence of these medicines, added to our desire to afford the most prejudiced of the medical profession the most ocular proof, gave us the courage, not to adopt this method of secrecy. We append a few of the notices we have received from Physicians, viz:

From Dr. William H. Ferrour of Swan Hill, Md., (Gentleman,—I have frequently, by personal use, prescribed your "Stabler's Anodyne Cherry Expectorant" and Diarrhœa Cordial, and have found them similar to myself, and to the entire relief of such diseases as they profess to cure. I consider them happy combinations of some of our most valuable medicinal agents, pleasant and sure be of infinite worth to the afflicted and mankind at large. I furnished you with the formula of these active and concentrated preparations, so convenient for administration, and of such excellent quality, you have rendered them an eminent service, and I can do no less than earnestly recommend these preparations to my practitioners. Believing that the formula is worthy the impartity of commercial things is one of the greatest obstacles to the success of the Profession.

Dect. W. S. Love writes to us that he has ultimately tested the virtues of the long experience of his Bronchitis for fourteen years, and that she is fast recovering from her long-standing malady. It has in a few weeks done more good than all the remedies she has heretofore used made known, viz: remedies.

From Dr. H. J. Woodward, Andre, of Kingston, Talbot Co., Md

"After several months use of your Expectorant, both in my own family and in general practice, I am confirmed in the opinion expressed of it when first made known to me by yourself, that it is one of the best, if not the best Cherry.

From Geo. Gerry, M. D., of Somerset Co., Md.

"Gentlemen,—I have used many of the different Cherry Expectorants, and I do assure you that yours far exceeds any I have ever tried."

From Dr. T. Ridgway Andre, of Kingston, Talbot Co., Md

"Having examined the component parts of Stabler's Anodyne Cherry Expectorant, also of "Stabler's Diarrhœa Cordial" and having used them in practice, I feel no hesitancy in recommending them.

From J. E. Meech, M. D., Kent Co., Md.

"I have made free use of your Diarrhœa Cordial in my family, it gives me pleasure to add my testimony to that of others, in favor of its efficiency."

From Samuel Andrews, M. D., of Annapolis City, Md.

"I have much pleasure in adding my testimony in favor of your valuable Cherry Expectorant. I have, after an extensive use, found it to answer all my expectations.

From Dr. Daniel W. Jones, Somerset Co., Md.

"I have given your Expectorant and Diarrhœa Cordial a fair trial, and am delighted with their effects, and have long had them in full use. I therefore can shall take pleasure in recommending them."

We have been favored with numerous certificates, cheerfully given by Medical gentlemen in Maryland, Virginia and Ohio, which alone should convince the most fastidious that they are really "Good Medicines;" after stating that they are acquainted with the composition of both the Expectorant and Cordial, and that they have administered them to their patients. They testify "that they are worthy of the patronage of the Profession and the Public, that they are MORE THAN WE HAVE ALL WELL, WORTHY
