# Greenery

Greenery is a word used at the place at which over plantation is done and it's not going effect the environment balance instead benefits in all the way.

- Introduction
- Benefits
- Steps to make greenery
- Conclusion

## INTRODUCTIO

A place can become greenery either of the two methods

- By artificial (manmade )  
By natural effects.
- Manmade: It is carried by implantation (planting the trees) in an area.
- By natural effects: It happens due to natural natural climatic conditions.

## Benefits

What are the benefits that u can have in making greenery?

- To have a healthy environment.
- To be healthy and wealthy.
- To breath unpolluted air.
- To reduce pollution.

## Steps to greenery

- Implantation must be initiated in an area and it must be carried by a group for better results.
- There must be a committee to water the new born herbs and trees.
- Everyone in area must be a part of the program.
- This must not effect the basic needs of the people in an area.
- Try to plant more trees in an area where there are polluting sources like industries, septic tanks etc.

**Make your environment greenery and grow healthy and wealthy.**
