NEW YORK, Aug. 11.

The Sally from Havre, and the Europe from Liverpool 5th ult. arrived this morning in European dates. The news is unimportant, and there seemed to be a declining off a better state of things.

The Toronto, which sailed for London yesterday, carried out in specie $385,000. The ship Tennessee, which arrived to day from Liverpool, brought 600 sovereigns for the purpose of being invested. The Gazette remarking the amount of specie remitted by the packet, says it must be borne in mind, that a considerable amount has been shipped for the purchase of goods for the fall trade. The Gazette says, that much more will follow in the succeeding packets for the same purpose, and that in the present dubious and unsettled state of affairs our importers are reluctant to purchase exclusive, even when based on that, which in ordinary times would appear to be undoubted security.

WALL STREET.—One o'clock.—The sales at the board to day were moderately large, and at prices not materially varying from those of yesterday.

Specie—225 doubloons were sold this morning at the board for $17.25 each. We notice half dollars at 88 a 9 premium; quarter do 7 a — do; American gold 84 a 86 do; Mexican dollars 10 a 10 1-8 do; Spanish do. — a 114 do; five francs pieces at $1.03 a 1,03½; sovereigns $5,34 a —; Patriot doubloons 16,75 a 9 6,90.

The treasury draft for $1500 old at 3 1-8 premium this morning—being a deduction of 4 per cent. from yesterday's prices.

The notes of the bank of Upper Canada are now purchased by J. Ward & Co, of this city, at two per cent premium.

Exchange—We quote the nominal rate of bills on England at 18 a 20 per cent.

Specie—The rate of premium are much the same as last week, the tendency, however, is rather to a decline in consequence of the large amount offering. The premium this week has been as follows: Mexican dollars 9 per cents, American gold 8½ per cent, quarters 6 per cent, American gold 8½ per cent new reigns 95 25 each; Patriot doubloons 16 75 each, and Pistareens 92.

Coffee—At auction 500 bags new crop Rio were sold at 11 a 11½ cents. We note sales of 200 bags Rio, by private contract, at 10¾ a 11 cts, and on lots of 1 to 2 thousand at 10 cts.

Havre and street Flour—The store transactions appear to be exclusively by retail, at 9 a 9 25. The wagon price remains at 8 25 a 8 50 and occasionally a little more is paid for a load of choice brand when found.

City Mills Flour—Sales at 8 25 a 8 75, as in quality, which appears to be permitted to accumulate, the sales keeping pace with the supplies

The inspections for the week ending Thursday evening last comprise the following kinds and quantities:

	bbls	half bbls.
Howard street,	688	00
City Mills,	3366	793
Susquehanna,	00	00
Total	5574	793

Besides 61 bbls rye flour and 41 bbls and 149 bbls corn meal.

Meal sales—At auction on Tuesday 32 bbls Porto Rico were sold at 38 cents, and yesterday 25 bbls Molasses, suitable for retailing, were sold at 29 a 30 cents.

Provisions—There is no change in the price of beef and pork. We learn bacon continues in fair demand and good to very prime lots are steadily at 10 a 10½ cts per lb. Some dealers refused to sell under 11 cts but we have not heard of no sales over 10½ cents. We quote No 1 lard, both Baltimore and Western, at 10 cents which is the current price of the article. Limited sales of Baltimore cured bacon at quotation. The inspection of the week comprise 24 kegs butter, but no beef, pork or lard.

Sperits—We continue to quote New England rum at 25 cents in bbls; ground lowest. There are no receipts of apple brandy by wagons. Holders ask 38 a 40 cents from store

Sugars—At auction on Tuesday 162 hhds Porto Rico were sold at 7 a 8 5; and 60 bbls do at 7 7 20. Yesterday the cargo of brig Opelousas, from New Orleans, consisting of 248 hhs 4 as offered, and a part at 6 a 6 25—the balance withdrawn for higher prices.

