La chanson que Beau porte au "le revers de cette pochette est une
 petit quatrain. Depuis longtemps on attendait un original chanteur
 anglais à pour être le cadavre Sandy Brummell et à son retour
 elle de façon inattendue — mais avec plus d'un siècle de décalage !

Vous connaissez peut-être un phénomène qui a été un succès
 sur le marché français et la première fois le petit écran, il a
 rétrospectivement son succès dans les années 1960, car grâce de son CD
 sorti en 1962 ne passe pas inaperçu, d'autant plus que
 son style a été très apprécié. C'est l'histoire de ce qui se passe
 à travers de nombreux sites, qui sont présentes les mêmes fois
 d'une manière qu'il est facile en France.

Beau's

two children Nevada and Cheyanne were expelled from Eden Christian School because they were nudists who believed in Britain's Charles Darwin and Evolution. Beau promoted South Africa as the "Cradle of Humankind", Darwin said that humans originated from African Apes (Ape men) we lived naked in Africa and were all Suntan Brown in color.

Beau's Nudist Video on Google (See Naturists Video's) called "Once We Were Naked" is an icon Filmed at Darwin's house in Kent (An National Monument) and in Westminster Abbey where Darwin Buried next to Sir Isaac Newton Beau Brummell is a great Darwin supporter and Evolutionist.

The Cover of Once we Were Naked.

In 1986 Beau asked famous Pretoria Artist Annemarie Wessels to paint him in the nude showing how he evolved in Africa from the Apes and she agreed and the painting was named "The Space Ape". Now humans walk on the moon, we are space apes from planet of the apes. The huge painting on Darwin's Evolution was presented to the famous Professor Raymond Dart and Professor Philip Tobias at Witwatersrand University, Wits, in Johannesburg where it still hangs.

In 1925 Prof Raymond Dart Discovered a 2 million year old Ape Man fossil skull at Taung in Northern Cape Proving Darwin Correct ,South Africa was the “Cradle of Humankind” were our progenitors lived naked and were suntan brown in color .Beau describes himself as the “naked ape” and posed nude for the “Space Ape” presented to Dart in 1986 .

Beau’s video on “Naturism” (Once We Were Naked) was also banned in Apartheid South Africa in 1986. Our Christian Censors (all Dominees in the Dutch Reformed Church) do not believe in Darwin’s Evolution or that South Africa is the “Cradle of Mankind”. Science today takes DNA samples from Nations around the world that showed we all came from one central source, the Xoi-San Bushmen on the Southern tip of Africa.

The Christian Church says we came from “Adam and Eve” biblical Genesis

The Roman Catholic Church in USA has banned Darwin and his Evolution. When Wits Professor Raymond Dart announced to the world in 1925 that he’d discovered the Ape Man “Missing Link” at Taung (N.Cape SA).

School Teacher John Scopes in the USA supported Dart and Britain’s Charles Darwin and Began Teaching Evolution and African Ape Men in his class room in Tennessee. The Catholic Church objected, Scopes was Arrested by Police and Charged in High Court with Heresy and Expelled from school as a Teacher. The Court Case became famous in USA as “Scopes Monkey Trial”.

Today in the USA Charles Darwin and Raymond Dart are both Banned so is Evolution and schools teach Adam and Eve.

So Pop Star Beau Brummell arrested 9 times by Police for being naked in Africa and promoting Darwin’s evolution decided after 18 years of “Whites Only” Nudists to take hands with Nelson Mandela in 1994 and declared his Beau Valley would go Multi-Racial. The very Beau Valley that was listed in the Guinness Book of Records in 1982 as the World’s Biggest Nudist Resort covering 1000 acres of bushveld .

Beau invited all race groups, Muslims, Negro, Pagan, Homosexuals and Lesbians to go nude at Beau’s Valley. It proved a disaster – Negro men walked with erections saying white girls in the

nude were asking for sex. The Muslims were shocked saying Sodom and Gomorrah.

White nudists took Beau Brummell to Court 7 times saying they purchased shares in his “Whites Only” nudist resort during the Apartheid Regime ,now Brummell took hands with Mandela and a new non-racial Democracy. White share holders were offended by “Wogs”, niggers and blacks ogling with erections at their wives in the nude. After 18 years Beau Brummell’s famous nudist retreat was forced to close down due to too many lawyers, court costs and confrontation. Multi-Racial nudism was a Disaster.

Beau Brummell is now 70 years old (2012) and still promoting Darwin, Evolution and South Africa the home of the Homo (Erectus, Habilis and Sapiens). Beau is still active in his singing career and recently completed a new song found on Compact Disc in South Africa, It is promoted on iTunes. He lives together with his wife Celia in Bronkhorstspuit. Beau is currently ,2012, busy trying to persuade the South African ANC Government that after Nelson Mandela ,South Africa will fade into Oblivion just another 3rd world Banana Republic. Beau says to please capture the world’s imagination now with new brand, image and trade mark – Israel branded as Holy Lands South Africa must be promoted and branded as birth place of man.”Welcome Home to all Mankind” This is where human history began – Darwin Dart and Brummell are Correct.
