the Central American question, which is leading topic of Mr. Darkas's letters to the comment, seems on the point of being ited, if we may believe the official statemark, though not by the abrogation of the commonwealth of the note, though not by the abrogation of the ton-Bolwer treaty, but in a circumiocus and roundabout Isashion, by the surroun and the part of England of her protector of Mos puths to the avereignty of Hond.

We see nothing, however, in the respondence relative to any proposed some title by Islands, while we discover his declaration of a determination by Great alone to protect Nicaragua from the applaint the finding term in the protect Nicaragua from the applaint the finding the germ of another constant difficulty, and a departure from sport, if not the letter, of treaty stipulations and the finding the surroundable of the protect of exisant difficulty, and a departure from porti, if not the letter, of treaty stipulations this country. Nothing less, however to be expected. When Mr. BUCHAand Congress excused Commodore thing for his atrocious conduct in land-on the soil of Nicaragua, and kidnapping ing on the soil of Nicaragua, and kidnapping Walkar's men, be and they established a precedent which, it was predicted, England would not be slow to follow. We scarcely perceive with what propriety our government can complain of an act of usurpation, after sanctioning one equally palpable and grievous. Indeed, there is no probability that the Administration will dissent from the positions assumed by Lord Malassacker, for the childle grand says emphatically that the line of policy had down towards Central America meets the concurrence of England, France, span and the United States.

To report by Mr. Doogs of his interview with the Spanish Minister is abundantly gratifying. Span whilly disclaims any desays to recover the domination of Malico, and acquirescess entirely in the Monree does

and acquesces entirely in the Monroe doc-HAM and Commodore Mcistosh, of which a bare summary is given, will be found fully to many the belief of the manly and gallant conduct displayed by the American com-mander. He met the issue-promptly, and acted with a decision, and energy worthy & all praise. But our columns are too crowded .. t of further comment this morning. DEATH OF EX-CRISE JUSTICE EUSTIS. -- We
