The extensive patronage which their method of teaching writing has received in various parts of the United States, and the increasing application for instructions in the science, as well as the practice of writing, has induced them to establish permanent academies in New York, New Orleans and Mobile; and it is their intention to afford greater facilities for the acquisition of penmanship. Lessons are afforded by no other institution in the country. Persons entering one of them, have the privilege of attending either of the others, without extra charge. The
