NEW YORK, May 27.

Coffee—The market continues extremely inactive and prices unsteady. For exportation there is some inquiry at prices below the demands of holders; sales have been made generally in parcels of 4 a 500 bags of good Cuba at 9½ a 9¾ cents; and 90 White Java 11½ cents. By auction 170 bags fair to good Havana at 9 cash.

Flour and Meal—The market continues quite inactive for all descriptions, and prices, since our last, have rather reduced. The receipts of Western Canal have been very moderate; and the stock of Southern remains unusually small. Sales of extension to good brands, Western Canal at 9.00 a 9.75; Ohio 10. Navy Yard City 9.50 a 9; Ohio via Erie Canal, 9 a 9.50 according to brands, and Georgetown 9 a 9.25. Rosendale Flour has hardly been sustained for of late; a lot of 140 bbls old New Orleans had sold at 5, cash. Corn Meal remains firm. Rye Flour has become very scarce.

Molasses—There has been no variation of consequence in the market; 300 hhds Trinidad sold at 20; and Matanzas at 19½, 27 casks, at 4 months. By auction, 251 hhds Muscovado and part Cuba sold at 18½ a 20 cents; and 30 Trinidad sweet, 26 a 30 cents, cash.

Sugars—The demand has become less animated, and prices recede all descriptions have slightly receded. Sales of 500 hhds good Cuba Muscovado at 8½; 50 hhds very fine Porto Rico, 7½; about 100 boxes Brown Havana at 6 a 6 for prime, 8; and 120 boxes White, fair to good, 10 a 10½. By auction, 101 boxes good White Havana, 10c per lb cash.

Tobacco—Sales have been made of about 70 bales and tierces S. Domingo at 9; and 90 do 10c, both cash. An auction sale of good Kentucky, for cash, was attempted on Thursday but was withdrawn without any thing of consequence being done.

NEW YORK, May 27.

The rise in the stock market continues—yet in all other respects there is a great languor and inaction—Sales this month from 6 to 8 per cent beyond any paper. The exportation in spite of the numerous rumours of the Wall street press, is very large—probably more than 3,500,000 during the present month. In the mean time, we should not be surprised if 5,000,000 were to go in part payment of cotton to England. Nothing can prevent specie going out of the country—the balance of trade be equalised—when that takes place, it will cease of its own accord, and probably flow back again.

At the moment the whole trading community are endeavoring to get into a position for action. For several years past negotiations have been going on, night and day, among the banks of Wall street and the agents of the country banks, respecting their future course of action. There has been great doubt—great difficulty—and an extraordinary want of harmony between the city and country banks. Intimations are said to have been given out from Albany and Utica, that no gentlemans have at last terminated unfavourably—all concerned. The "Albany Argus" states that on the county of the Bank Commissioners, who presume that all the difficulties have been arranged by the resuming acquiescence of the city banks to the arrangements of the country banks. We know this statement to be utterly unfounded. The banks of New York—the sound and solvent banks of N York—will never permit themselves to be made the instrument—the corporate instrument—of issuing a profuse and irredeemable paper currency upon the country which the Albany Argus, has the audacity to call better than the present hard coin paying currency.—*Herald.*

PHILADELPHIA, May 27.

Coffee—The market remains about as at our last report, and ranges Rio, from 1/4 to 1/8 a cent per lb higher than it has been retained, as the prices obtained two days since are considered. A sale of 400 bags, 1 cent higher, is reported. Sales in lots of 5 to 500 bags Laguayra at 10½ cents, cash to 6 mos principally at 10½ a 10¾. 250 do Rio at 10 to 11¼ cents, cash and on time.

Molasses—Demand fair and prices nearly stationary. Two cargoes, 50.0 hhds Trinidad and an import of 200 hhds New Orleans sold on terms not transpired. Another cargo: 10 hhds New York Sugar house sold at 18c.

Sugars—Good Porto Ricos are much inquired for, and under having stored, demand and advance on the prices. Sales of 110 hhds St Croix, part quote at 7½ to 8; 40 do 8.36; per 180 lbs, 5 mos; 50 do 8.50. For Brown 7a 7½ cents for 30 hhds Jago. Common Sugars are held firmly; sales at 9.90 for Havana; 10½, brown 7 cents; 40 do brown Trinidad, 7 a 7½ cash.

Whiskey—During the greater part of the week, the price of hhds has been 31 cts per gallon; some holders ask 31c. About 400 bbls sold early in the week at 30½ cts. To day the cask could probably be obtained—the city very light. Sales of apple Whiskey in bbls at 31 cts.

CHARLESTON May 20.

Cotton—The Upland Cotton market is at last become very inactive, but previous prices continue to be firmly supported.

Rice—Limited sales of this article have taken place, at the rates previously reported.

AUGUSTA, May 21.

Cotton—In the market for this article we are afforded little assistance in reporting a considerable enquiry, and much sales have not been made to any considerable extent it has only arisen from the small quantity, offered; we now quote 8 a 9 cents, as the extremes of the market. Before we close we are informed that parcels could be disposed of at those rates.

MOBILE, June 2.

Cotton—The demand has continued to improve this week considerably. The quantity now on hand is small—not near enough to transfer the vessels waiting for it. Much has gone to new Orleans in purchase West India Goods with. It is our better cotton at this time.

As the quantity offered diminishes, the price advances, and although no actual sale have been made above 11 a 11¼ cents, yet round sales have been made at 11¼ cents, which if classed, would range from 7 to 8.

Commerce of 1836.—We are indebted to the obliging attention of one of our late Representatives in Congress, for a copy of the report just printed of the Commerce and Navigation of the United States for the year 1836. The amount of exports is $128,668,640, making an excess of imports over exports of $61,311,395. This is an astonishing and unexampled excess, which could have taken place only under the very extraordinary circumstances, which combined to produce an unprecedented expansion of credit and of the currency, and consequently such an unnatural advance of prices, as to render this country the perfect market for nearly every description of merchandise.