Tobacco—There has not been much doing in Tobacco this week, owing to the market being but poorly supplied with the middling and better quantities, which are the only sorts purchasers are in want of but we quote these at 6 a 12, with the remark that the prices are considered quite as well sustained as at any time during the year. Com mon sorts are neglected. There is a fair demand for Ohio, but the stock in market is very low, and operations are accordingly limited to small parcels. Supplies are shortly expected from Ohio. The inspections of the week comprise 693 hhds Maryland, 63 hhds Ohio, 8 hhds Pennsylvania, and 3 hhds Virginia.—Total 786 hhds.

Whiskey—We note sales of bbls at 23 cents and of hhds at 25 cents. The wagon price of bbls is 26. Exclusive of the bbl. fee inspections of the week comprise 54 hhds and 349 bbls; of which 48 hhds & 142 bbls were from the Susquehanna.

FOREIGN MARKETS.

LIVERPOOL, June 30

The demand for Cotton has been very general and steady one throughout the whole week, and full prices of American description remain without variation, excepting in the middle and lower qualities, which, from being sufficient to quantities have within the last day or two receded, and in those we reduce our quotations 8d per lb. In Brazils and Egyptians there is no alteration, nor in E India, of which kinds the stock is very small. Bengals and Surats of the 1st 10th Surat have been taken on speculation, and 2650 American, 700 Maranham, 150 Pernam, 1150 Surat, and 150 Egyptian, for export. 2300 American, 300 Surat, 250 Bahia, 300 Egyptian, and 50 Peruvian have been forwarded into the country since the last month—Sales of the week were 39,700 bags. Im orts 8995 bags.

LIVERPOOL July 1.

In most respects, our cotton market this week, has been similar to that of the last. The demand good, but being freely met by the holder, prices of last week were not in all instances maintained. The trade in the early part of the week, and upon a little improvement, though the manufacturers of some descriptions of goods still pressed to say, that even with cotton at present rates, they cannot get a fair profit of it. Some time will be required to make matters stronger again.

The chief sales made in Upland and Mobile live been from 5½ to 6½, and in Orleans from 5 a 6 1-2.

The import of all sorts of cotton into the kingdom since the 1st January amounts to 1,491,000 bags, and to 610,800 are from the United States against 633,000 of all kinds, and 477,000 American received up to the same time last year. The stock at this port, as at present computed amounts to about 350,000 bags against 250,000; and of American cotton we have 200,000 against 178,500 bales the estimated stock at the same period in 1836.

The sales of the week are as follows: 100 Sea Island, 16 a 23. 10 Stained, 83220 Upland, 4¾ a 7¼; 12,800 Orleans, 4¾ a 8 1-2; 3000 Texas, 5 a 6 1-2; and Mobile, 4 1-4 a 6. 950 Pernambuco, 8 a 10; 700 Maranham, 8 a 9 1-2; 51 a 71; 740 Maranham 6 a 9¼; 120 Laguira 5 a 5¼; 20 Pernam, 7; 700 Egyptian, 7 1-2 a 13. 2500 Surat, 3¾ a 5 1-2; 300 Bengal, 3¾ a 4 1-2; 50 Bengal 3¾ a 4 1-2.

Speculators of the above, took about 2500 bales of American, and 1100 Surat, and export buyers about 5000 American, 250 Brazil, and 1200 East India. The market is easier by closed flat.

The following are our present quotations: Upland, ordinary to middling for, 4¾ a 5 1-4; fair to good fair, 5 1-2 a 5 3-4; good to fine, 6 3-4 a 7 1-2; Orleans, ordinary to middling for, 4 1-4 a 4 1-2; fair to good fair, 5 1-2 a 6 1-2; good to fine, 7¼ a 8 1-4; Mobile, ordinary to middling for 4¾ a 5 1-4; fair to good fair, 5¾ a 6 1-2; good to fine, 7 1-4 a 7 3-4; Texas, ordinary to middling for 4 1-2 a 4 3-4; fair to good fair, 5¼ a 5¾; good to fine, 6; Sea Island to nominal.

Correspondence of Commercial Advertiser,

HAVRE, Jun. 30:

We have had an active demand for Cottons during the month, the transactions reaching nearly 37,000 bales; the deliveries to the trade, however, only amount to about 27,000 bales, the remaining 10,000 bales consisting of purchases on speculation and resales.

