PRINCIED AND PUBLISHED DAILY, BY STATE PRINTER. THE UNION -IT MU-T SE PRESERVED."

FRIDAY MORNING, NOV. 1, 1832, FOR COVERNOR

## B. DAWSON. FORSMAYOR : MIN H. HOLLAND.

CHARLES CAYARRE. dente JAMES M. BRADFORD.

Anr. Be Accorder and be chosen from the Mayor at Becorder and be chosen from among the citizens who are heads of families, and resident within the city at the time of their election, and possess the other multipeations , and possess the other qualifications required by the existing laws."

Fellow citizens, if the law requires this as: condition in completing the eligibility of a can-didate for the place of Mayor, judge if respect for public manners and morals, does not more imperiously exact that it should be found in a candidate for the office of Governor.

We are requested to announce E. A. CANON, sag. as a mitable person to fill the place of recepter, at the approceding election.

the memory of the dead being almost general among our cias, no paper will be issued from this cilice on Saturday recollection of the last "all Saints day" brings with most polgnant reflections. The cruel seourge that has prevailed with a fatality beyond imagination's power to describe during nearly the last twelve months without ditional abatements, made its accuraced incoad into out city only a few days prior to that period. To dwell upon the perous victims to its devastating influence would be painful task, and would only lead to reflections sad and unchely; their memories are cherished

"On the greenest spot in memory's weste." We must refrain, on account of our own feelings, those we judge others to have, from pursuing such affecting

We have been favored, by a highly respectable cial house, with files of Vera Cruz papers to the 11th ult, faining intelligence from the city of Mexico to the 5th weekend by the brig Spark, which arrived at our port yes terday. Liberal extracts of the most important matter will edunder the "Mexican head."

We incline to the opinion, expressed by some of our oraries, that the next session of congress will be ne of the most bouterous in our annals. Clay, Webster, Calhoun, M'Duffie, &c. &c. will all be against the adsinistration on the bank question, and the matters that ave recently grown out of it. These men are of transcen dant abilities, and as advocates of a powerful institution whose means are unlimited, it cannot for a moment be doubted that their most strongous efforts will be elicited The administration however, has many supporters, in facthe majority—some of whom are likewise powerful speak ers, though their reputation be not so great as those giants in the reasoning art, whom we have enumerated, who will give its measures support commensurate with the attack made upon them. But this wi'l evidently produce a "wordy discussion," characterized by the usual rancorque ness and bitterness of partizan warfare. The session must therefore be windy, if not stormy

Besides the bank question, it is anticipated that the land question, and the melition of the servile easts in the District of Columbia question will be agitated.

Ganamon, the finatic, has issued his Manifesto in the Liberator, in which he gives the particulars of his fignitish on to England. He says that the great object of his omplished, and that he is about to organize a National Abolition Society. The New-York Courier & Enquirer, the steadfast opponent of such diabelsal principles, treating of the subject, observes:

If the Boston magistracy suffer such a madman to walk at large upon a community endangered by every footstep he taken, the example not to be followed elsewhere. The aret place he puts his foot in, for any such purpose as the he ought to be sent at once to bediam, where he belongs and there kept in custody. The safety of society requires it, and such a course has been siken with other variables in in disturbers of the public reacc, fifty times less dancer-

dently than his success in all the undertakings

may be engaged. CARLES GENOIS, BDW'D DURIVE. CORENCE, WM, WIDRAY,
——PHILOPON. JONES, PAULAND, TURNER, --- HUPF, B. Z. CANONGE

LATEST FROM MEXICO.

Maxico, October 5,
Welling glad to have it in our power to lay before our
adors the results of the movements of the federal army remmanded by the hero of Zemponia; those remits are d rane enters of the rebots having been informed that the general in chief had come out from San Miguel de Allende with his division, and knowing also, by their spise; the movement of the federal troops from Zacatecas and San Late, determined to oppose their united forces and marshed with all his daulyy from Guannausto. But the president keeping a vigilant eye on their movement, marched to-make the laws of Silao in order to invest the traiter During the laws of Silao in order to invest the traiter.

Durant legan to open a fire with all his artiflery against the division of his excellency who an his wide returned a heavy cannenading. In a few flours he made so much ha voc in the ranks of the faction, that they were obliged to retreat the same evening—they railled at Gannainata where they fartified themselves. I'his project of the distinct being thus baffled, the states division found no difficulty in uniting to the troops communated by the general liberat - division of Zacatoous speciated a junction on the 38th, and that of St. Donis on the 30th, September > So formable a force being now united, there is but little doubt of the early do feat of the rebels.

Maxico, Oct. 5. The following appount from Gen. Mejia, under date of Silao Sept. 25, will brought last night by an extraordina

courier from the federal a.my.

Flaving been informed that the enemy contemplated at riaving been interaced that the enomy contemplated at-lacking the Ascience de Cerrito's, about helf a league dis-tant from this town, with all his forces amounting to 1200 troops of infantry and 200 cavalry, I went out with my div-sion, drew them into a line of battle, and opening the fire of my artillery continued at until five o'clock in the afterof my artislery confinued it until five o'clock in the aftermon, and having silenced the enemy's five came back to
my quarters. We lost in this affair only three horseman.

