NEW-ORLEANS,
THURSDAY MORNING, JANUARY 12, 1832.

Yesterday's mail brought very few of our exchanges. Among the straggling papers which we received, we find New York dates of the 30th, and Baltimore of the 29th ultimo. We have no Boston, no Washington, no Charleston papers. The Baltimore journals furnish eleventh Washington dates of the 28th Dec. from which we make a few extracts of Congressional proceedings.

By the packet ship *Sheffield*, HACKSTAFF, at New York, hence Liverpool, whence she sailed on the 9th, we have dates, from that port, of the 9th; London of the 8th, and Glasgow of the 7th Nov.—The news, with very slight and immaterial differences, are precisely the same as received directly by the Tallahassee.

Discontent continues to break out in several sections of England; popular wrath spares no way through new channels, and the incendiary torch is devastating the interior of the country. Parliament was expected to meet during the 1st of Dec. It is fervently to be hoped, while the Houses meet, that the characteristic notions of national will and national indignation will awaken the slumbering peerage to a sense of their perilous situation, and the danger of fuzzily dallying with all enlightened nations rights. We supply the most interesting excerpts from the Mercantile Advertiser of New York.

We have been favored with the Nassau Gazette of the 25th Dec. from which we extract the following:—

NASSAU, (N. P.) Dec. 25

On Sunday, arrived the Mexican schr. Kangaroo, with the American ship Crockett, of Portsmouth, Rogers, master, having succeeded (after taking a great part of her cargo out) in getting her off about 25 miles to the northward of the Orange Keys.

The Crockett was the ship of about 300 tons—she sailed from New Orleans with a cargo of cotton on the 14th Dec. for Havre de Grace, and grounded about half past three in the morning of Sunday the 18th; and when the Kangaroo boarded her, which was about 9 in the morning of the same day, she had lost her false keel—She was not got off until Monday evening, having been on shore 40 hours, and at times striking very heavy.

Among the passengers who arrived at New York from Liverpool, per ship *Sheffield*, we observe the name of Miss E. A. Johnston, of New Orleans.

A Desperate Rogue.—An individual suspected of having stolen a parcel of plated spurs, to the amount of four thousand dollars, was pulled, and arrested at the lake yesterday morning, by Capt. PENN of the City-guards. Finding himself closely pursued, and cut off from every chance of escape, the knave shot himself in the head; but the ball not having penetrated to the brain, it is generally that he will recover. He attempted to fire a second pistol at Capt. Penn as he came up to secure him, but was soon subdued, brought back to town, and safely incarcerated. Too much credit can't be given to Captain PENN'S conduct in this occurrence. His measures planned in the morning, still following with activity, ended in the apprehension of the scoundrel, and recovery of the goods, which he had concealed in the Rice-Yard.

Tobacco.—It is stated in a Liverpool paper that the actual value of all the tobacco, exclusive of the portion smuggled, annually consumed in the United Kingdom, does not exceed £350,000, while the revenue derived from foreign tobacco amounts to £2,000,000 a year, eight times the sum.

CITY COUNCIL.

Session of the 11th of January.

The Secretary read the Message of the Mayor, which was to have been read in the sitting of the 4th. We supply a summary of its contents.

1st His Honor transmits the city Treasurer's receipt for $597,340, amount of duties furnished by divers farmers of the meat and vegetable markets, of the stores, located near the Water-Engine, and at ploughten, according to their respective adjudications.

2d He also submits the discounts rendered by Col. Cutellier, of sums advanced for the Legion, in virtue of an ordinance of the council, and an act of the Legislature, appropriating certain moneys for the use of that corps. Referred to the committee on finances. Mr. B. Montreuil, collector of taxes on groceries, offers, for the consideration of the council, Mr. Eugene Macarty as his security. On motion, adopted.

3d Mr. Lafrit city Constable, offers for his security, Mr. Nicolas Tureaud and Widow Degnac; on motion, accepted.

4th The Mayor invites the Council to come to some determination as to a proper place of deposit for the arms and ammunition belonging to the State and city. This measure will allay the fears of those inhabitants of St. Peter Street, who dwell in the neighborhood of the arsenals.

The committee, to which had been referred the question, consequent to observations contained in his Honor's preceding Messages, state that they will report at the next meeting.

(TO BE CONTINUED.)

St. MARTINVILLE, Jan. 7, 1832.