Prices have gradually advanced and the rise since the last mail is estimated at 30c on inferior and ordinary qualities; 15c a 15c on middling and good ordinary; 10c on good to fine; the market is very steady and it is evident that a better feeling towards the article is daily gaining ground;—accounts from the manufacturing districts are favorable in as much as goods and yarns are selling freely and at improving rates. Sales this day, 1,900 bales at very full prices.

Our imports for the last six months show a decrease of 4000 bales, compared with those of the same period of 1836, and our deliveries also a decrease of nearly 7000 bales. On the other hand, our stock is somewhat above heavy and comprises upward of 83,000 bales 69,000 bales U S against 51,000 bales-45,000 bales U S on the same day last year.

Owing to the prevailing opinion that arrivals will be scanty for the next few months, and to the active demand for consumption, our large stock does not weigh too heavily on the market and holders generally offer but little on sale.

About 300 bbls Potash sold at 1 27.50, since when 49 bbls have been paid 1 28. The sale in first hands is small. Pearl ash has declined to 1 40 for first sor.

In Rice but little has been done, the enquiry having been limited during the last week to the wants of our local consumption.

Whalebone has improved but no doubt would recede if any supplies of importance were received.

St. Domingo Coffee better—500 bags sold this day at 50c. other sorts are low, and depressed in the total absence of demand.

From the Home Price Current, June 30.

Beeswax—Very little is doing. A small lot of New York has been taken at 1170c. duty paid—and some Russia at 1175c.

Cotton—We have had extensive transactions in this article, during the last eight days. Our rates for U Stat e short staple have experienced a rise of 4 to 5 centimes, per 1 kg on the ordin. to middling, and 1 to 3 centimes on the better descriptions of these Cott on.

The sales for the week [comprising some re sales and purchases bought on speculation] have am ounted to 12,548 B consisting of: 6163 bales New Orleans, of which 160 at f. 140, 108 at f 147 50 to f. 160, 4295 at f. 91 to f 105, 1601 at f 80 to f. 90 and 31 at f. 72, 50 to f 73; 2349 bales Mobile, of which 41 were at f. 110, and 2308 at f. 89 f f to f. 1967 bales Upland, at which 35 were at f. 108, 1889 at f 90 to f 105 and 43 at f. 85

Indigo—The demand continues very languid; 25 chests Bengal have been disposed of, during the week, at 6f 50 for low and ordinary copper, to 9f 50 for good violet.

Hides—Of all descriptions are again flat. There are no buyers of Dry Salted Brasil at our last rates, but Bahia have been disposed of at 46¾c

Sugars—Prices have again receded about 1f per 50k.

Rice—We have had a further demand for Patna, at 5 francs 1336 bags have obtained 1f. 5f 50 c. Bassin—Dye Woods are in rather more request, and the following sales have been noticed, viz. 30 to a Santa Marha of ordinary quality, duty paid, at 12f; 10 do Cam pêche; 10 do C ampeche Picotte 6f; 175 do Tobasco Logwood, exp ired 9f. 60; 185 Martinique Logwood 6f; 84 do Bap in 12f 50.

HAVRE, July 1.

We learn that the prices of cotton last improved and on ouraging intelligence from the manufacturing districts which gave such an impulse to the market that over 6000 bales changed hands in two days, and the total sales of the week amounted to 18,500 bales.

The descriptions most in request were the medium qualities from the United States, which have risen from 4 a 5—also, we can notice an improvement upon the superior qualities. The transactions in other descriptions of U. States and South American Cottons, were unimportant, and with the exception of rise in prices. The acts [illegible] week [illegible] 74,000 United States, 3000 Brazil, 3000 other descriptions. The sales of the week amount to about 6664 bales Louisiana Lowland, to good fair, 72c to 110; 8317 do do Georgia short staple and Fancy and Florida, 91f to 107 50, 4201 do Mobile, ordinary to do, 89f to 110; 470 do Virginia, 89f to 102c.

