THE DAILY BEE.

Wednesday Morning, May 30, 1855.

The Northern Mail came through yesterday with the latest dates.

THE SUPREME COURT.

Our readers are already apprised of the refusal of Judge Eustis to allow his name to be used for the vacant seat of Chief Justice of our Supreme Court. The most urgent solicitations of the members of the bar in the country and city, and the pressing entreaties of the business portion of the population, could not induce him to accept a nomination. Both Hunt and Roselius have likewise declined the candidature in the most emphatic terms. This is what all men of intelligence and sagacity expected. The Legislature reduced the salary of the Judges so low, and imposed so many additional labors upon them, that any respectable member of the bar prefers making a few thousand dollars a year by his practice, where he enjoys his freedom, than to sit upon the Bench. Lawyers of ability will not be Judges, and a judiceship of the Supreme Bench of Louisiana goes a-begging, until some pettifog lawyer of small brains and limited practice consents to relinquish the blandishments of private life, and the *res angustæ* of a brainless barrister for a seat upon the Bench. The champions of low salaries and laborious duties have now attained their object. They have driven away the competitors of able jurists, and are left undisputed victors of the field.

Perhaps,—we are almost certain of it—no State but our own, has reached that pass, that the highest seat of judicature is rejected by the most eminent members of the bar. In our sister States, it is a prize for competition, and the highest forensic talent struggles to win it; but here, the reign of demagogues has debased it, until men recoil from it as they would from the touch of the sutler. Party spirit has deliberately and systematically gone to work to impair its efficiency, to corrupt its purity, and to reduce it to the level of its own grovelling aspirations, so that few men of capability and worth will condescend to occupy a seat upon the Bench.

The radical and fundamental defect in our Judicial system is the elective feature. Whatever may be said in vindication of it, in other States, where there is an homogeneous nationality of population, it has proved an ultra failure in this State. In the abstract, and tested by the light of the experience of ages, there is no greater paradox in the science of government than an elective Judiciary. All ages have taught us the unfitness of the masses to choose competent Judges, and we now, in less than three years from its trial, have the striking example of Louisiana as an illustration and corroboration of the truism. It works better in the country than city, where the pinhead character of the population opposes an irresistible obstacle to its successful operation. There are too many races to reconcile, too many animosities to soothe, too many prejudices to overcome, and too many interests to conciliate, for it to work well. Sagacious and reflecting minds anticipated and predicted the speedy failure of a popular Judiciary in this State. It was a principle which had grown into an axiom, and which is founded in the deepest philosophy of government, that the institutions of one nation and people cannot be transferred and applied to another, which does not possess a similarity of habits, interests, manners and geography; that to justify such a transfer and application of institutions and systems, the conditions of both countries must be the same. Some took the system under duress; others from necessity, and others as a doubtful experiment, the objections to which time would develope, and which the people would abandon on the discovery of its defects. The issue had been forced upon them by incapable Governors, who filled the Bench with party hacks and profligate barristers; but it must be confessed that it has gone from bad to worse, until our Courts have become a theme of standing reproach to the community.

It is quite curious and interesting to follow step by step the revolution which has taken place in the character of the Bench, within the last ten or twelve years. Every change wrought in the tenure of office, or the mode of election or constitution of the Court, has effected a corresponding change in the abilities of the Judges. Every change of the system, and the incumbents, as a general thing, has brought feeble men into power;—and if the people do not punish the demagogues who are the authors of the evil, the Courts will fall into contempt. We know that it is now believed that any man is competent to discharge the duties of an office, be it the most exalted or the humblest, and to speak the contrary is not democratic; but, with all the politeness imaginable, we beg to enter our strong protest against this reckless dogma of democratic faith. The highest stations should always be occupied by men of the highest talent, and the practice of filling them with ignorant and uneducated men is obnoxious to a thousand objections. It discourages science and letters, represses the aspirations of nascent genius, and tends to the destruction of industry, energy and application. It brings forth a spawn of legal sciolists, and offers them the high prize of a judicial seat as the reward of their idleness and imbecility. Education, diligence and acquirements, instead of being appreciated as essential qualifications for high preferment, are positive drawbacks to their possessors, and constitute a title to popular proscription. We hope the period is not far distant when we shall be able to notice a change in popular sentiment, and to applaud it.