Fire.—On Sunday morning last, the steam mill of Mr. J. Lemaire, at New Iberia, in this parish, was discovered to be on fire. The building was but little injured; but the greater part of the goods were consumed. We understand that the loss will fall principally on some Steamboat Office in New Orleans.—*Gazette.*

CONGRESS.—In the SENATE on Tuesday with there was no legislative business of importance transacted.

On motion by Mr. Wilkins, so much of the President's Message of the 6th inst. as relates to insolvent debtors to the United States, was referred to the Committee on the Judiciary.

Among the resolutions offered were the following:—

By Mr. SMITH—That the Committee on Commerce be instructed to inquire into the expediency of granting a sum of money to the Mayor and Corporation of Baltimore, to assist them in preservation of the navigation of the pool and harbor of that city.

By Mr. HAYNE—That the Committee of Roads and Canals be instructed to inquire into the expediency of making an appropriation to be expended on the Cumberland Road in the State of Indiana.

By Mr. HENDRICKS—That the Committee on Public Lands be instructed to inquire into the expediency of authorizing the issuing of scrip receivable in the payment of Public Lands for monies forfeited in land patentees, in all cases has heretofore provided for by law.

By Mr. HOUSTON—That the Secretary of the Treasury be directed to communicate to the Senate copies of all the instructions to Collectors of the Customs and their officers, in respect to the British Colonial Trade, given or issued before the proclamation of the President of the 5th of October, 1830.

After the consideration of executive business the Senate adjourned.

In the *House of Representatives*.—Mr. Drayton, from the Committee on Military Affairs, reported a bill to improve the condition of the non-commissioned officers of the Army, and to prevent desertion; which was read a first and second time and ordered to a third. Mr. Hoffman, from the Committee on Naval Affairs, reported bills providing for the repair of the frigates Java and Macedonian, and the sloop of war Cyane; which were severally read twice and committed to a committee of the Whole on the State of the Union. Mr. McDuffie, from the committee of Ways and Means, reported the general appropriation bill for 1832, which was read twice and ordered to be engrossed and read a third time. Mr. Polk, from the committee of the Whole on the State of the Union, reported the resolution introduced by Mr. Blair, of Tennessee, relative to the disposition of the proceeds of the Public Lands, was discharged from its consideration, and ordered to lie on the table. The House then went into committee of the Whole on the state of the Union, and took up the resolution relative to the disposition of the proceeds of the Public Lands, was discharged until the expiration of the hour; and after the transaction of further private business on bills the House adjourned.

Mr. Thompson, of Georgia, from the Committee on Indian Affairs, to which the subject was referred on the 12th instant, made a report accompanied by a bill, to carry into effect the fourth article of the Treaty of the 8th of January, 1821, between the United States and the Creek Nation of Indians, so far as relates to the claims of the citizens of Georgia against said Indians for injury done prior to the passage of the act regulating intercourse with Indian Tribes; which bill was twice read, and under the order of the day for to-morrow.

The following resolutions are all that appear to be of any general interest:—

By Mr. Sevier—

Resolved, That the President of the United States be requested to communicate to this House, (if it be not incompatible with the public interest) what measures have been taken (if any) to ascertain and establish, permanently, the boundary line between the Territory of Arkansas and the Mexican government.

On motion of Mr. Hagan, it was

Resolved, That the committee of Commerce be instructed to inquire into the expediency of providing for the facilitation of intercourse between the United States and the neighboring provinces of Great Britain by land and inland navigation, and for preventing violations of the revenue laws on the inland frontier.

Mr. Mitchell, of South Carolina, laid the following resolution upon the table for consideration:

Resolved, That the Secretary of the Treasury be directed to inquire of the Collectors of the Ports of Boston, New York, Philadelphia, Baltimore, and Charleston, what condemnations of smuggled goods, and what suits had occurred between the Collectors of those ports and the citizens of the United States, or the subjects of any foreign Power, in relation to frauds practised on the revenue laws, specifying the amount of property involved, the date, the names of the parties, and the decrees of the courts in each case from the 1st of January, 1820, to the 1st of Sept. 1831.

