RANDELL HUNT,
Chairman of the Com. of Arrangements.

LATER FROM EUROPE.

The packet ship *Montezuma*, Capt. Lowber, arrived at New York on the 5th inst., bringing London papers to the 7th ult., and Liverpool to the 8th, both inclusive. We copy the following summary of the news from the New York *Journal of Commerce*.

Ship Wales, Capt. Wells, from Manilla, for New York, with a cargo of Hemp and Sugar, was lost in August in the China Sea. Insured in Wall street for $43,000.

The sum of £230,613 is to be applied towards the reduction of the British National Debt, during the quarter ending 1st of April next. Every little helps.

Little Vic met with a slight accident, on the 5th ult, having been tipped up against a ledge, in consequence of one of the wheels of her carriage very unpoperly running into a ditch. The only damage was, that she had to ride home in a small pony car, which was lented her for the occasion by a faithful subject.

The average amount of bullion in the Bank of England from October 7th to December 30th inclusive, was £20,955,300; circulation £18,038,000; deposits, £11,750,000; securities, £20,067,000.

The Marquis of Westminster has transmitted a contribution of £500 to the Anti Corn Law League.

At ten o'clock in the evening of the 21st ult, a somewhat violent shock of earthquake was felt at Gironnay and the environs, in the Haut Rhin. Its duration was two seconds, and it was preceded by an electric light, which overcame all the lamps and candles.

The Berlin Gazette states, that an order has been issued by the Emperor of Russia, forbidding the functionaries of the Russian provinces of the Baltic to wear either beard or mustachioes.

The Augsburg Gazette states from Rome, Dec. 22, that the Papal government has ordered a levy of men for the army, for the purpose of placing it on a footing to resist any attempt that may be made to disturb public order.

Reduction on the Duty on Tea.—This important subject is at present engaging the serious consideration of the different commercial associations connected with India and China. The East India and China Association of this town has forwarded a memorial on the subject to the Lords of the Treasury, praying for a reduction of the duty to 1s. per pound, on the principle of its leading to a great increase in the consumption of tea, independently of the political and commercial results to be derived from the proposed alteration.

[Liverpool paper.

The Tobacco Trade.—From the result of the interviews had by the deputation of the tobacco trade with the Chancellor of the Exchequer, it is inferred that no reduction of duty is contemplated, but that there will be an alteration in the excise law affecting the article.

The Revenue.—On the whole the account of the revenue, to Jan. 5th is satisfactory, both with respect to the quarter and the year.

That for the quarter just ended exhibits an increase over that of the corresponding quarter in 1843 of £172,000; and the year just ended, as compared with the preceding one, there is an increase of £1,212,078; the revenue for the year ending January, 1843, having been £51,386,365, that for the year which has just expired, £52,607,949.

The item which exhibits the principal increase, as might be expected, is the income-tax, the produce of which, in the last financial year, were only £5,1,0,0, while in the present, they are £5,929,260. Under the head of Customs, there is a slight decrease of £1,000, and under that of Excise, an increase of £356,874, and the Exercise presents the gratifying aspect of an increase both on the quarter and the year; on the former of £68,753, and on the latter of £1,076,000. We are glad to indulge a hope that the condition of our laboring classes, so surely tested by the consumption of excisable articles, has improved within the last twelve months to a still more gratifying extent. We sincerely hope that the stimulus which has recently been given to the work of our artisans will not be without its proper effect on wages and its consequent comforts and comforts.

The Post Office exhibits a trifling increase on the quarter, and a decrease on the year; on the quarter an increase of £2,000, on the year a decrease of £13,000.

Times.

London, Saturday evening, January 6, two o'clock.—This is the first private transaction we have had in the market, and, as the stock has been rather pressed on the market, there is a slight decline in prices. We could not call the market flat, but merely fluctuating from an increase to a decrease. The Exchange will remain open until 4 o'clock to-day, owing to the continuance of transfers at the Bank till the usual hour. No purchases are yet reported to be made for the Spanish Consols have been 27 7-8 to 28 1-8 both for money and time. Exchequer bills have obtained 6s. to 60s. premium; and East India Bonds 2s. to 3s. Bank Stock has been 199 to 198; and India Stock to 272 and 273; Reduced Three per Cent Annuities have been 97 5-8 to 97 7-8; the Three and a Half per Cents 103 to 103 1-8; and the New Threes sold, this morning, at 102 3-4 to 103 1-4.

