CAPITAL OF
200,000 dollars.

The Subscriber has the pleasure to announce that he is ready to receive and execute in the shortest and best manner, and at the most reasonable rates, all Orders connected with the business of the establishment. Particular attention will be paid to the manufacture of LOCOMOTIVE ENGINES; which will be warranted in every respect equal to any others, whether imported or made in this country.

The works consist of Machine Shops, upon a large scale, and extensive Foundries for finishing Castings of every description both in Iron and Brass. They are situated in the south-western section of the town of New-Castle, directly upon the New-Castle and Frenchtown Rail Road, which forms a part of the thoroughfare from North to South, and upon the bold waters of the Delaware River. Besides Locomotive Engines, the subscriber will manufacture:

High and Low Pressure Steam Boat and Stationary Engines,
