

Mighty Kicks is a Mobile Soccer Enrichment Program for children. The Program was established in 2008 by its founder, Luke Vercollone (professional soccer player), in Richmond, VA. Following great success in VA, Mighty Kicks has expanded (as a national franchise) by allowing qualified candidates to bring the same proven systems, methods and curriculum to their territory.

The Mighty Kicks Program is designed to develop coordination, self-confidence, motor skills and elementary soccer techniques with the focus on having fun. The positive team atmosphere fosters life skills and socialization at a crucial developmental age.

The Program has been so popular since it allows parents to enroll their child into a quality, extra-curricular activity without the time investment. Its success is credited to the experienced, professional instructors and the age-appropriate, proven curriculum. Mighty Kicks provides a great way to introduce youngsters to active lifestyle habits, sports and the world's greatest game.
