NATIONAL COMMISSION BARS THE 'BEAN BALL' Chicago, May 24.—The dangerous and 'dirty' sportsmanlike 'bean ball' was barred out of existence here today by the national commission.

WILL SELL RESERVATION

Good Chance to Break into Web-Foot Cow Business The Official Bulletin issued by the government, has the following: 'Fort Sabine, abandoned military reservation, containing about 20,000 acres of land, situated in the southwest corner of Louisiana, where the Sabine River enters the Gulf of Mexico, has been ordered surveyed and subdivided for disposal. The work is now in hand, and after survey the lands will be appraised and sold at not less than their appraised value.'

SNEAK THIEVES SECURE GEMS

During the absence of its inmates Wednesday night the residence of Mrs. Anna Manley, 1310 Short street, was entered by thieves who stole jewelry worth \$160. Entrance was gained by forcing a rear window. Police have no clue as to the thieves.

PUGILIST LES DARCY DEAD

Attack of Pneumonia Had Fatal Result Yesterday Afternoon. Memphis, Tenn., May 24.—Les Darcy, the Australian pugilist, died at a hospital here this afternoon from pneumonia. He had been ill more than a month. Darcy died about 1:15 o'clock, his manager and trainer, Fred Gilmore, and Mack Hawkins, respectively, being at the bedside. Gilmore immediately sent a cablegram to the dead man's mother in Australia, and the body will be held here pending instructions from her. Darcy had enlisted in the aviation reserve corps here shortly before he was taken ill. At that time he was pronounced by Captain Christie, officer in charge of the corps, as the most perfect specimen of manhood that had applied for enlistment in the corps.

SUBJECT TO ARGUMENT

Minnesota's Claim to Preeminence in Pugilistic Stars Minnesota claims the crown for training out boxers but New Orleans also claims the title. Peter Herman a world champion, Joe Mabel, Red Dolan, Arthur Simmons and Phil Verget, all have more than local reputations, besides a host of smaller scrappers. A Minnesota paper makes its claim: Minnesota lays claim to the honor of having more boxers of worth in the game today than any other state in the union, and in support of this contention submits the following list: Fred Fulton, Mike and Tom Gibbons, Billy Miske, Mike and Jimmy Erbe, Billy Whalen, Mike O'Dowd, Billy DeFon, Clay Turner, Jack Malone and Mike McNulty. 'California never did better in her pugilistic days. Minnesota stands at the head of the pugilistic ladder and New York at the foot. More broodstock.'

TROLLEY RIDES AND DANCES

Proceeds Devoted to Aid Carmen's Families Called to War

The Arabelle Gymnastic and Library club, composed of employees of the New Orleans Railway and Light company, affiliated with the Arabelle barn, have arranged for the giving of two monster trolley rides and dances to take place Saturday, June 9 and 23. Mannasser's pavilion, West End, has been selected for the dance. The object of the organization in giving the affair is to obtain funds with which to help the families of members drafted for service in the army. From the uptown barn alone fourteen men have already been taken and it is expected that when the act of conscription is made operative, which will be in the early part of June, over one hundred men now doing active work on the uptown cars will be eligible for active service in the army. The Arabelle barn is one of the largest car terminals of the Railway Co., employing over six hundred men. Like many societies, organizations and fraternal bodies the members of which are wholly dependent on their earnings to properly provide for their families, the officers and members of the Arabelle Gymnastic and Library Club have formulated a plan of entertainment to meet these exigencies and headed by Capt. Geo. A. Fischer, a motorman on the Peters avenue line, propose to raise sufficient money to help each and every family of their brethren removed from their present sphere of usefulness to serve their country. The committee in charge have authorized the issuance of 5,000 tickets, and it is to be hoped that the general public will respond to the appeal of the carmen who, 'rain or shine', warm or cold, heroically ply their avocation in the interests of our thousands. The committee follows: Geo. A. Fischer, chairman; J. M. Keenan, ex-officio; J. R. O'Connor, floor; W. R. Jordan, transportation; A. Welsh, H. Jenkins, E. Dubuc, P. Schnell, W. Heintz, P. J. Labat, J. L. Shields, D. N. Foley, S. A. Vitter, H. Meibaum, W. Friedman.

PLENTY OF FISH IN THE SEA

Bertla Bayford, 27, 340 Marais street, is in the Charity Hospital in a serious condition as a result of attempting suicide at her home yesterday morning by taking anti-septic tablets. Disappointment in a love affair is said by the police to have prompted her act.

THINK WORLD'S END NEAR, SO TOWN IDLES

Bainbridge, Ga., May 24.—The little town of Havana, Fla., just across the state line, is greatly wrought up by the prediction of certain 'Bible students,' who have deduced from the world is at hand. Some have quit work; others have planted no crops or proceeded with proposed improvements, buildings, etc. It is argued that it is useless to work further when the end of time is only a matter of hours.

\$445,000 SHIP CONTRACT

Government contract totalling \$445,000 for the building of ships has been awarded to the firm of Janss Brothers, Bommer, Crain and Howe. The shipyards will be located at Morgan City 90 miles from New Orleans. The contract calls for the construction and completion of twelve wooden vessels. Between 2,500 and 3,000 men will be employed at the yards. This site for the yards was selected principally because nearly all of the raw material used in the ship construction is found nearby and the transportation of it to the yard is an easy matter.

