- Third Article: 50%

Participation and Checkpoints 30pts
- 10 Checkpoints: 3% Each
- *'Good Faith' Policy: +/- x pts

*Good Faith Policy: Wikipedia promotes the assumption of good faith. That is, without clear evidence to the contrary, it is assumed that people who edit wikipedia are trying to help it, not hurt it. The same will apply in this course. We will assume students are going to complete unweighted assignments on time, and put forth an effort to help each other by peer editing articles. We will award this good faith by buffering your two lowest checkpoints. On Wikipedia and in this course, displaying good faith is not required, but it can benefit both individuals and the community as a whole. The policy will be reserved for students who complete all unweighted assignments and participate in peer editing. Subsequent unexcused absences and missed assignments will result in point reductions and mandatory peer review assignments