Mr. Baldwin moved the following preamble and resolution:

Whereas, by the laws of the United States, ad valorem duties are laid on various articles of import; but the per centum duty required to be to be laid on the cost or value at the place of production, but on that with all charges (except insurance) added; and with 10 or 20 per cent added to that aggregate:

And whereas, also, various minimum values or prices are affixed by law—(by which to ascertain the amount of duties chargeable on the same goods,) differing widely from the cost thereof—and that from the law itself the rate of duty to be paid on the importation of any given article, subject to ad valorem duties, cannot be ascertained—

Resolved, therefore, that the Committee of Commerce be instructed to inquire into the practical effect of these laws, and report to the House the actual per centum on the prime cost, which is to be paid by them. That they also inquire how far these duties are, *in effect*, prohibitory, setting forth as distinctly as they can, the various descriptions of imported that are thus interdicted or burdens and so far as may be practicable, to state the costs and charges, at which such interdicted goods might be imported.

The preamble and resolution were laid on the table.

FROM EUROPE.

(By the Sheffield.)

LONDON, 8th Nov. 1831.

City, Monday Evening, 7th.—The postponed meeting at White Conduit House has given much satisfaction to all well-wishers of order and tranquillity. Notwithstanding, however, a great number of persons repaired to the place of rendezvous; but they were chiefly idlers led by curiosity, being St. Monday. Every precautionary measure was adopted, in case of any attempt at riot and tumult. The Bank Directors were on the alert; the gates were closed, and the military inside. Coldbath fields Prison and Clerkenwell New Prison were also well guarded. In fact every precaution was taken by Government, as well as by the city authorities, to act with promptitude and vigour, in case of need. Here, as well as in the different districts and parishes in and round the metropolis, all will continue on the alert, in case of any attempt during the night, to disturb the public tranquillity.

The accounts by the last arrival of the state of public feeling in London, as well as in the provincial towns of England, are very gloomy—danger is apprehended—the Radical press of the discontented pamphleteers, and the patriotic orange orators, seem to have wrought a fearful change in the minds of the lower classes of people. England seems to be on the eve of perilous times. This has suddenly came upon us—the first since the late Riots at Bristol and Nottingwood.

On Saturday the 5th Nov. the loyal citizens of London were much alarmed, in consequence of placards being posted at the corners of almost every street, calling upon "the working classes, to meet on Monday, (7th) in White Conduit Fields"—the object of this, as understood, was to have been to adopt a seditious resolution in the placards. This of itself, would not have been appalling—but on the Saturday it was known that in several shops in Bethnal Green &c. shivers of truncheons, similar to those of the new police-men were openly sold at 3d and 4d ea. and on them was painted the *tri-color*. A stick maker called this same day on Lord Melbourne, at the Home Department, and stated that he had sold upwards of four thousand of such staves. The Magistrates of London, sent for a tavern keeper in Spitalfields, at whose house seditious meetings had been held, and who had been selling bludgeons to the populace with which to go armed to the contemplated white conduit house meeting. All these circumstances called forth the most energetic measures on the part of government. The Aldermen were actively engaged in swearing in constable inhabitants of the various wards, attended and were sworn in, and quitted the Mansion House armed with staves provided for them, as in the common of peace officers in England. Troops too were stationed by the government at various places—it was said that the East India Company's Volunteers were in readiness to act. The Bank of England was strongly guarded. All these precautions, taken with such promptness and decision seem to have made some of the leaders of this meeting falter. A committee of the National Union was appointed to wait on Lord Melbourne, consisting of Messrs. Watson, Cleave, Lovett and Osborn—they met on Saturday evening. A London paper before us says—

"The Deputation it appears was received by his Lordship in the most flattering manner, and a long conversation took place, in the progress of which the following interrogatories answers relative to this intended meeting put by and given to his Lordship."

Lord Melbourne: are the persons here, whose names are attached to the printed notice calling the meeting, whom I consider to be highly seditious, if not treasonable.

Messrs. Watson and Osborn severed them selves the parties whose signatures were attached to the document in question.

His Lordship observed, their names being to the documents did not prove that they were the authors. He then desired that they would call on him again at three o'clock.

Soon after this the deputation left Downing-street, and at the conclusion of the interview Mr. Cleave observed, they were prepared to answer any question his lordship every information in their power, and they hoped his Lordship would be equally candid.—They wished now to ask if the Government contemplated any proceedings against them on account of their having acknowledged themselves the authors of the printed placards?

Lord Melbourne assured the Deputation he had no such intention.

After some further conversation relative to the approaching meeting, in which the deputation strenuously defended itself and the working classes generally, against the charge of disaffection or desire to promote revolution.

Lord Melbourne stated that it was the determination of the Government that the meeting should not take place—but that, if it did, the parties taking an active part would do it at their own risk, and that the Magistracy aided by the constabulary force, would have orders to disperse those assembled. The deputation then withdrew."