We were preparing to attack the rebels to-day, and al
though off forces were sufficient to defeat them, the President thought it advisable that we should wait for the division fram Zacateess so as to inflict upon the enemy a more
decisive blow, but the faction withdrew early in the magning a few hours before the arrival of the Zaratean division. We might have opposed their movements but as we had detached one thousand troops of cavalry to protect the arrival of the auxiliary division, we did not think proper to attack them with the infantry alone.

Most zuma is to pass this night four leagues from here, we will instantance and all he abil the terms.

yes will jest to more and again to able then to commence operations against the enemy. Louist Poross, Sept. 26.

Yesterday Gen. Estevan Moderalian marched against the faction at Guanazusto, with 2,500 patriots and 10 pieces of artiflery, determined to conquer or die.

Important from Hauti.—Extract of a letter from St. Jago to Cuba, dated the 17th Oct. and addressed to one of our riends in this city, to whom we are indebted for the same:
"We have in our reads, for several days, the French brig

"We have in our reads, for several days, the French brig
Le Cuirassier, which has been deepatched to Hayfi, by the
French Government, to carry the infilimatum of the King
of the French, respecting the immediate payment of the indumnity, in Mefault whereof, it is said, an expedition would
be fitted out against the island.

"The negroes which he in great anxiety, as in fact, it
must be a matter of some difficulty for them to collect together a sum of twenty millions of dollars. On Monday
the brig will go back to Port au Prince for the purpose of
obtaining Boyer's answers. It is sented the expedition must
now be in the neighborhood, but this wants confirmation."

Louisieus Courier.

Louisieus Courier.

ST. MARTINEVILLE, Oct. 26, COMMUNICATED.—The "Citizen" of the Teche Courier scalls to my mind a sandy desert, on which the fertilizing time may pour, and the dews of heaven descond, without ratine may pour, and the degre of heaven descond, without producing it acknowledger of heaven descond, without producing it acknowledger of the blessing, one plant, if rut, herbor flower, for the benefit of animated nature.

Its ungrateful bosom absorbs every favor lavished on it; but no return is made. He asks for Gen. Dawson's qualifications for the office of Governor and many of them have been proclaimed repeatedly by several distinguished writors, and oditors of newspapers in the state. I say many, for all have not been mentioned; yet more have been published than Mr. White and Mr. Pricar united peases; but the berren sterile Citizen confesses none, and exclaims more! more!!! and were the friends of Gen. Dawson's processing the descent of the the barren sterile Citizen confesses none, and exclaims more! more!! and were the friends of Gen. Dawson

And the second control maintains, and a basileting of the second control maintains and the second control maintains are also that the second control maintains are also that the second control maintains are also the second

commerce in Mexico. In some of the churches wax candides as long as a man's arm, are made me of. The hunters of fever tore off the bandage, and with the blood spouling frequently throw aside the honey, and save only the wax.

"It exas is divided into three distinct tracts—the basel, the undulating the mountainous or hilly. The whole coast is level, but free from marsh. A bett of prairie about ten inites wide, extends along the coast. Back from the prairie the land is heavily timbered with pine, ash, cedar, cypress said other forest trees. The alluvial bottom lands of the Brezos, San Bernard and Colora to are from 3 to 20 miles said. They are heavily timbered with various kinds of Oaks, Cedat, Pecan, ElA, Mutherry and other forest trees.

There is art immense cane-brake, as it is termed, extending along Cane-brake exect seventy-five miles, and in hard some little opportunity of seeing something of their

and of the prairies in deep black mould mixed with sand in various proportions.

Of the settlements, besides Brazonia, a town has been

A military post has been established at Tenoxtician, on the right bank of the Brazos.

The mountain range of Texas is a spur of the Cierra

Madre (mother mountain) which it haves near the junction of the Rio Purros with the Rio Brave, and pursuing a

After Holley, in her interesting "Letters" four dily receive. To be taken size in het was written two years since, says there a a great modations, afforded by his vessel, and the disposition to please and give satisfaction manifeled by her clear, is conclusive evidence that no better choice of a continuent to please and give satisfaction manifeled by her clear that the proper state of the continuent to please and give satisfaction manifeled by her clear that the continuent is the tortion of the sum of the continuent to continue the continuent to the continue

There is an immense cane-brake, as it is termed, extending along Cane-biake creek seventy-five miles, and in width is from one by three miles. The Colorado airi Brazos Rivers were swellen by the spring and autumnal fresheis, are of a deep ret; an i very turbid. Three thousant pounds of sex of cotton and seventy-five bushels of Indian chara are an average crop on the alluvions which are easily cultivated. One of the branches of the Brazos river is sait, is set the land bordering this river has a fertility (owing the incrementance) which is truly extraordinary. The set the up his affairs. I can better illustrate this neferious this circumstance; which is truly extraordinary. The set the up his affairs. I can be the rillustrate this neferious deposits of the sait and fresh branches form a soif of a light reddish brown color, imprognated with salt and nitro. The whole valley of the Brazos is what is called mulatto soil, and is the best in Texas. The carth, when throught up the surface from a depth of twenty feet, will yield as good cups as the surface intestit. brought up the surface from a depth of twenty feet, will yield as good cope as the surface itself.