The Foreign Market is quiet.

The Island of Ascension.—We stated a day or two since that the Portuguese were not to be allowed a naval and mercantile depot on the Island of Ascension—from the position of this Island in the South Atlantic, and its great importance as a station for vessels bound to and from the Cape of Good Hope, and as a rendezvous for ships of war on the Coast of Africa and the South American station, the government have been induced to put their own construction on the place on a different footing than hitherto. A naval officer is to be the governor, and a marine officer the commandant.

We understand that the Admiralty have determined that Commander William Fitzjames, R. N. (1826), is to be the governor, and Capt. John Fraser, R. M., the commandant.

Daniel O'Connell.—Mr. O'Connell has been making triumphant progress through some parts of Ireland, previously to the commencement of the trials. On Saturday night last in Cork, the following day, a deputation of the citizens waited upon him, accompanied by the Mayor, who invited him to attend a public dinner on any day he could name, after the Sessions. Mr. O'Connell said he would accept the compliment the moment Baron Pennefather would give his permission. The request, I dispatch was sent off, and in the course of an hour and a half, an answer, and in unparalled jury were struck, the whole affair would not last forty-eight hours.

On Tuesday Mr. O'Connell arrived at Clonmel, where it had been previously arranged he was to be entertained at a numerous banquet. He was met by an extensive procession, and was received with the most extensive demonstrations of feeling from Hearn's Hotel, during which excellent advice as to their future conduct, expressed in the course of examination, defending himself to undergo his persecution without counsel, that, notwithstanding the full knowledge of the extent of English prejudice it present age would not permit the Saxon to deprive him of his life, that Lord Plunket, offer to go to London and take his trial before a jury of Englishmen if the Cabinet Ministers should try to deprive him of justice by sending him to trial.

It appears, from the *Dublin Evening Post*, of Saturday, that the Catholics are grievously offended at the insult which they conceive has been offered to them, in the course of the week, a requisition will appear for an aggregate meeting of the whole Catholic body, for the purpose of denouncing this alleged grievance.

Repeal Association.—The weekly meeting of the Repeal Association was held on Tuesday last, in the Conciliation Hall. Mr. O'Connell announced the amount of the Repeal Rent for the week as £999 9d., remarking, that the average receipts that time twelve months were £270 a week.

Spain.—By the last arrival it was mentioned that the Spanish Cortes had been prorogued preparatory to their dissolution. This event took place on the 27th December, and appears to have been wholly unexpected by the members. The plan of action which ministers have made known to their friends, is thus described in the London Morning Chronicle:

"It [the Cabinet] will continue to receive the confidential which are indispensable for the service of the Queen. It will publish by decree, a law, wisely concocted, respecting the Ayuntamientos and the Provincial Deputations, and it will proceed in a like manner for the definite organization of the National Guard.

"2. After these measures, which are of great interest, it will again assemble the Cortes in order to obtain a vote of bill of indemnity to what the Ministry may have found it necessary to do for the good of the country.

"4. If the Cortes do not grant a bill of indemnity, it will be dissolved."

The ministers are also said to have purchased the adhesion of the Infant Don Francisco de Paula, by giving him a colonelcy of cavalry and each of his sons a lieutenancy in the navy. These proceedings have united against the Moderados all sections of the liberal party.

It is now certain that Olozaga has taken refuge in Portugal, as he entered Castello Branco on the 19th December.

London, Jan. 6.—Our accounts from Madrid of the 29th ult. state, that Messrs. Olozaga, Pezuela, Nocedal and other deputies chosen by the Moderado majority of Congress, waited, in the evening of the 25th, on M. Gonzales Bravo, to demand an explanation of the progress which the Government was making in its negotiations for a new Ministry
