"The despatches; we learn, are of a very important character in relation to our difficulties with Maxico When Mr. D. lett, great excitement prevailed towards the government of the U. States. A proclamation was issued the day before his departure, of a most violent and inflammatory character, calling upon the citizens to unite and resist the aggressions of the United States; denouncing our citizens as theves, robbers and scoundries; who are desirous to overthrow their religion, plunder their churches, and prostitute their wives and daughters.

"The army of the Mexican government amounts to upwards of 50,000 effective men, and was daily receiving additions from the various sections of the surrounding country. Unwards of 30,000 sen had been ordered to the frontier of Texas, for the purpose of conquering it. Her may had also undergone considerable increase, the government having purchased two war steamers in England for the purpose of coperating with the army.

A day or two previous to Mr. Dorsey's departure, Mr. Bocaaegra resigned his seat as a member of the Calinet, and was successed by Mr. Alessas, formerly Minister of Exterior Relations under the Emperor iturbide.