New Orleans, May 29th, 1855.

To the Editors of the Bee:

Gentlemen—You will much oblige the undersigned by inserting in your columns the annexed letter which we have just been instructed by mail to the editors of the New York Herald and the National Intelligencer for publication. Very respectfully,

PIERRE SOULE.

[Copy.]

New Orleans, May 29th, 1855.

To the Editors of the National Intelligencer, and of the New York Herald.

Gentlemen—I do not interfere at present, to notice the letter published over the signature of Horatio J. Perry in your number of the 22d (and 23d) inst., otherwise than by stating *that* it is a tissue of falsehoods, and a proof of the baseness and impudence of the writer as they are equaled by his hypocrisy and cowardice.

I stand, this last production of his sweats the lowest and the basest of all even.

I shall take occasion to draw up a picture of this gentleman's doings during my mission to Spain, in the history which I am preparing of it for the press and, without unsealing the secret of his treachery, give it time to the encouragement and support which it has secured him in the State Department at Washington.

Your obedient servant,

PIERRE SOULE.

☞ Thanks to the officers of the steamer Mississippi for late St. Louis papers.

☞ We are indebted to the officers of the steamer *Switzerland* for late Cincinnati papers.

New Books.—Our thanks are due the publishers, through J. C. Morgan, Exchange Place, for the following works:

Westminster Review for April. A capital number. The article on the administrative example of the United States will attract general attention. It is liberal and just. The Memoirs of the Court of Austria; Dryden and his times;—and Victor Hugo and his writings are likewise discriminating and able.

Blackwood's Magazine for May is a very fair number. The story of the campaign is continued, and also the historical romance of Zadoc Thorn. There is a good article on modern novelists, and one on moral literary variety.

The Wonderful and Amusing Doings, by land and sea, of Oscar Shanghai. This book is decidedly of the genus comical, and contains some hundred of mirth-provoking illustrations.

Nectar.—A delicious syrup bearing this appropriate title may be found at Rochelle soda water establishment, corner of Chartres and Conti streets. Try it.

By Telegraph!

[By the National Line.]

River Intelligence.

Vicksburg, May 29.—The steamer Crescent City, bound for New Orleans, passed down at 11 o'clock this morning.

Rain at Jackson.

Jackson, May 29.—We enjoyed a fine rain here this morning. There are good prospects of more.

Re-Organization of the Whig Party in New York.

Our readers will remember that, at the election last Fall in the State of New York, there were but little short of a dozen tickets in the field, representing the various issues of the day. Since that time there has, apparently, been but one really distinctive organization in the Empire State—that of the Know-Nothings! All other parties, and fractions of parties, having "fussed" to oppose Sam. There are those, however, who—like the 7,000 Israelites who fled but bowed the knee to Baal—are not disposed to be anything but Whigs—Whigs of the pure stamp, unadulterated with Abolitionism or any other ism. These are making an effort to find the old land-marks, and to bring back the dispersed forces of the ancient faith. They have established their head-quarters at Constitution Hall, in New York city, and issued addresses to the Whigs of the city and State. In the former, they condemn the "primary meetings," so called, which have been in vogue for a few years past, and which have been so prolific of corruption, both on the Whig and Democratic side of the house. In a word, they are for a re-organization, a rejuvenation, and a return to first principles of the Whig party in their midst. In addressing the Whigs of the State at large, they repudiate the Albany Junto, headed and controlled by Thurlow Weed, as well as "Onions," whether with the Know Nothings or their opposers.—*Baltimore American.*

More Proof.—The last National Era—the Abolition organ at Washington—contains the following, to which we invite the attention of Virginians and Southerners. In reply to the New Hampshire Democrat, it says:

"Or friend of the *Independent* (N. H.) Democrat must not be ashamed of our position. With the Know-Nothings, Whigs, Democrats, Neutrals, we would co-operate; *as individuals*. Even now we are willing to see a general *Fusion of the People* on Anti-Slavery issues, without distinction of party. But we cannot co-operate with the Know Nothings, as a party, giving the Order itself and and consentenance, and securing to it successes which are expected to be used for the final lay up under National Pro Slavery Party on the ruins of the old Whig organization.

