

NEWSPAPER PUBLISHED DAILY BY JEROME BAYON. Days of publication during the summer: TUESDAY, THURSDAY & SATURDAY. TUESDAY MORNING, JULY 17, 1882.

REPUBLICAN TICKET. FOR PRESIDENT. ANDREW JACKSON. It is fortunate for the country that Gen. Jackson is likely to be its public life at the end of the present four years; in him is the only hope left of avoiding the dangers manifestly about to rise out of the broad construction now given to the constitution of the United States which affords all limitations of power, and leaves the general government, by theory, altogether untrammelled.

MARTIN VAN BUREN. ELECTORS OF PRESIDENT AND VICE PRESIDENT. First District—JOHN B. PLACHE. Second District—THOMAS W. SCOTT. Third District—ALEXANDER LANDRY. Fourth District—ALEXANDER MOULTON. Fifth District—PLACIDE BOSSEIER. GOVERNOR. J. B. DAWSON.

It is well known to the patrons of this journal, that, hitherto, in regard to national politics, it has observed a strict neutrality. This neutrality was established during the time that the proprietorship was vested in the individual of opposite political opinions; and it has been preserved from the time that the present proprietor became the purchaser of the office establishment, until now, not only because he deemed that the journal which professed to support the present administration of the general government was already a victim of a similar course, but also because he had apparently given satisfaction to his subscribers and patrons.

A crisis having now arisen in the affairs of the republic, in which a longer maintenance of neutrality might be deemed imprudent, the conductor of this journal is therefore impelled to curd himself with the waters of the river, and to advocate the present administration of the general government. A new period has arrived in the history of our country. The principles upon which the republic was founded are now being called in question. The proud, aspiring spirit of American republicanism is being supplanted by a spirit of selfishness and of avarice. The nation, threatened to be divided into two warring camps, is being torn asunder by the passions of the moment. The honor of a glorious people, which, but a few years ago, humbled the pride of the monarchial nations upon which it looked, is being sacrificed to the interests of a few individuals. The laurels purchased by illustrious warriors, who have withered in the unhalloved keeping of sectional politicians; the national spirit is moldering away; the blood of our fathers, mingled upon every battle field of American freedom, is giving way to the love of wealth and sectional advantage, and a dissolution of the republic has come at length to be talked of, by those who are opposed to the present administration of the general government.

It is well known to the patrons of this journal, that, hitherto, in regard to national politics, it has observed a strict neutrality. This neutrality was established during the time that the proprietorship was vested in the individual of opposite political opinions; and it has been preserved from the time that the present proprietor became the purchaser of the office establishment, until now, not only because he deemed that the journal which professed to support the present administration of the general government was already a victim of a similar course, but also because he had apparently given satisfaction to his subscribers and patrons.

By the education Commission, which arrived in this port on Sunday, from New York, we have received the following report from the Commission on the subject of the proposed amendment to the constitution of the State of Louisiana, which would give to the State the right of electing its Governor and its Legislature. The Commission, after a careful consideration of the subject, has concluded to recommend the amendment, and has also recommended that the State should be divided into five districts, and that the Governor and Legislature should be elected by the people of each district.

WASHINGTON, July 17. The bill to amend the constitution of the State of Louisiana, which was passed by the Legislature on the 27th of June, has been introduced in the Senate, and is now being considered. The bill provides for the election of the Governor and Legislature by the people of each of the five districts into which the State is to be divided.

SPASMIC CHOLERA IN NEW-ORLEANS. We are compelled to admit the belief that the epidemic cholera has found its way to this city. The first case was reported on the 15th inst., and has since been followed by several others. The names of the sufferers upon Sunday evening are given by the Standard: Mrs. Fitzgerald, at 75 Cherry street; two children of Mr. P. and the mother of Mrs. F. M. Shannon, James street; Mrs. B. B. O'Connell, street near Henry; Mr. J. H. Fitzgibbon, at 15 St. Charles street; and Mr. J. H. Fitzgerald was also attacked, but has recovered.

There is a case in Greenwich village, and the deceased was a poor laboring man, and died on Sunday afternoon, after a sickness of a few hours. With this exception, all the cases which have occurred, are in the vicinity of Catherine Market, on the East side of the city. So far as we can learn, there is no reason to think the disease was imported, either by land or sea. We need not say that it has created a strong sensation in the city. The more reflecting part of the people, however, regard it with a good degree of calmness. It is the temperance of the people, and the vigorousness of their minds, that has caused them to feel from it, and to judge among them that the greatest panic prevails.

By the Board of Health, a report is made to the Board of Health, which is as follows: The report is as follows: It mentions 14 cases resembling cholera; 6 of which are classed as suspicious and 8 as more doubtful.

LATEST FROM EUROPE. By the St. Louis, we have received the following news: M. Casimir Perier, late Prime Minister of France, is dead. His successor has not yet been appointed. Several new cases of cholera have occurred in Liverpool. The recall of Lord Grey and his Ministry, has been formally declared. The passage of the Reform Bill, in some way or other, is now considered certain.