HAVRE, June 27.

Cotton—23 Sales Louisiana, low; 10 do 107 50, 75 do 108, 50 do 109, 83 do 98, 24 do 92 50; 16 do 96, 32 do 94, 50 do 95, 52 50; 72 do 90; 7 do 72; 43 Mobile, 110c; 30 do 105; 51 do 103; 172 do 100, 179 do 97 50 do Georgia, 108, 50 do 100; 25 do 98; 25 do 96, 25 do 94 50, 31 do 91. 131 Baltic, 90; 25 do 108 50; 150 Bengal, 50, 212 do 53 a 54; 850 do 47 a 50

BORDEAUX MARKET, June 24.

Cotton—The advance continues to be maintained. Holders do not show much disposition to sell, at the rates noted, and have even raised their price. The news from abroad is favorable The remissions have been 198 bales Carolina, and 270 Fayia. The More Castle has brought from New Orleans 579 bales, and the Barbara 100 from Carolina.

Rice—This article meets a ready sale. The India is in good demand, especially the better qualities. 302 tierces Carolina have been sold, to be delivered from the Barbara.

MARSEILLES, June 24.

Coffee is either. Oils of all sorts are also calm, and Olive has fallen to 107f the 50k. Soaps in some condition with oil. Cotton is better; the sales are almost all of Egyptian.

Steamboat Accident.

The steamboat Caroline, Captain Griffin, temporarily employed in the mail line, burnt one of her boilers off Dog River Bar, about nine miles below Mobile. The steamman was killed on the spot, and two passengers who threw themselves overboard were drowned. We have not heard their names.

Captain Griffin is one of the most prudent and cautious commanders on the Lake, and had been just taken charge of the Caroline, until some repairs should be made to the steamboat Ouachi to, which had previously been commanded by him. As far as we can learn, no blame is attached to him or the officers on board.

Some of the crew were badly scalded, but the physicians declare there is no danger for their lives.

Meunier.—

Captain Blake of the steamboat Merchant informs us, that the French brig of war *La Perouse*, Captain Fournier, 55 days from L'Orient, had arrrived at Pensacola with Meunier, the individual who attempted to assassinate the king of the French We are further informed by a passenger, that Meunier was about to take passage in the Champion for Mobile, on his way it is presumed to this city. He is represented to us as very illiterate.

Our Correspondents and the last municipality appear resolved that he shall have a double notoriety.

Melancholly Occurrence.

By a slip from the Penn-burg Constitution, we are furnished with the particulars of an accident on the Portsmouth and Roanoke railroad, by which three ladies and a servant woman were killed, and thirty other persons were dreadfully wounded and mangled. The accident was occasioned by two engines coming in contact, with a train of freight cars, near the town of Suffolk, producing a concussion, which shattered the engines of both trains, and threw the attendant trains of cars from the track, causing the instant loss of life, the fracture of limbs and other bodily injuries, above stated. The names of the ladies killed are Misses McClenny, Ely and Roberts.

A letter from Warrenton, of the 6th inst, published in the Globe, announces the re-election of General Micajah T Hawkins to Congress in the sixth district, which comprises the counties of Warren, Granville, Franklin and Nash. The votes stood thus:

The Herald falls into a very strange mistake, when it supposes that the notes of the municipalities may be counterfeited with impunity We are sorry to see such an opinion emitted by that journal, as it may have a very pernicious influence. It is like inviting the commission of the crime, for where there is no punishment there is no no guilt; and in a community like ours, such a doctrine will be eagerly caught up a class of persons whose morality is not too easy, as a pretext for their evil practices. The opinion is certainly incline the m We protest against such interpretation of the law as this It is opposed to he good morals, as well as to sound sense and reason. The notes of the municipalities are authorized by the town council of the community, and are based upon the property of the community, which is pledged for its redemption. This currency is besides indispensable to our wants under existing circumstances; but if it may be counterfeited at will by any knave, we shall have no security for its genuiness, and shall have to dispense with it altogether. In any case, whether this doctrine is inculcated in quarnings, we will in this way or not, is immaterial; one thing is very clear, that in individual obligations, whoever a nold counterfeit the signatures appended to the notes would be guilty of forgery, and punished accordingly. So let counterfeiters and forgers beware of making "the experiment," if they wish to escape the penetentiary

The Herald is generally unexceptionable in its remarks; and we cannot but believe, it penned a article without reflecting upon the improper tendency it might have.