There it is.

Where is the Abolitionists wont co-operate with the "Pro Slavery Know Nothing party?" So says the Abolition Metropolitan organ.

Destructive Fire.—Quercity last night was visited by a large and destructive fire, which consumed a great amount in various articles, and caused a very heavy loss to some of the parties. The fire broke out about eleven o'clock, in the brick building on the corner of 11th and B streets, owned by Mr. Boswell Hilliard, and occupied in great palpility to another brick building north of it, also owned by Mr. Adams, and also to a smaller one owned by Alfred Lee, consuming all three with the entire contents.

The first was occupied on the ground story by Mr. Fetibone as a grain and food store, and the remainder by Mr. Hilliard, who had been concerned in, were received. The resolution of the Board in regard to the Postmaster Halstead was not concurred in, for want of a legal majority. A committee of conference was appointed.

Concurrence was asked in a resolution appointing a committee to learn on what terms the Water Works Company will extend water to the Fourth District. Concurred in, and a committee appointed.

A resolution in regard to the Draining Company, from the other Board, was laid on the table.

Various petitions were received and referred.

Resolutions that the Street Commissioner be authorized to repair the sidewalk around Association Square, at an expense not exceeding $300.

Mr. Giffor advocated his resolution.

Mr. Jewett moved an amendment to improve Washington Square, Third District.

The subject was referred to the Committee on Streets and Landings.

At this stage in the proceedings the Aldermen were announced, and a joint session took place.

The President said the object was the election of officers.

Messrs. Wm. Tenbrench, James T. Platt vein and James H. Weightman were the nominated Chiefs of the Fire Department.

Mr. Wingfield received 23 votes, Mr. Tegbrock 4, and Mr. Platt vine 4. Mr. Wingfield was therefore elected.

Messrs. H. L. Goodrich, W. S. Florance and J. G. Feindenter were then elected School Directors of the First, Third and Fourth District.

Mr. A. W. Eldridge was elected Wardmaster of the First District.

The Aldermen then retired, and the affairs of the Board proceeded.

An ordinance in regard to Washington was laid over.

A resolution from the other Board appropriating $100 to defray the expenses of prosecuting Recorders Summonses and Salmon was laid over.

A Horse ordinance, forbidding persons to ride in the public squares, in Canal, Rampart, and Esplanade streets, was then passed.

Mr. McKnight offered a series of resolutions in regard to the McDonogh estate in favor, in the opinion of counsel they possessed, of full paying to New Orleans, as vacation, to the highest bidder. Mr. McKnight duly advocated his resolutions. The Mayor believed them to allege in such regards as to possess much merit, and to be one of the greatest issues to New Orleans. He wished to carry out the intentions of the donor as far as this City Government with the public trust. The resolutions were merely declaratory, and required the concurrence of Baltimore before anything could be done, and would not compromise the rights of the city. The resolutions contemplate sending the slaves to Liberia through the American Colonization Society. The subject was laid over to the next meeting, the mover concurring.

A House ordinance forbidding persons to feed cattle in the public squares, or in Canal, Rampart and Esplanade streets, was adopted.

The Finance Committee of the Council submitted a long and able report on the financial condition of the city—in favor of retrenching all expenses not absolutely necessary,—against opening new streets, and of pursuing a rigid system of economy.

The estimated receipts into the Treasury, from April 12th to December 31st, 1855, it is thought will fall short of the expenses in the sum of $301,316. The report was ordered to be printed, and one hundred copies in a pamphlet form.

Mr. Smith moved that the hour for meeting of the Board, during the summer months, be changed. The motion was laid on the table until the next meeting. We hope the hour will be changed.

The Police Committee reported in favor of increasing the present police force, by the addition of 30 men. The resolution, after some discussion, was lost.

The Board, after the transaction of a little other unimportant business, adjourned.

Election in Jefferson City.—The following is the result of the election for municipal officers in the city of Jefferson, held on Monday:

F. J. Leiser, Mayor by 165 votes majority; F. N. Keller, Comptroller, by 153 votes; J. Fleury, Commissary; E. R. Chevalley, Treasurer; and Lafayette Robertson, for Harbor Master, are elected by a very good majority over the Sag Nichts.