Ten union from the town of Belivar there is a tree which measures 19 feet in circumsference. The country between the rivers and receive is open, level, such and clear and prairie, clothed with luxuriant grass, and and can surpass these vast natural meadows. Even in the winter scason, the pasturage is sufficient to dispense with feeding live atock. On many accounts the prairies are deemed more var able than the allevial bottoms for cultivation. The and of the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead black mould mixed with and to the prairies the dead between the country to each the first to employ a lawyes, then to take out letters of duministration; after the expiration of ten days those of curatorship. Then the appointment of a lawyer to represent.—absent heirs, when they were to told, there were anne. This fee was to be paid. Then to pay two appraisers of the first to employ a lawyes, then to take out letters of curatorship. Then the appointment of a lawyer to represent.—absent heirs, when they were told, there were anne. This fee was to be paid. Then to pay two appraisers of the first to employ a fawyes, then to take out letters of curatorship. Then the appointment of a lawyer to represent.—absent heirs, when they were told, there were anne. This fee was to be paid. Then the appointment of a lawyer to represent.—absent heirs, when they were told, there were anne. This fee was to be paid. Then the appointment of a lawyer to represent.—absent heirs, when they were told, there were anne. This fee was to be paid. Then the appoin least—the court of recourse users that the wind said to encourage the cost, as name the sum the wind said to pay, to get the 300 but of bank. I will make add, it left her destinate! Yan will ask, is this the way we do husiness how I answer the!

The city topital, in a make like this, should be a large,

Of the settlements, besides Brazonia, a town has been laid off at the mouth of the Colorado, called Matagorda, and of an extensive fertile country.

Above the level region, the country becomes undulating. This kind of land extends in a northerly direction up the Colorado, Brazos and Gaudalupe rivers, from 150 to 200 miles above the level region, and reaches to the mountain range of Taxas. This undulating section is deemed as desirable a residence for man as can be found on the face of the earth. It is bountifully watered, abounding in bold rivulets and springs of the purest water. Successful experiments have been made on these undulations, of wheat, rye, oats, flax, &c. Lime stone and building stone in abundance. Indigenous grapes of various sorts, grow in great profasion, and natural vineyands await the hand of the vine-dresser. five hundrigh politims. Picture to yourself a sing built place, scarsily is go enough to hold half that number; I mean percentification with the fever. During the greater part of this serious with the fever. During the greater part of this serious the many arranged three hundred, and only one at adding physician being a caloned, and castor. The place of the Listitution, the physician being a caloned, and castor. The place is kept in the most fifthy condition, only fifteen old dirty ignorant numers to attnot three hundred, and the attendant physician dispatches his business there in a half an hour so as to brabbe him to visit his out-door patients from whom he has a light respectations. These poor writches at the hospital lie wallowing in their fifth, the blood from the effect of colonel running out offluir mouths and noses, thus they die—and are carried off, like brutes, and limited. The poor writches at the hong of Preval associate judge of the city court of the November, all upon it,—of course to die! The poor vritims are carried from their boarding hours in carts, to this Death's sole; and many of them do below they reach there. If it should happen that one most hungan; and while the money lasts he is treated well; but the very moment it is goin,—then goes the patient.—to the hospital, and its beaut of no more. Since writing the above, withing the money lasts he is treated well; but the very moment it is goin,—then goes the patient.—to the hospital, and its beaut of no more. Since writing the above, will be above, withing the money lasts he is treated well; but the very moment it is goin,—then goes the patient.—to the hospital have money, the land of a become sall at once most hungan; and while the money lasts he is treated well; but the very moment it is goin,—then goes the patient.—to the hospital have money, the land of a become sall at once most hungan; and while the money lasts he is treated well; but the very moment it is goin,—then goes the patient.—The hospital have money, the land of a become sall a Madre (mother mountain) which it traves near the joint to of the Rio Purrec with the Rio Bravo, and pursuing a north easterly direction, enters Texas at the sources of the Neuces river. The mountains are of the third and fourth class in point of elevation. They are generally covered with fixeds of oak, codar, and trickly interspersed with shrub-ery. Granite, quartz and limestone are comston—Iron, lead, and mineral coal have been found. The soil on the mountains is sufficiently rich and adapted to wheat, regard other small grain, and it is believed the resources of this section are sufficient to supply the whole country with produce, and yield a surplus for transportation. Fine wood, it is thought, will be a staple article from these high lands. North of this range and on the extreme head wasters of the Brazos river, the country becomes level and resents to the view interminable prairies, which are finally to resents to the view interminable prairies, which are finally to the produce, and country in the Louis and Advertiser. His communications of the section are sufficiently becomes level and resents to the view interminable prairies, which are finally to the section are sufficiently recommended by humanity, and his charges founded to resents to the view interminable prairies, which are finally to the produce, and the produce of the pr seasin. Sied grant it may be so. To this, thousands will asy—Amin.
