AYER'S AGUE CURE,

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No other remedy is to be found called for by the necessities of the American people than a sure and safe cure for Fever and Ague. When such a one can be enabled to offer, with a perfect certainty that it will eradicate the disease, and in a majority of instances, founded on proof, that no harm can arise from its use in any quantity

that would be likely from or prevent this disorder from becoming serious in the communities where it prevails, Dr. Ayer's Ague Cure is better than cure, for the patient escapes the sick bed he must run in uncured attacks of the baleful distemper. This "Cure" expels the miasmatic poisons of Fever and Ague from the system and prevents the development of the disease, if taken at the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for the class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body, and in bilious districts where Fevers and such prevail, no family should be without it and use it freely both for cure and protection. It is fixed this price will place it within the reach of all—the poor as well as the rich. A great majority of the remedy ever any other ever discovered for the speedy and certain cure of intermittents is, that it contains no quinine or mineral, nothing, indeed, that causes an quinine or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poisons. A great variety of disorders arise from an irritation, namely: Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Side, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in true cause, yet of the intermittent type, or have a periodical. This "Cure" expels the poison from the blood, and consequently relieves them all. It is an invaluable protection to immigrants and persons travelling temporarily residing in the malarious districts. If taken occasionally as a preventive, it counteracts the infection, that will be exposed from the influence. It cannot accumulate in and cost quantity to injure into the system, and is ever more valuable for protection than cure, and few will be exposed to the disease unless if they avail themselves of the protection that remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are an compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search out the hidden irritations every portion of the human frame, and correcting disorganization, cures, and restoring its healthy vitalities. As a consequence of their action, the invalid who is bowed down with pain or depressed debility is astonished to find his health or energy restored by a remedy as mild as simple and inviting.

Not only do they cure the every day complaints of every body, but also the more formidable and dangerous diseases. The agent below named is located to furnish gratis my American Almanac, containing certificates of their cures in his vicinity of the following complaints: Costiveness, Heartburn, Headache arising from disordered stomach, Sour Stomach, Indigestion, Foul Breath, Dizziness, Coated Tongue, Pain in the Stomach, Loss of Appetite, Jaundice, and other kindred symptoms arising from a low state of the body or obstruction of the bowels. There is not an excellent alterative for the renovation of the blood and the invigoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cure, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate conditions of lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where the public are known, the agent is no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirms the hold it has established they can never forget, and preserved cures too numerous and too remarkable to be forgotten.