From the West Indies.

By an arrival at New York, 10th inst, Havana papers have been received to the 12th inst. The yellow fever was making great ravages in Demerara. A mutiny, in which about 200 of the black troops flatly captured in slavers are enlisted in the British service engaged, and which occasioned great alarm, broke out on the 18th June, in Trinidad The mutiny is made a rush upon the quarters of the garrison before daylight, set fire to a part, and stole considerable drums and ammunition, and took entire possession of the barracks. Aid was at once forthcoming from St James, and an engagement took place, in which the mutineers were route, leaving ten dead, and nearly as many more disabled by wounds. They fled were pursued, and all but eight were captured. The ringleaders, it is supposed, would be shot. Major Ford, the public treasurer of Trinidad, had become a defaulter for upwards of $30,000. The small portion was in specie all in Trinidad, and to a considerable extent fatally. At Grenada it was decreasing. A hurricane which struck two vessels, the Myrtle and Ruth, at Bridgetown, and did a large amount of damage to the estates, visited Barbadoes on the 9th of June.

A large fire broke out in Liverpool on the 28th of June, but was confined to the three upper stories of the seven story warehouse in which it originated Little damage appears to have been done, those stories being occupied with nothing valuable. There were 240 bales of cotton in the building, belonging to the Messrs Miller, Parr & Co, all of which was saved.

The Bank of Missouri commenced issuing her own paper on the 30th ult The lowest denomination of notes that she will issue, says the St Louis Republican, will be twenty dollars.

A paper has been established in Terberan, in Persia. Its title is Akhbar Sukat [news and events] It will be the means of spreading civilization in the east and at the same time will disseminate oriental literature, which is relished so much from the little we are in possession of.

The increase of population of British North America is stated to have been between the years 1824 and 1837 from 875,000 to 1,750,000 souls. During the last year th imports into Canada were valued at £3,500,000 sterling, the exports during the same period of time being £3,6 0,000 sterling.

A most magnificent custom house has been erected in Liverpool, England. The ground on which it stands is valued at £80,000 sterli g, and was presented by the city corporation. The cost of construction is £150,000 sterling. The style of architecture is imple.

As an evidence of the great facilities for travelling which at present exist in this country, the Boston Advocate adduces the instance of a person who during an absence of 59 days from that city had travelled four thousand miles. During his trip the individual laid by on eight Sundays, and stopped thirteen for business purposes, thus making the distance passed over on each travelling day 120 miles The entire expense were 246 dollars, being an average of 68 cents per mile, or four dollars a day, all charges included.

John Quincy Adams.

Whatever may be said of the eccentricities of this distinguished statesman, it must be granted that there is a candor and openness in the expression of his opinions that carry great weight Possessed of talents of the highest order, which have been developed by one of the best academical educations in the country, there is a beauty, a pathos, and an irresistible eloquence in his style, that inspires even his opponents with reverance and respect, and they are compelled in spite of themselves, to pay him homage, and to admit the opinions they have formed to his prejudice. Forourselves, we have always looked up to him with distrust, and have received with great caution his politics dogmas. Still, we have seen him rise superior to per sonal feelings, and dare to express his sentiments, without consulting their popularity, or their ultimate detriment to himself We remember well the occasion when animated with patriotic ardor, in opposition to the party in whose rank he was enrolled, he boldly attacked them for their misconduct in loosing the fortification bill, and brought directly home to Mr Webster the charge of being chiefly instrumental in that pernicious loosing. We remember with what alacrity he placed himself on the side of his country in the threatened hostilities with France sold with what powerful invective he ever hurled against those of his late associates who cost their energies to embarrass the administration, and make it [illegible] [illegible] the footstool of that power.
