COMMERCIAL.

REMARKS.

Saturday remains dull; there is scarcely an article to be in any particular demand, with the exception of Tobacco. There is very little over a retail business in Foreign merchandize, and in Domestic Produce the sales are extremely limited, almost whatever had of light or consequence during the week, the receipts have been very much in excess of the sales, which has kept the market very steady for some weeks back.

The following is a statement of the actual boating condition of the Banks:

[illegible] weekly remarks we have had considerable [illegible] to the 16th and from the 15th there has been no material change in the condition of the Banks, the increase in the circulation [illegible] sales of the week is about $98,000, which will increase the market had a tendency to improve.

[illegible] easy, the Banks are discounting [illegible] of doubt it can be had [illegible] per cent per month, and with [illegible] 18 per cent per annum [illegible] improving.

[illegible] time as at our last, and in but [illegible] may be said of Treasury Notes.

[illegible] and Ala money has increased [illegible] and the demand for that kind of money, [illegible] 20 a 25 per cent dec, for others, [illegible] bank rate—Alabama we quote at 5 a 6, [illegible] ues with the exception of Tenn see [illegible] Kentucky, Missouri, Ohio 4 a 5 per cent, and Indiana and Illinois at 3 a 4.

We quote Exchange on London, 18 a 1d—on N York, par a 6 a 7, 60 days 4 a 5 prem.

The weather throughout the week has been dry, and exceedingly warm, the thermometer varying from 92 a 94 degrees at mid-day.

COTTON.—There has been a fair business doing in this article during the week, and yesterday the sales amounted to about 1500 bales—the sales of the week amount to about 5500 bales although the sales are not [illegible] because this week, the quantity on sale is small, we think stand the same of the largest receivers of any week [illegible] shipping on owners account—Prices remain the same as last week, but holders are not [illegible] rates, and are not forward in pushing it on the market.

The Exports are 647 895 bales, against 540,849 to the same period last season—being an excess of 107,046 bales, and 44,401 over the whole of last season—The stock now on hand and on shipboard not cleared is about 56,000 bales.

The Exports stand thus

	BALES.
Exports to British ports,	111,168
North of Europe,	364
	111,532
Short to France,	16,399
Cowes & a market,	2,172
Other Foreig ports,	5,835
	15,396
Exports to Foreign ports,	96,136
Stock Coastwise	11,510
	107,686
To all last season,	596,760
To present time this season,	641,181
	44,401

TOBACCO.—The demand continues good and sales are effected after being on the market, the amount reported for the first handling during the week—Sales of the week amount to about 2500 hhds, a [illegible] prices—The part culare of part of the sales are as follow: 50 tons very [illegible] hhds at 8½c for first [illegible] 40 crowns [illegible] 8¾ for first, 7 a 8 for second [illegible] 1,60, 50 first a 9, 60 second a 7, 50 third a 5, in 3 45 first a 9 86 second 7, 32 crowns a 5c. [illegible] in hand and on ship board not cleared about 15,000 hhds.

The Exports are 2,380 hhds against 1663 to the same period last season being an excess of 3607 hhds.

The Exports stand thus viz:

	HHDS.
Excess Coastwise,	5109
Short to Foreign Ports,	1456
	3647

SUGAR—The demand for first quality is good, but quantity of that description on hand is very small, what is on hand is mostly middling, and is held which is not much under par, consequently the market has been dull for the article.

Mr LASSELS. There has been a good demand for the week's work, and the stock is not [illegible] to be over 50 hhds sale, and very little extra [illegible]

MOLASSES—The market has been dull; holders have been [illegible] of need the article per bbl, and [illegible] have made, but not to any great extent, the [illegible] dull.

RICE—We quote our quotation to 75 a 80 cts per [illegible] there has been very little demand for the article.

[illegible]—There is none in market, but what is held [illegible] they are selling Mess at 17 a 18, and Prime at $16.

WHEAT—We advance our quotations to 36 a 38 cts for [illegible] 38 a 40 for red.

