L. MILLER'S HAIR INVIGORATOR,

AN EFFECTUAL, SAFE AND ECONOMICAL COMPOUND

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the Hair from becoming gray.

FOR PREVENTING BALDNESS, and causing it, when there is the least particle of vitality or reproductive energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequaled gloss and brilliancy, making it soft and silky in the texture and causing it to curl readily.

The great celebrity and the increasing demand for this unrivalled preparation convinces the proprietor that it is only necessary to call the attention of the public to the merits of the article, to induce every person of discernment to use it. It eradicates the humid and scaly matter which adheres to the roots of the hair, and which, if allowed to remain, occasions baldness, and prevents it from growing; and, when used as directed, it will give strength and vigor to the hair, cause it to grow on bald places, and restore it to its original color. Read, reasoning in its mind a fund of information, and be convinced.

Hundreds of ladies and gentlemen in New York who have used it, and their testimonials to the use of this article are open to the inspection of all who call at the office. It is the most valuable preparation for the hair ever offered to the public, and is warranted to do all that is claimed for it. It will certainly restore the hair to the most beautiful color, and cause it to grow luxuriantly. Ladies who have suffered from the use of dye stuffs will find this preparation invaluable, as it will restore the hair to its original color, without injuring it in the slightest degree. Gentlemen who are troubled with dandruff will find this article a most delightful dressing, and one that will effectually remove it.

ANTI-RHEUMATIC AND ANTI-GOUTY WINE OF DOCTOR D'ANDURAN.

The efficacy of this specific remedy against GOUT and RHEUMATISM is supported by numerous observations made by French and foreign physicians. It will not only stop an acute fit and, but also prevent the return of the disease. It is at the same time purgative, sudorific and diuretic, counteracting inflammations of the bile. A prompt modification of the urine takes place, as a chemical analysis will prove, and the patient feels relieved in proportion by the action of the ANTI GOUTY WINE. Each bottle is corked and sealed, and bears the signature of the inventor in full, thus: D'Anduran frères.

Dr. Alain's Pomatum

FOR THE CURE OF PITYRIASIS OF HAIRY SCALP.

Of all the causes which produce baldness, none are more frequent or more active than PITYRIASIS of the hairy scalp. Such is the scientific term given to that disease, which is chiefly characterized by the formation of particles and scales on the surface of the skin, frequently accompanied by redness and irritation. When very slight and in a mild form, it cannot be overcome by ordinary means, and the consequences of these causes are applied to the EFFECT, and not to the CAUSE. The Pomatum is rubbed on the scalp, and, by modifying the integuments and reestablishing it in its primitive condition, it removes the cause of the disease, and thus prevents the effect, viz., baldness. Sold in New Orleans, by Ed. Guillot, druggist, and in the principal drug stores.

COPAHINE-MEGE

(With approbation of the Academy of Medicine, a Gold Medal from the Hospitals of Paris.)

CURATIVE PRINCIPLES of copaiba, in sugar capsules, prepared by G. JOSEAU, pharmacien, Saint Quentin street, No. 22, Paris. Copaiva and Cubebs are, without doubt, the most efficacious agents for the cure of Blennorrhagia; but in addition to cholics, vomiting and eructations, they cause a disgust of the stomach which follows their every use, and of such a repulsive taste that M. Cullerier, chief physician of the Hospital for Syphilitic Patients, plainly said at the head-quarters: "That he had given up using Copaiva, but through the COPAHINE-MEGE, which he had tried in his practice with Messrs. Bouley, Bouley, Jeune and Bezin, his colleagues, he had been entirely reconciled with the valuable agent." Under this treatment the COPAHINE-MEGE has constantly been used in the Paris and London Hospitals, where it has cured more and sooner than any other preparation. In course of six days. Manufactured at No. 22 Saint Quentin street, Paris—in London, Hay Market, No. 69.

Many counterfeits and imitations are sold in America; see that the label bears the signature of the real inventor, G. JOSEAU, across the factory-mark.

Sold in New Orleans by Ed. Guillot, druggist, and L. Castel, do. and in the best drug stores
