Agenda

- Brainstorming
- report improvement
- Saw axes and get glue and some electronic components

Elaboration

- Brainstorming about the sliding system.
- Feedback report: we had one of the best reports, with some flaws.
- Our gears were not yet arrived, thus we could not use the test circuit. We did get some necessary supplies for the assemblage of the car like a new mirror, glue and some electronic components for decorating our car.
- We also have saw our axes to the correct length.