FREIGHTS.—There has been a further decline in [illegible] week and due to all parts, we quote Liverpool [illegible] Havre 11 cts—some are holding on for [illegible] and as regards their obtaining it depends much on the number of the arrivals. The number of ships and barques in port, do not increase fast, but [illegible] have been [illegible] but some few vessels in stock of Cotton and Tobacco has however been much reduced during that time.

[illegible] here to w 15 ships are in port 37 of which [illegible] ding as follows—20 for Liverpool, 4 Havre, 2 Bremen, 2 Marseilles, 1 Bremen, 3 Cowes and a market, 1 Boston, 2 New York and 1 Philadelphia.

THE BEE.

PRINTED AND PUBLISHED BY J. BAYON,

PRINTER FOR THE STATE, AND FOR THE FIRST MUNICIPALITY.

NEW ORLEANS:

SATURDAY MORNING, JUNE 23, 1838.

FOR GOVERNOR,

A. B. ROMAN.

Extract from the Journal of the Senate of the 6th Feb 1835.

Resolved, That the Senate of the State of Louisiana do approve of the general course of the administration of the late governor, A. B. Roman; feel that we carry with him in his retirement from office the grateful remembrance of the members of this house.

Resolved, That the President of the Senate be requested to send a copy of this resolution to Mr Roman.

Extract from the Journal of the House, of the 3d Feb 1835.

Resolved by the House of Representatives of the state of Louisiana, that the administration of the governor of the state by the late governor, A. B. Roman, has been marked by wisdom, firmness, and patriotism and unwearied zeal for the public service; that the acquisition of the texas, he has established firmly, and in the numerous and important appointments he has fallen to his lot to make, he has manifested a high degree of ability, and a single regard to the true interests of the state, and that he retires with the full and entire approbation of this House for his official conduct, and with their personal esteem and regard.

Resolved, That the Speaker of this House transmit to the late Governor Roman a copy of these resolutions.

Representative, 1st District, to Congress,

JOHN SLIDELL.

FOR THE SENATE OF LOUISIANA,

ALBERT HOA.

☞ The individual who distributes the Bee in the upper part of the city having suddenly fallen sick, subscribers who do not receive their paper are requested to send their names and residences, that we transmit it to them.

[COMMUNICATED.]

The attention of the Public is requested to a sale of Valuable Real Estate at Post Chrétien, which takes place this day at auction by B Barnett, auctioneer at the Exchange to St Louis street.

The property is beautifully situated, covered with a handsome growth of shade trees, and the land is very high. There are five of these lots, unimproved with excellent houses; and in front of one of them a wharf which will be sold together with the house and lot.

Steamboats on their way to and from Mobile must pass this property, affording great facilities

Fish, oysters and game abound there and for sea bathing it is not surpassed by any place on the Lake, the ground being well sand.

On the lot opposite the wharf is a never failing source of the finest water.

The title to this property is undoubted and not included in any claim whatsoever, it emanates from a grant to the United States. The terms are liberal, one fourth Cash, the balance 6, 12 and 18 months.

We are glad to see a sub-division of lands on the Lake shore; our Citizens feel the want every year more and more of pleasant country seat in places where can combine a pure atmosphere attended by every pleasure where sea bathing and the addition of fish and oysters to their table render a summer residence so agreeable. We wish the sale much success.

Yesterday, in compliance with the request of a number of Citizens we publish in our paper the names of those gentlemen recommended by them to the suffrages of the people as representatives in the Legislature, we considered it a circumstance in which party spirit should yield to its just impressibility. By limiting to thirty the names of the individuals who solicit their votes, whether to fill one party or the other, a correct impression may be formed of the preponderance of the various candidates and of the best entitled to confidence and support. We therefore will not publish the general list of candidates for the Legislature.

We received yesterday two express mails, one the city previous to the morning, and the other at three o'clock last evening. Both are without interesting news from Europe.

We are in New York dates to the 15th. The report of the Bank Commissioners has not yet officially denied by the Messrs Gallatin and Prime of Wall Street, but the only way to meet it is to say, and that three does not exist in the least appreciation of fever.

State Senator.

