teressing anecdotes of the late distinguished Methodist Bishop, the Rev. H. B. Baston. We copy two or three for them:

We copy two or three of them:

His Escope from a Pauther,—Bue several years. Dr. Basconie albors were assigned to the wild and unsettled frentiers of Virginia, Kentucky and Ohio. The hardships and privations to which he was subjected, on these critics, would have combined the spirits of any ordinary man. He frequently had to travel forty miles a day, through solitary forests, and, after the fatigues I such a journey, deliver a new ordinary man. He frequently had to travel forty miles a day, through solitary forests, and, after the fatigues I such a journey, deliver a seamon at slight. The rade, at that time, were seamon by frame beyond their banks. But this was but a slight nebasel to the noble pomeer of the cross. He would force his horse daringly forward, and swim across the forming hillow. To a soul like his, a sect out and a few hours of chilliness were triffes not to be avoided. On one eccasion, while swimming a small stream in Kentucky, which had been swellen to an unassal height by recent rains, the current was so rapid that he was forced some two hundred yards below the furd. The first was whitting furiously around him, and on either side, the banks were too neep to accord. He new his danger, but, with a fairly and course, finally emerged safely from his pertic. What a contrast does this present in the smooth and lazinous life of most ciergymen of the present day!

What a contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the contrast does this present to the survoy of the protection of the present does the mount of the contrast does this present to the survoy of the protection of the present does the mount of the contrast does this present to the divide with contrast to the double with contrast of the present to the divide him, and survoy thinks the case in the contrast does this present to the divide him to do the present does the present to the survoy of the present does not the present to the survoy of the present does not the present d

without.
"My child' my child" screamed the mother, and as quick as thought all rushed to the

mances of history. The theory is not a new one, but the discussion has recently been revi-ved, and is now exciting renewed interest in

the medical profession.