HERMAN LOOKS GOOD TO VELOCK

By JACK VELOCK, International News Sports Editor. New York, May 24.—The timely purchase of the St. Louis Cardinals by a stock company of Mound City fans sidetracked a deal which would have completely wrecked the team. The 'low down' on the proposed deal leaked out after Mrs. Schuyler Britton agreed to the sale of the club, and St. Louis bugs may well thank their lucky stars that the deal did not go through. Throughout the winter Mrs. Britton was bombarded with offers for Roger Hornsby and Frank Snyder by the National League club owners. Big cash offers for these two players were dangled before the eyes of the magnates by Charles Woodhman, Charley Ebbets and Barney Dreyfus, and as competition grew keen and one after the other raised the ante Mrs. Britton began to awaken. She was told by Manager Higgins and other advisors that to dispose of Hornsby and Snyder would wreck the team. But the prospects were none too bright for St. Louis at that time and big money tempted the ex-proprietress of the Cards. Final Y. Barney Dreyfus, fearing that one of his rival bidders would beat him to Hornsby and Snyder, offered a flat sum, said to have been \$35,000, for the two players. Barney needed a shifstopper. The word 'way' and he also needed Snyder. He even considered offering to purchase Dots Miller, it is said. Mrs. Britton looked longingly at that \$35,000 and finally decided to go through with the deal. But just as she was on the verge of closing with Dreyfus the wide-awake fans of St. Louis were put hep, and the ultimate purchase of the team looked the sale of Huggins' brightest stars.

PATTERSON THROWS UP JOB

Trainer of Omar Khayyam Will Not Brook Interference A special from Louisville says: Training horses for millionaire sportsmen is not always a bed of roses. George Lamb has quit the Scherr establishment, while Charley Patterson, the man who was almost entirely responsible for Omar Khayyam's victory in the 1917 Kentucky Derby, has severed his connection with the Billings & Johnson stable because he refused to be dictated to. Mr. Johnson, it is said, caused Patterson's action through repeated interference in the training of Omar Khayyam. Patterson is one of the very best trainers on the American turf, and will not long be out of a position. That back of the impending dissolution of partnership of the racing firm of Johnson & Billings, owners of Omar Khayyam, lies the rumored accusation of Frederick Johnson that Jockey Borel 'pulled' the Derby winner in the Derby trial race at Lexington is the sensational news which leaked out here. Local turf followers, totally at sea for the cause for the disagreement between Johnson, Billings and Trainer Patterson, are accepting the story as the reason for the falling out, while at the same time showing little inclination to place any credence in the charge against the rider. Those who witnessed the race at Lexington are of one mind that while Omar did not run his race the fault was not with Borel, but rather should be placed at the door of the bad racing luck which the colt encountered, off none too well and careened into by Ticket, Borel sent his mount along the first part of the contest, but when he realized that all chance of winning was gone, let up on his mount and gave him an easy race for the remainder of the way, something which in view of the fact that the colt was a certain starter in the Kentucky Derby appeared nothing more or less than good jockeyship.

NEW REVOLVER CHAMPION

New York, May 24.—According to Stanley Withe, secretary of the American Trapshooters' Association, 4 per cent of the membership of that organization are physicians. Dr. D. A. Atkinson of Pennsylvania is the new champion revolver shot of the United States.

EVEN ESKIMOS SAVING FOOD TO HELP IN WAR

Seattle, Wash., May 24.—Uncle Sam's Eskimos in far-away Alaska are 'doing their bit' to win the war. Under the guidance of the Alaska native school, medical and reindeer service, they are being taught conservation of food supplies, both 'native' and 'outside.' They are endeavoring to produce more 'native' food and subsist on less 'States' stuff, so importations may be less. William T. Lopp, chief of the Alaska division of the service, with headquarters here, attempts to impress upon the Eskimo mind that 'every ton of reindeer meat, seal meat, walrus meat, whale meat and dried salmon produced helps relieve the food and freight shortage of the nation.' 'The war is as important to the Eskimo as to us,' says Lopp, 'and he is being taught to do his share.'

MARINES FIRST BIG BODY

Will Leave for French Front Within Few Weeks Washington, May 24.—Within a few weeks the first expeditionary force from the United States will depart for Europe. It may be predicted that about two thousand marines will make up this force, and they will go into the trenches, first Americans to fight under the Stars and Stripes in the world war. A short time later the army will enter the conflict, but it is agreed that the marines are to have first active service in Europe.

KENTUCKY HANDICAP JUNE 2

Big Race for Three-Year-Olds, With \$15,000 Purse Louisville, Ky., May 24.—The Kentucky Handicap, \$15,000 headliner of the coming meeting at Douglas park, is to be decided on the afternoon of June 2. This race, which is for three-year-olds and upwards, will bring together the best racers in the country. Eastern stables which come on for the Kentucky Derby usually enter in the stake and they stick around until it is decided. The Kentucky Handicap is quite an unusual race, for in it the three-year-old is asked to meet the best of the older horses. On only one occasion has a three-year-old been successful in pulling down the rich prize, and that was Luke McLuke, who got home in front in 1914. The stake has been run four times, and its winners have been Rud' He, Luke McLuke, Borrow and Ed Crumey. Among the nominees for the race this year are Roamer and Star Hawk.
