Archery has been on verge of being dropped at the Olympics because of lack of spectators. They keep redesigning sport to make more spectators. pretty scarce to see paralympic archers but they tend to be good.

There is blind archery. Target gives off sound to make noise to help. Sighted person retrieves for them. Ability not a hindrance.

Facility is a mirabade catchment area. recent floods had water on course 3 feet deep for a while.

Orange shirt guys with double bows. Bruce ^{Compass} Ling & Rodney Costelloe (closer in picture)

No sense to shoot archery & more of a challenge physically. Personal shooter. Some people do both. Lots of archers do pistol shooting. legal restrictions to guns made some people switch sports. Archery clubs can also be located in a city.

As a government sometimes consider licensing buses.

National championships kind of rotate. Canberra hosting this year & next expensive to host. Takes a couple of years to recoup costs of hosting. ACT government does provide some funding: \$2 million multisport facility which includes shooting.
