LETTER FROM ALFRED KELLY. COLUMBUS, (Ohio) 19th March, 1840.

DEAR SIS,—In your letter of the 3d inst, you procose the two following queries: 1. "Was Gen'i HARRISON a member of the legistr

2. "Did he then introduce a resolution, or amen ent, or modification, by which he surrendered ound he had taken in congress on the Misso uestion?"

In answer, I have to say that Gen'l Hannou to his seat as a member of the senate of Ohio, in Decer, 1819. During that session, General John Thoson, then a senator from Columbiana county, sing

"Whereas the inhibiting the further extension of slavery in these United States, is a subject of deep concern to the people of this state; and whereas we sensider slavery as an evil much to be deplored, and that every constitutional barrier should be interposed to prevent its further extension, and that the constitution of the United States, clearly giving congress the right to require of new states, not comprehended withing the original boundary of the United States, the prohibiting of slavery as a condition of their admission into the Union. The letter of Mr. Kni...v places the conduct of Gen.

The whige accepted the provise—and then the loco focos' backed out, unless the three reports of General Harrison nade only about thirty years ago 'should be grinted along with them. The fideral loco focos thought by this destreous manoivarve to frighten the whige from the printing; but the whige knew their candilate could stand the test of the most thorough examination. They therefore closed at once with this proposition, unprecedented as it was, to append three old reports of Gen. Harrison's to a report of the present secretary of war, on a measure of the cristing administration. They then deprived the loca foco of all pretence for refusing Mr. Preston's motion.

The administration party are so overwhelmed by seeing the tide of popular indigration which has awelled, abd continues to roll on and on against the authors and odvocates of this standing army acheme, that they have not attempt to defend its constitutionality or expediency. Mr. Preston well said "they cenfess judgment but wish to make Gen. Harrison a winners in mitigation of damages." This trick will not answer. The people will not allow them to skulk from their proper responsibility under the cloak of Gen. Knox or Gen Harrison. They must stand on their own merits; or fall by their descrits. Besades, Gen. Harrison's broad shield gives them no defence in this particular. His militia scheme, as will be shown, had none of the ordinos federal, desputic and extravagant provisions of Mr. Vam Buren's and Mr. Poinsett's. The people will not allow threse two to scape by making arbitrary and flagitious misrepresentations of Harrison.

The house was engaged the whole of to-day on the sub-treasury. Three speeches in favor of it from three federal loco focos, constituted our very "entertainment."

I affirm that this was an untruth, bittered for I know not what object, and I again affirm it. If Mr. M. H. In spite of the pleasure I should feel in obliging him, I have nothing to reply to the questions he so benfrolently propounds to me, except that in the majority which elected them, and that it becomes me no more than it does him, to place myself as an artifier between than it does him, to place myself as an artifier between
