

## Modern Warfare 2 leagues PC – PS3 – Xbox

We are currently in the process of setting up leagues for MW2 on all gaming system (PC, PS3 and Xbox).

The league format will depend on how many teams we can get for each system.

If you are unable to make a team but are still interested in competing please register your interest as we may have other people interested in your area.

All competitors must be CSSC members and teams made up of individuals from the same CSSC area.

Please remember age is of no importance, we have players from various regions with an age range of 20's to 50's.

We would like to start the leagues up running by March, but you can still join after this date therefore we would like entries in ASAP or just contact me.

Teams are to be made up of five people, we will accept teams of four (however you will likely be 1 player down in most games) and you are allowed two substitutes.

The league will consist of one game a week which will last from 30 minutes to 1 ½ hours.

We will cover various MW2 game types throughout the season with a mini league for each game type and an overall league.

The captain of each team will receive monthly updates of the league.

If you have any interest in competing in the league please Complete the form and contact
