SEE MOVIES OF PLANE LIFTING 8,000 POUNDS
By International News Service
New York, Aug. 14.—A big crowd at the Automobile club of America here has just viewed the first presentation of the best aeronautical moving pictures ever shown in this city and probably the best ever made. They illustrated Italy's aerial achievements in the war. Of first importance were the photographs of Italy's giant triplane, a type soon to be assembled in this country. It has three 750-horse power motors, a plane spread of more than 100 feet and a lifting capacity of 8,000 pounds.

Major Perotto, of the Italian royal flying corps, head of the special military commission on aeronautics for his country in America, said Italy soon would produce a triplane of 3,500-horse power, with a lifting capacity of 22,200 pounds, capable of carrying fifty persons.

RESIGNATIONS CRIPPLE OKLAHOMA EXEMPTION BOARDS
Oklahoma City, Okla., Aug. 14.—Four members of county exemption boards in Oklahoma have "quit" because serving on the boards "interferes with their business." More than a score of other members were removed automatically recently by the war department order that no man of draft age was eligible to serve. Should other resignations occur, the operation of the selective service law would be seriously crippled.

COLLEGE GIRLS GUIDE IN WESTERN PARKS
Estes Park, Colo., Aug. 14.—Women "nature guards" is the latest innovation in the administration of America's national parks. The guards are cultured college girls, whose duty it is to accompany camping parties through the great natural playgrounds and give interesting talks on the trees and flowers, as well as the birds and animals of the region. Any camper may obtain the services of these girl teachers of nature lore for a nominal charge.

The first park to have such guards is the Rocky Mountain national park, of which Estes Park village is the principal gateway. Four young women already have passed the rigid federal examinations and have been appointed by Supervisor L. C. Way, of the park. They have been swamped with applications for their services.

LA. COTTON SEED ASSN. ADJOURNS

The Louisiana Cotton Seed Crushers' association adjourned its annual session Friday night. The election of officers and the adoption of a resolution urging all shippers to load cars in the maximum capacity and thus release 200,000 freight cars in the United States, marked the closing hours of the convention. The following officers were re-elected: George C. Hauser, of the Southern Cotton Oil company, president; J. E. Bryman, vice president; Alexandria; Bryan Bell, secretary-treasurer, New Orleans.

W. Norwood Mitchell, Southern representative of the Baltimore and Ohio, with headquarters at Atlanta, made the appeal to the convention which inspired immediate action, pledging cooperation with the railroads in helping to win the war.

The entire convention from start to finish was a patriotic affair; the war figuring in every procedure. The crushers proposed "victory bread," "liberty cheese," "oleomargarine" for butter, and they have asked Food Director Hoover to recognize their suggestions.

MAKE WAR ON WEEDS

Put Them Now Before the Seed Matures and Scatters

Now is the time for New Orleans people to cut their weeds. This is the order that has gone out from the city health board.

A campaign against weeds has been started by Commissioner Lafayette, Dr. W. H. Robin, city health board president, and Dr. William Scheppergrell of the American association for the prevention of hay fever.

Many citizens anticipated the anti-weed campaign by having the work done within the last few days. Inspectors of the city board of health are beginning to investigate with the purpose of filing affidavits against property holders who are not having weeds cut.

BIGGEST IN WORLD

By International News Service
Atlanta, Ga., Aug. 14.—The capacity of the Federal prison was increased by 2,000 inmates when the doors were thrown open to the new cell wing of the annex, which has been in process of erection for the past four years.

The second wing is now being completed, and, when opened, will make the Atlanta pen the biggest in the world. The present population of the prison is 1,239.

All the work on the annex was performed by prison labor. The construction was slow and tedious because of the ponderous task of which it is built, from Stone Mountain.

The annex is the most up-to-date prison in the country, commodious, hygienic, airy and well ventilated, with all modern equipment.

TERREBONNE GAS SUPPLY

Dr. V. K. Irion Favors Move to Pipe It to New Orleans

The advocacy of natural gas as fuel for New Orleans, is one of the hobbies of Dr. V. K. Irion of the Public Utilities Commission in charge of the natural gas supply. He declared that the substituting of gas for coal in this city would release thousands of dollars worth of coal which the government could use during the war. Dr. Irion has given the Terrebonne gas fields much consideration and believes that if there is any certainty at all to the flow that the fields are sufficiently close to make piping for New Orleans consumption possible. The doctor believes that it is almost imperative that the city take steps at once to bring about a piping of the natural gas supply to New Orleans in time for use as winter fuel.
