Amusements.

NITROUS OXIDE GAS.—DR. S. COULT, respectfully informs the ladies and gentlemen of New Orleans, that he will administer the *Nitrous Oxide or exhilerating Gas*, every evening, commencing on Saturday evening next, 30th instant, at the hall room, corner of Orleans and Bourbon streets. Doors open at 7 o'clock, the exhibition to commence at half past 7 o'clock, precisely.

The peculiar effects of this singular compound upon the animal system was first noticed by the celebrated English chemist, Sir Humphrey Davey. He observed that when inhaled into the lungs, it produces the most astonishing effects upon the nervous system; that some individuals were disposed to laugh, sing and dance; others to recitation and declamation; and that the greater number had an irresistible propensity to muscular exertion, such as wrestling, boxing, &c. with innumerable fantastic feats. In short, the sensations produced by it are highly pleasurable, and are not followed by debility.

Dr. C. being a practical chemist, no fears need be entertained of inhaling an impure Gas; as he is willing to submit his preparations to the inspection of any scientific gentleman.

Dr. C. has exhibited the extraordinary powers of the Gas in many of the cities of the United States, to audiences composed of ladies and gentlemen of the first respectability—and many ladies have inhaled the Gas at select exhibitions. Those ladies who may be anxious of witnessing the exhibition in this place, may be assured that not a shadow of impropriety attends the exhibition, to shock the most modest.

Tickets 50 cents; children 25, to be had at Bishop's hotel, and at the door, on the evenings of exhibition. m 23

The various productions of the artist, which are rare and exquisite in their construction, are for sale, and well adapted as presents for relatives or a fair hand.