WARSAW, Oct. 25.

News was received here yesterday that the fortress of Zamosc has capitulated and open to the clemency of His Majesty the Emperor and King. The garrison consists of 4200 men.

It appears from a census lately taken, that the number of the inhabitants of Warsaw is now 112,942, not including the persons who arrive daily. The population has therefore been diminished, in the course of this year, by 25,000 —namely, 15,000 males, and 10,000 females. Among the present population are 29,314 Jews; in the third quarter of the city they are most numerous, and exceed the Christians. The number of females now exceeds the males by 7,429.

The Imperial Guards, who have left the capital to go into winter quarters, have been received by the Grand Duke Michael and Prince Radzwitsch. They will be successively here by 4 regiments of the 2d and 3d divisions of Grenadiers. The 1st division will occupy the environs of Warsaw.

Count Henry Lubenski, Director of the Polish Bank, returned on the 10th, and brought with him the funds of the Bank untouched, which the revolutionary Government carried away when it left Warsaw on the 8th. We are indebted chiefly to his zeal for the safety of these funds, which would otherwise have been dissipated.

NEW-YORK, Dec. 27.

Piratical Depredations.—Capt. Clark, of the sch. *Shiloh*, from Tampico, on his outward passage Dec. 6th, being becalmed off Dead Man's Key went ashore on Oak Key and in a cove, just large enough for a vessel, discovered six pound cannon without a carriage, some bones, artillery wagons &c. &c. On a rock he found carved, "Sally, Polly, of Hampton"; (in Spanish). Also, in schooner carved, with an American ensign, and the following names and dates:—"C. H. Martin. Charles M. Johnson, July 1826. Ann Johnson, July 1826. T. Rogers, July 1826." And another ship's name. The island is barren and uninhabitable. Capt. C. supposed some piratical boat had been brought here by a piratical gang, and left on the Island.

COMMERCIAL.

LIVERPOOL, Nov. 8.

Corn Exchange.—The supplies of Irish grain since Tuesday have been larger; of other descriptions the imports are inconsiderable. With the existing disinclination to store new wheat, a very slight suspension of our late active demand has more than usual influence. Such has been the case for the last few days; the trade has been very dull, and notwithstanding the advance in most of the Irish markets and the comparatively high rates obtained for those descriptions of wheat in London, our prices have been receding. On Friday, and again on the subsequent day, at Manchester, fell to 2d per 70 lbs reduction was accised to, the finest parcels of Canadian being the only exception; these have become scarce, and, as well as United States Flour, are held at very full prices. More business has occurred in Indian Corn; several hundred quarters of the latter have been taken for shipment coastwise. Though little business has occurred in lock corn or flour, dealers appear to have more confidence in these articles and less inclination to sharp sold. One large parcel of St. Petersburg bread was sold yesterday at 4s per 70 lbs. The quantity of either wheat or flour on the market is very inconsiderable.

To-day's market was pretty well attended, and a fair amount of business transacted in new wheats, though a quantity offering much exceeded the demand, and prices must be noted fully 1d per bushel below the rates of this day week. No change in the value of old wheat.

Wheat, English, white, per 70 lbs. 8s a 8s 6d; do red, 8s 3d a 8s 9d; do old 8s a 8s 3d; Scotch, Welsh, and Mouz, 8s a 8s 4d; Irish, Waterford, &c. 8s 2d a 8s 4d; do, Wexford, 8s a 8s 2d; Dantzig, 8s a 8s 6d; Flour, English, per 280 lbs. 42s a 48s; fresh, 36s a 38s

LIVERPOOL, Nov. 7.

The demand for Cotton this week has been limited, the sales amounting only to 10,000 bags, but prices, upon the whole, have been fairly supported. The sales comprise 100 Sea Island, at 19½d to 11½d, with 100 Stained at 8d to 8½d; 2000 Bowed, 8d to 6¾d; 1700 Orleans, 8 2-8d to 7¾d, with 40 at 8d to 8½d; 2010 Mobile and Alabama, 8d to 6½d; 420 Pernambuco, 7¾d to 8¾d; 800 Maranham, 6 3-8d to 7¾d; 270 Bahia, 6¾d to 7d; 80 Barbadoes, 6d; 90 West India, 5½d to 6¾d; 240 Egyptian, 7 3-8d to 8¾d; and 200 Surat, at 5¾d to 6¾d per lb. There continues a limited demand for Cotton; the sales on Saturday and to-day were about 3,000 bags, of former prices.
