The United Emirates authorities have recently detained a number of Mujahideen and handed them over to suppressive organizations in their country in addition to having a number of them still in its custody. Undoubtedly, these practices bring the country into a fighting ring in which it cannot endure or escape from its consequences especially since the Emirates' social composition is the most productive, and very explosive.</p> <p data-bbox="345 1083 1373 1482">You are well aware that we have infiltrated your security, censorship, and monetary agencies along with other agencies that should not be mentioned. Therefore, we warn of the continuation of practicing such policies, which do not serve your interests and will only cost you many problems that will place you in an embarrassing state before your citizens. In addition, it will prove your agencies' immobility and failure. Also, we are confident that you are fully aware that your agencies will not get to the same high level of your American Lords. Furthermore, your intelligence will not be cleverer than theirs, and your censorship capabilities are not worth much against what they have reached. In spite of all this Allah has granted us success to get even with them and harm them.</p> <p data-bbox="345 1520 1338 1629">However, you are an easier target than them; your homeland is exposed to us. There are many vital interests that will hurt you if we decided to harm them, especially, since you rely on shameless tourism in your economical income!!</p> <p data-bbox="345 1667 1386 1814">Finally, our policies are not to operate in your homeland and/or tamper with your security because we are occupied with others which we consider are enemies of this nation. If you compel us to do so, we are prepared to postpone our program for a short period and allocate some time for you.</p> <p data-bbox="345 1852 1354 1885">Therefore, we ask you to release all the Mujahideen detainees since September</p>

incidents and anyone who was detained and suspected of having a connection with these incidents; otherwise, we will be compelled, with no regret, to change our policies towards you.
