Some days ago we mentioned the nomination by the State Rights' Locofico party of Col. Jarsers and Davis, for Governor, vice Gen. Quithan withdrawn. This intelligence is now confirm od, and, we learn from the Natchex Fres Trader that Colonel Davis has accepted. The same paper, ho wever, seeks to change the issue, while supporting men, who throughout the late canvass, uniformly sustained the Locofico dwarms of General Quithan. The Free Trader naw talks about fighting and federalism, a high tariff, internal improvements, @national bask. tariff, internal improvements, a national back and the whole farrage of scheme attributed to

th Whig party. The game is evidently the win back the recreant Domocracy, and the Se ressionists hope to achieve this, in view of the fact, that the Union majority in the State is not much over six thousand on a slender voe. desperate rally for Davis. It will therefore besignal arrumph, to continue in the field, their arms in their hands, with furnas beating and colors flying, for they must assuredly expect an other and fiercer onelaught from the train band of the enemy in November. If they relax their dissurding and band in programs of the colors discipline, or di band in secure consciousness of another victory, they may be wofully deceived. They have a wary and wily foe to deal with—one not easily beaten and brave even to desperation. The Unionists and close their ranks and prepare for the fight. When they

MASSACHUSETTS.

Our readers have already learned the nomination of Mr. Winthsor for Governor of Marsachusets, by the Whig State Convention. The attendance in that body was very large, every part of the State being fully represented in E. F. Th MAS, of Worcester was appointed. The whole contract of the Union should be performed without reservation. There could could be no middle ground. They also were in favor of a protection of American industry, a wise and zealous viniteation of our national fault, with a scrupulous regard for the rights of other nations.

A triumph on any mere sectional platform would be worse than defeat.
