COMMERCIAL.

REMARKS.

Exchange is the active animation in the market, during the week for most articles of Produce, and it seems to a late extent have been effected sales and purchases of some articles which will be noticed under their respective heads. Want of confidence is still the check-rein of coming operations to be more limited in amount than they otherwise would be.

Money is becoming more easy but the Banks still continue their discounts exceedingly to business paper, of which there is very little offering, consequently the relief afforded by them is scarcely perceptible; there is however no doubt but much benefit derived from what business they are doing, although on so limited a scale as to be generally unnoticed.

Dollars have declined to 8 a 8¼ per cent, and with but little demand. Post Notes have advanced to 5¼ a 6 per cent, which is 1 per cent over the rates of last week. Mobile and Mississippi money remains without change we quote Mississippi River Bank 27 a 30 per cent discount, in 20's & 25's

We have no arrivals from Europe since our last Evening Issue.

The Ohio River from the last accounts had risen 1 foot; around it Tennessee have experienced a like increase of rain, a large amount of Cotton, and Tobacco will be rendered unfit for sale which had been stored for want of a sufficient depth to pass. The receipts at Western Ports, it has been very moderate, scarcely equal to the demand, this has caused the advance in

COTTON—The transactions of the week amount to 5,000 bales; and prices have advanced about ⅛ per cent on all descriptions, and in the sales we have made much as quoted in our last report.

The fine qualities are becoming extremely scarce.

The Receipts are 52,168 bales against 47,872 to same period last season, making an excess of 5a, 296 bales, as will stand this day.

	BALES.
Received by Rail Roads,	20,328
" by Steamboats,	31,852
" by Sloops & Schooners,	572
" by Canal & Lake Boats,	1,169
" by Other Ports,	5,657
	59,902
Exported to Foreign Ports,	5,526
" Coastwise,	1,208
	6,734

Which are 1,168 bales short of the 1st Receipts and 6,266 bales short of the 1st Exports, but we have a stock now on hand, and about 10,000 more than at this time last year, which is owing to the U States Bank.

The Receipts of the U States Bank are 1,500,000 dollars.

The Receipts of Cotton at this office exceed those of any week for several months past, and we have no doubt but what they will ready exceed them for several weeks to come, however no change in our quotations last week. We have only been enabled to get a few sales which were as follows, viz: 50 at 9, 38 at 9 cents, 61, 6a 6, 100 at 9 cents, 38 at 9 cents, 61, 6a 6, 100 at 9 cents, 38 at 9 cents, 61, 6a 6, 100 at 9 cents
