

Report On SPSC

South Point School & College

Information

By-Tasnim Sadat

This is a school with a difference we have a difference in the way of teaching, a difference in the way of holding the children, a difference in the environment and a difference in the curriculum.

we are different because we function with the time; as the time flows, we bloom with it.

since 2002

South Point School and College

History

South Point School & College recipient of Best School Award from Secondary & Higher Secondary Education Board, Dhaka, Bangladesh was founded by Mrs. Hamida Ali, former Principal of Viqarunnisa Noon School, a prominent figure in education sector and a lady of extraordinary virtues and versatility who has not only won the hearts of the students but also of their parents. As an able administrator her wisdom enabled her to leave no stone unturned to make this School a model School in Bangladesh. The Founder Chairman of the school Engr. M.A.Rashid whose intense vision of rendering help unflinchingly, has made South Point, a platform, where students sense the ambiance of being Bangladeshi and the roots of the Bangladeshi culture. South Point School & College was established in 2002 with a motto 'A School with a Difference'. In 8 years the School has grown remarkably with a strength of 2200 students and about 190 faculty members. A new branch in Malibag, Dhaka is being opened from January 2011 with unprecedented response of 5000 plus students. Within a short time the institution will open a full fledged University with all facilities.

With the earnest desire and overall co-operation of founder chairman Engr.M.A.Rashid and under the leadership of Mrs.Hamida Ali, former Principle of Viqarunnisa Noon School and College; South Point School And College started in 2003.Under their efficient leadership the college has managed to draw attention from quarters.The college comprising a team to experienced teachers has Science and Business Studies Groups.

In higher Secondary section,the two years of Eleven and Twelve classes are very important.The students who do well at Secondary and Higher Secondary Levels are capable of reaching their goal and achieving success in every sphere of life.The institution has started with a view to offering exceptional education programmes based on reality.The regular prevalence and untiring hardwork of Principle Hamida Ali as well as the sincerity of the teachers has contributed to the betterment of the result.In 2008 it has achieved the honour of being the best educational institution of the year 2008 under the Dhaka Education board We need sincere co-operation of the teachers,students and guardians for much better result in future.If this earnest effort by all goes on,suddenly the college will flourish in near future.It may be mentioned,the college section has got 9th position in 2009 for its achievement in the H.S.C examination 2009.

Facilities

Since its inception, the School has endeavoured to provide modern education with emphasis on moral and ethical values, nurturing character-building, development of mental and physical faculties, and all round development of children. The School aims to impart integrated education to children, to promote equality irrespective of religion, service to humanity, tolerance, integrity, commitment to work honestly, and above all truthful living. The emblem of South Point School & College indicates that the function of the school is to help children by providing the light of education and develop their ethical values and intellect.

Exrtra Curricular Activity

Besides regular class course, the School provides a wide variety of activities to promote creative talents of children. Arrangements for Art and Craft, Dramatics, Recitation, Debates, Music, and Sports are available in the school. It is compulsory for students to participate in such activities. Individual libraries within each building and a special music room with the latest musical instruments help children to become familiar with literature and arts. Children also have the option to enroll their names in a three year course in German Language and Arabic Language Club. The German Language classes are conducted by teachers from Goethe Institute.

Motivation For Starting German Classes

It is a generally accepted notion that people who speak a foreign language are perceived as being more intelligent than those who do not have that skill. Additionally there are wider opportunities for better jobs opportunities, more social opportunities, travel opportunities and so on.

PASCH (partner schools programme) took the initiative to introduce 'on campus German Language' to schools in Dhaka. The progamme included teachers training and opportunity for the best students and teachers to go to Germany along with summer camping to India, all under free scholarship. As we know that German has a great priority as a foreign language, on 11 May 2009 South Point School & College became official member of the network. This would enable our students to have world class education at a very affordable price in German universities and also employment opportunities in the global economy.

Campus

Submitted by Anonymous on Wed, 11/24/2010 - 15:52