We are gratified at being enabled to inform the true friends of Louisiana, that the success of that pure and patriotic patriot ALBERT HOA is placed beyond a doubt. The numerous assurances of both whigs and democrats which we continue to receive, in this feeble contest, is flattering. Further, the not the most remote prospect of defeat. Such much less of a probable triumph of the enemies of principles, not men, and that they will try a man, after the Slidell, as an individual fully capable of representing with spirit and ability in the halls of the National Congress. We cannot conceive why the democratic leading in the course pursued by the Bee in favor of Mr Prieur in confirmation of his views relative to Slidell. There is no sort of possible connexion between them. True, we oppose Mr Prieur as a democrat, but because he is a democrat—that would rather induce us to sustain him—but because in the election in every respect inferior to Mr Roman, and we do not regard the Gubernatorial election as a party contest. We have repeated this so often, that it is useless to our political course, at the present time, to be willful inattention on the part of the Herald.—That the Bee is considered in the ranks of the enemies of Democracy by the ultra-Democrats who go for Prieur is not unlikely. We were well aware that we would be denounced as traitors for having exhibited a little more than the usual independence of the press. But the Herald will please recollect that Mr Roman himself derives support from a respectable number of Democrats, who applaud and approve the conduct of the Bee. He will likewise remember that Mr Slidell is not sustained solely by the Bee, but by the Courier and Patriot, both devoted Prieur papers—rather convincing evidence, we should imagine, of his being upheld by the Priorists. If the Democrats do not vote for Slidell, whom will they vote for? For White perhaps. The bare idea is too preposterous for serious contemplation.

We have never asserted that all the Bonnaists will give their suffrage to Slidell. Nine tenths of the Whigs will, questionless, go against him. Every democrat voting for Roman, will support Slidell. Some of the Whigs, particularly the moderate and manly ones, who have been disposed with Gov Wilcox's appointments, will vote for Slidell. He will receive a portion of the votes cast in favor of Roman, and of the votes given to the Prior-ists.

We have also the Slidell-Bonnaist—Bonnaist—Slidell—Bonnaist—Slidell, in such a manner as to confound the common sense of Mr Slidell, in such a manner as to confound and disorganize, it is all over. We may yet to learn that this is the thing dishonorable in a candidate for office soliciting the votes of his fellow citizens. Is not every Democratic candidate doing the same thing? and is not the same thing done on every similar occasion. The Herald goes further, when he makes a miserable sprain of mock morality, and denounces Mr Slidell, because, forsooth, he once presented himself before the people, he employs all honorable means to ensure his success.

After all, the point is now at hand that will decide which of us is right. We have every confidence in the genuine discrimination and common sense of the people. The claims of both the applicants for Congressional honors have been submitted to them—They will decide, and forever, we shall abide, without repining, by this ultimatum. Neither the Herald nor ourself will be able to reverse their decree.

CONGRESS, June 14.

In the senate a number of resolutions in favor of the Sub-Treasury Bill were presented by Mr Buchanan. On motion of Webster, the senate took up Mr Williams' motion, for leave to bring in a bill to appoint a new survey of the North Eastern Boundary. Mr Webster spoke at length on the subject.

Mr Preston's resolution proposing the annexation of Texas under certain conditions, was taken up, and after a brief debate, was laid on the table—ayes 34, noes 34.

In the house an unsuccessful attempt was made to procure a suspension of the rules for the purpose of introducing resolutions, fixing a day for the adjournment of congress

The report of the committee on the subject of the annexation of Texas was resumed. The question pending was the resolution of Mr Cushing to recommit the report with instruct ons to make a report thereon in bill as to the merits of the qu stions presented by the resolutions of the legislature of the sev ral states of Tennessee, Alabama, Michigan, Ohio and Mass chusetts, and of the various petitions before the house, on the subject of Texas. Some discussion arose, which was cut short by the expiration of the morning hour. The house then took up the senate bill, "Granting pre-emption rights to settlers on public lands," the same having been reported by the Committee of the Whole, with sundry amendments

JUNE 15.

In the senate Mr Talmadge presented a memorial from Dr Sherwood, relating to discoveries in magnetism made by him, so as to take the latitude and longitude at sea, &c. which was referred and ordered to be printed.

In the house the debate on the pre-emption right bill was continued until a late hour, when a motion was made for the previous question, which was negatived.

