- Pakistani officials arrested them the following morning, 15 December 2001, without incident.

- At a later date, the detainee was transferred to US custody.

b. (S) Transfer to JTF GTMO: Detainee was subsequently transported to Guantanamo Bay Naval Base, Cuba, on 17 January 2002.

c. (S) Reasons for Transfer to JTF GTMO: The specifics of why the detainee was transferred were not stated; however, detainee possesses intelligence information.

d. (S) Reasons for Continued Detention in Another Country:

- Detainee also has possible connections with another terrorist group, the Salifist Group for Prayer and Combat (GSPC) – a Tier 2 Target defined by sensitive information as one that has demonstrated both the intention and the capability to attack US persons and interests based on:

- "The House of Algerians" belonged to Jaffar Al Jazzari who was the head of the North African Terrorist Network in Afghanistan. The house was run by the organization for the purpose of supporting and training North African recruits in Afghanistan.

- According to sensitive report, Al Jazeeri aka Abu Jaffar is an Algerian GSPC operative in Afghanistan. He has coordination training for GSPC recruits in Al-Qaida camps in Afghanistan and was also a leader of a contingent of Algerians in the Tora Bora region. It is assessed that this individual and Jaffar Al Jazzari are one in the same.

- Detainee's family has extensive ties to Al-Qaida and has been implicated in the procurement and plans to deploy chemical weapons in terrorist attacks.

- Detainee's brother, Menad aka Abu Hak is known to be a senior leader of the French cell linked to a Mujahideen group in Pankisi Gorge, Georgia (GG).

- Detainee's brother Menad was preparing toxic potions in face cream containers at the family home with plans to attack Russian interests in France, including the embassy in Paris.

- Detainee has extensive knowledge of his family's activities but has refused to cooperate.

- According to sensitive information, detainee's whole family to include his mother were arrested in France. When Menad was arrested, lists of chemicals and equipment including a protective suit were found.

- Detainee is linked, by his own admission, to individuals that have been determined to hold senior terrorists positions in the EUCOM AOR.

e. (S) Intelligence Value: JTF GTMO has determined that this detainee is of medium intelligence value due:

- His knowledge of Al-Qaida.

- His family's involvement with chemical weapons procurement.

JTF GTMO-CG

SUBJECT: Recommendation to Transfer to the Control of Another Country for Continued Detention (TRCD) for Guantanamo Detainee, ISN: US9FR-000161DP (S)

- His knowledge of members of terrorist cells/crime syndicates in France and elsewhere throughout the AOR.

4. (S) Detainee's Conduct: Detainee's overall behavior has been generally non-compliant but non-aggressive. ISN 161 has on a number of occasions failed to comply with guards' instructions, performed physical training (i.e., pull-ups), been involved in yelling across to detainees in other cell blocks, and teaching other detainees English. Detainee has been belligerent to the guards on a number of occasions.

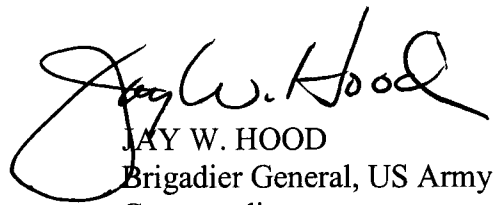

5. (S) EC Status: Detainee's enemy combatant status was reassessed on 24 February 2004, and he remains an enemy combatant.

6. (S) JTF GTMO Assessment:

a. (S) Summary: JTF GTMO has assessed this detainee to be a member of Al-Qaida and having several ties to other global terrorist networks. Detainee has demonstrated a commitment to Jihad, has links to key facilitators in Al-Qaida's international terrorist network, has participated in terrorist training and hostilities against the US and coalition forces, and maintains the capability to continue to do so. Detainee is assessed as a high threat because of his close ties with active elements of Al-Qaida, including several members of his immediate family who are known terrorists and who are active in the procurement and use of chemical weapons. JTF GTMO has determined that the detainee poses a high risk, as he is likely to pose a threat to the US, its interests and allies.

b. (S) Recommendation: JTF GTMO recommends this detainee be transferred to the control of another country for continued detention.

7. (S) Coordination: JTF GTMO notified the Criminal Investigative Task Force (CITF) of this recommendation on 15 March 2004. JTF GMTO and CITF agree on the threat assessment of this detainee as a high risk.
