NEW ORLEANS:

THURSDAY MORNING, APRIL 27, 1837

Vol. V. Extra, April 25, 1837.

U. S. ship Boston, F. Eagle, commander, last from Pensacola, still cruise off the ports of Texas until the 16th of May, and longer if the mercantile interest re quire it, for the purpose of affording protection to American vessels engaged in legitimate commerce.

(Signed) E. W. MOORE.
Lieut. U. S Navy.

FIRE!—Last night about half past 12 o'clock, a fire broke out in the building known as the Exchange, at the corner of Chartres and St Louis streets—generally believed to be the foul work of an incendiary, as it first appeared in the loft immediately next to the roof.

ONE O'CLOCK.—The roof is all in a blaze, and the building will probably be destroyed. The wind is calm, and there is no danger for the buildings not immediately adjoining.

Coroner's Inquest.—An inquest was held yesterday morning, on the body of a man whose name is said to be Sweetman, who was found dead in Canal street between Old Levee and New Levee streets, having been stabbed to the heart: a man named Samuel Brown, accused of having committed the murder, has been arrested and brought before the recorder of the 1st municipality, who committed him for further examination.

Camp Street Theatre.

CAPT. SELDEN was enthusiastically received on Tuesday evening at the Camp street Theatre. The principal characters by Messrs Parsons and Fenno and Miss Clifton, were ably sustained. The author, Mr Bannister, was loudly called for, Mr Hill appeared for him and thanked the audience in an appropriate manner for the approbation bestowed.

Mr. JAMES H. SHEPHERD, has been elected president of the Union Bank of Louisiana, in the place of Mr. G. BOREE, resigned.

Mrs Duff.

This accomplished and celebrated actress appears this evening at the Camp street theatre, in the affecting character of Mrs Haller in the Stranger, one of the best of the stock plays. There is no more rational and fascinating entertainment than to see a good play well performed. The audience cannot fail to be gratified tonight by the genius of Kotzebue and the talents of Mrs D.

We have long since been convinced that there was an understanding between the friends of disunion in the south and of abolition in the North, the object of both parties being a disruption of the Union—and their means to raise a clamour about abolition—against it in the south—for it in the north. We are convinced that from the true state of the case from long and close observation of the course pursued by each of these disorganizing parties respectively. The Boston papers in their leading articles, such as the Latin and Greek are to be included in the course of instruc-
ents desire it.

By the Express Mail.

The Express Mail due yesterday failed beyond Charleston, the only item of intelligence we find, is the following late advices from Florida.

From the Savannah Republican.

ST AUGUSTINE April 18.

FROM MOSQUITO.

The sloop Splendid, Capt Acline arrived on Sunday last from Mosquito By the arrival we learn that a few Indians had again come in to their appearance in the vicinity of the Camp. Capt Hunnes had given chase to three and had captured a boat, and all their cooking utensils, &c. which he destroyed. And one Indian on horseback was pursued, but he effected his escape.

The steamboat Florida is expected to-morrow with the two companies of S C Militia who are to be discharged on the 30th. their term of service having expired.

A report is in circulation, which has been published, that the Florida was in want of wood, and that they were obliged to send here for it. This is erroneous—the Side-mid being in the service of the U. S. was sent up for forage, which was expected to arrive in the S B Mills, from Charleston; and Capt Hall, the chief Engineer, requested that a few cords of wood which he had engaged here, might be, also brought of room could be found in the vessel. The Mills had not arrived, and some despatches from Gen Jesup were awaiting to be forwarded to Gen Hernandez, which were despatched by this opportunity immediately together with the wood. The circumstance gave rise to the report.

From Tampa we have information to the 10th. We learn that on the 8th, twelve hundred rations were issued, and letters still continue to state that the Indians still continue to come in "slowly but surely." An order of Gen Jesup, dated on the 5th inst has been received, which has caused much excitement. The substance is as follows—

No white man not in the service of the U.S. is allowed to go South of a line drawn East and West through Fort Drane, from the St John River to the Gulf of Mexico, on any pretext whatever.

All vessels arriving at Tampa Bay are to be impressed into the service, to convey troops and stores. Except those having business with the military forces on shore.

The negroes (slaves captured by the Indians) are to be sent to St Marks under charge of Lt Vinton where there owners may go to claim them.

A public meeting has been held and a very temperate remonstrance against this order has been adopted.

The cause of this order is alleged to be that un principled white men will tamper, with the negroes of the Indians, and thus lead to a renewal of hostilities.

A letter from the Postmaster at Jacksonville, mentions that the family of Dr Perpoint and six others were murdered near the Mineral Springs by a party of Indians.

The following is a copy of Gen Jesup's order,

Head Quarter Army of the South,
TAMPA BAY, 5th April 1837.

ORDERS, No 79

1st. The Commanding General has reason to believe that the intercourse of unprincipled white men with the negro property of the Seminole Indians is not limited to purchase, but that they tamper with the negroes and lead to a renewal of the war. Recognizing as he is for the peace and security of the country, he will implement such intercourse as must say presume to be treasonable, and will punish it accordingly. But the attempt is avowed by those persons of the Bank, who are ready to sustain and applaud the doings of that institution, however wicked and however ruinous. If so large a sum as fifty millions be owing to John Bull, and it is absolutely necessary to pay him on the spot—let us like honest debtors, give him our property as we cannot find money to satisfy him. We have yet on hand in the United States 600,000 bales of cotton of the last crop which of itself, at 10 cents per pound, would be sufficient to pay half the alleged amount. But we do not believe the debt to England amounts to fifty millions or half of fifty millions. In what manner has the precise sum been ascertained and who has struck the balance? But whether it be fifty or twenty millions, the assumption to pay it in specie is absurd and impracticable. Every dollar in this country would scarcely accomplish it: and while it is known and acknowledged that our resources are abundantly adequate to meet it in less than twelve months, we know not what to think of the madness and wickedness that could vainly undertake to pay it off at once in the precious metals.

Why not proceed to the real source of the misfortunes with which the country is afflicted? Why is the Bullion trade, as the mischievous system of overtrading, by means of which this debt to England was incurred? Is it willing to rouse the community to arm against the excessive over issue of paper which sustained that overtrading. These two causes combined have created all the distress now experienced in the commercial world, and ruined thousands of innocent individuals not connected with trade. The extravagant issues of paper have occasioned fluctuations sometimes in favor of the debtor, sometimes in favor of the creditor, to such a degree that no one was sure or certain in the amount of his fortune. see the currency on a metallic foundation by withdrawing the issues of a low denomination from circulation and those fluctuations and those mischiefs will never again be experienced.