The unfinished business of the 14th being the report of the Committee of Foreign Affairs on the annexation of Texas, with the motion of Mr Cushing to recommit the report to the same committee, with resolutions, was taken up.

The amendment pending was that of Mr Waddy Thompson to add.

"With instructions to report a joint resolution directing the President to take the necessary steps for the annexation of Texas to the United States as soon as it can be done consistently with the treaty stipulations with Mexico."

Mr Adams submitted a resolution to the effect that congress does not possess the constitutional power of annexing any foreign territory to the union, nor that any such should be yet to be just impressibility. By limiting to thirty the names of the individuals who solicit their votes, whether to fill one party or the other, a correct impression may be formed of the preponderance of the various candidates and of the best entitled to confidence and support. We therefore will not publish the general list of candidates for the Legislature.

HOUSE OF REPRESENTATIVES.

JUDICIAL FAILURES—JOHNSON.

Mr Johnson of Louisiana said every individual of the community suffered from the failure of the judicial system. Judicial proceedings were now a mockery. Justice was not administered. He would not trouble the house with a long speech, but would state a few facts. He would read the law of 1833, which was intended to remedy the evil complained of. [Mr J. read the law.] The law was intended to remedy the evil complained of, but it had failed to do so. The judges had refused to hold the courts. LATE FROM SOUTH AFRICA

By the way, there is another of the new steamers, the Liverpool, Capt. Roberts, arrived at this port on Saturday morning, in 9 days and 23 hours from Charleston. She brings Charleston papers to the 16th inst. and Savannah to the 15th. We find a report of a meeting of the merchants of Charleston, held on the 14th inst. at which resolutions were passed, declaring that the Charleston Custom House should be kept open for the transaction of business, and that they would support the collector in the discharge of his duties. The Charleston Mercury says that the Custom House will be kept open for the transaction of business, and that they would support the collector in the discharge of his duties. Outrage in Vicksburg.

The Vicksburg Sentinel of the 12th, has the following account of a shameful outrage which lately took place in that town. As long as public opinion sanctions such disgraceful occurrences, and justifies the wearing of deadly weapons, we can anticipate but little benefit from legal statutes.

OUTRAGE.—A more disgraceful scene than one that occurred yesterday on our levee, we never remember to have seen. About 10 o'clock, we observed two men "pummelling" one another in the street, to the infinite amusement judging from the appearance of the assembled crowd. Presently a third hero made his appearance in the scene, with bowie knife in hand, and all brandished with much and as he approached the combatants, cried out at the top of his lungs, "Let me come at him! By——— I'll stick him!" Upon hearing this threat and seeing our hero flourishing his knife, one of the pugilists "took himself off" in double quick time, deeming it imprudent, we suppose, to remain longer in the vicinity, and our hero so drawing at full speed and following at him to stop, and he would teach him better manners than to pass peaceable citizens' doors. The poor fellow was running for his life and heeded him not. Finding his pursuit was vain, our hero returned, when an attack was commenced upon another individual who was less successful in beating a retreat than his companion. He was most cruelly beat, and cut through the skull with a knife; it is feared the wounds will prove fatal. The sufferer, we learn, is an inoffensive German.

It gives us pleasure to add that the offender were promptly arrested by our efficient City Marshal and lodged in prison, where they now are awaiting their trial.

TREASURY NOTES, are much sought after for investment; they are bought up by the holders of specie, and it is said that in a single week nearly two millions have been purchased with specie. The consequence is, that all demands on the Treasury are now paid in specie drafts.

MAJ. GEN. MACOMB.—It is rumored that this officer has been ordered to the Northern frontier. He passed through Philadelphia about ten days since. With his vigor and promptitude of action, we doubt not, that the hordes of desperadoes who infest the frontier will speedily be dispersed.

☞ A report was in circulation that some cases of Yellow Fever had occurred in New York.—It is, however, contradicted by the Journal of Commerce.

TWO MEMBERS THOMPSON were to leave N York on the 15th for the Northern Frontier.

COLD WATER is killing imprudent folks in New York. Even the most wholesome draught may be used to excess, and imbibed at an unsafe moment.
