COMMERCIAL.

OFFICE OF THE BEE,
FRIDAY EVENING, Sept. 30, 1859.

Our general market has presented a fair appearance during the past week, considering the season, and prices for nearly all the leading articles of trade have been very well maintained. In our grain depot, Cotton, we have no material change to report, though the accounts from Europe have not been of a favorable character. Sugar has been in fair request, and with light receipts and a tempting growing crop we notice a further advance in quality. Molasses, the closing rates being 2d. for Fair Orleans, and 7d. for Middling Orleans. The week's sales of Tobacco foot up 1,000 boxes, of which 700 were speculation and 300 for export. The stock on hand was stated at 618,000 hales. All three prices had declined 1-16c, and closed at 12 francs for Orinoco. From Ordinaire, the week's sales embracing 4500 bales.

COTTON.—Arrived since the 23d inst, 49,121 bales. Cleared in the same time for Liverpool 16,071 bales, Havre 4053, Bremen 1267, Boston 1081, New York 326, and Texas and Matanzas 10 bales; together, 26,561 bales, making an addition to the stock of that on hand and leaving on hand, including all on shipboard not cleared this day, a stock of 122,256 bales.

A fair demand has prevailed in the Cotton market during the greater part of the past week, though it opened with a degree of hesitation, and generally there has been more or less irregularity in the rates. The sales of the week have embraced some 42,000 bales, of which 6000 were taken on Saturday, 8500 on Monday, 8000 on Tuesday, 9000 on Wednesday, 7,000 yesterday, and 3500 to-day, prices being pretty well maintained within the range of our quotations, as follows:

AYER'S AGUE CURE,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague,
Remittent Fever, Chill Fever, Autumnal Fever,
Periodical Headache, or Bilious Headache,
And indeed all the affections which arise from Malarious, Miasmatic, Marshy and Fever-breeding districts, whether of the Interior Country or Sea-board.

This remedy is tasteless and harmless, and may be taken by the most delicate child with perfect safety. It contains no Quinine or mineral, consequently is free from any injurious effect upon the human system. It is the most effectual antidote for the disease of the climate, if taken on the first approach of the premonitory symptoms. It is not a mere palliative, but a thorough alterative, which expels the disease from the system, and leaves the patient in a healthy condition. Those who emigrate to, or sojourn in, the Fever and Ague districts, will find protection from attacks of disease in the use of this remedy. Those who have the disease in the system, and are suffering from its periodical returns, will find a perfect cure in this remedy. Those who have been reduced by the disease, if taken on the first approach of the premonitory symptoms, will be saved the necessity of the subsequent course of medicine, and will be restored to perfect health