Aldermen—First Ward—J. G. McLeran and E. White.

Second Ward—W. H. Zimmerman and F. W. Pellmer.

Third Ward—G. C. Lawrason and J. T. Michel.

Fourth Ward—D. R. Goodwin and Gauthreaux (Sag Nicht).

Fifth Ward—S. L. Hill.

All Americans, with the exception of J. Gauthreaux, (S. N.)

During the election, about 3 o'clock in the afternoon, a row occurred between a body of Americans and Germans at the Second Ward polls, in the course of which a German named Springer was shot in the back part of the head, receiving a very dangerous wound.

Supreme Court.—In the Supreme Court on Monday, the following decisions were rendered:

By Chief Justice Slidell—Manuel White, appellee, vs. R. A. & J. R. Wilkinson. Appeal from the Second District Court of Plaquemines. Judgment affirmed, with costs.

Manuel White, appellee, vs. R. Wilkinson. Appeal from the Second District Court of Plaquemines. Judgment affirmed, with costs.

By Justice Buchanan—Jacob Burget, appellee, vs. Jeremiah Manton. Appeal from the Sixth District Court of New Orleans.—Judgment for defendant, with costs.

By Justice Slaughter—Matthew H. Finley & Co., appellees, vs. their creditors. Roderick McKenzie opponent and appellant. Appeal from the Fifth District Court of New Orleans. Judgment affirmed, with costs.

Matthews, Finley & Co., appellees, vs. their creditors. Terry & Simpson opponents and appellants. Appeal from the Fifth District Court of New Orleans. Judgment affirmed, with costs.

First District Court.—In this Court yesterday, James Hamilton, Daniel Wilson, George Waters, G. W. Seymour, Thos. Dawson and George Barton, charged with having murdered policeman John Dunn, in Phillips street, on the 24th inst., were brought up for trial. Owing to the non-appearance of the counsel of Wilson and Watson, Hon. Reverdy Johnson, Esq., they asked the Court to defend them. Messrs. J. P. Field and J. N. Fresor appeared for the defense of the others. The District Attorney then read the several counts in the indictment, requesting that Cochran and Wilson should be first tried, which Mr. Woodbridge opposed in a strong and eloquent speech in favor of the rights of the prisoners, claiming the severance, owing to the great difficulty of getting witnesses, should the trial of all the accused be proceeded with at once. The trial was postponed, witnesses for the State who had been present in the morning, were found to be absent, for whom attachments were ordered to issue, which, the Court adjourned to this morning, at 10 o'clock, the Court having decided previously to allow the jury to separate for the night. To-day, there was a large crowd of persons in attendance, who seemed to manifest the greatest interest in the proceedings. Large crowds were also expected to be carrying from twenty to twenty-five grays of age.

Arrest of a Mail Agent.—Mr. D. P. Blair, of Washington City, mail agent, was arrested by the U. S. Marshal, by virtue of a warrant issued on the affidavit of J. J. McCormack, Esq., charging him with the embezzlement of letters from the Post Office, contrary to the laws of the United States. The complaint is based on the recent charge of Judge Judge that mail agents who were guilty of opening private correspondence, after it had been entrusted to their care, should be hung. It is not known what the motive, subjected themselves to the penalty of the law. Mr. Blair gave $1,000 bail for his appearance before the Circuit Court, and his friends say he has been made the victim of a conspiracy, which has been against Mr. Geo. Whitman, another mail agent; but as he is over the lake, he has not yet been arrested.

Boxing Fockers.—John Masterson yesterday made an affidavit before the Acting Recorder of the Second District, in which he states that, while passing through Bienville street, in his sed-room at the Pavilion Coffee House, on Levee street, the apartment was entered by Wm. O'Neil, accompanied by two others, who, he believes, to do him some bodily injury; but he, having the approach, hid himself, for he was afraid. O'Neil, finding the object of his search, however, found the pantaloons of the affiant, and being willing (as most men are) to forget his hate for pecuniary considerations, commenced to rifle the pockets of the fugitive, which contained some three dollars, which being done, he, with his allies, withdrew. A warrant was issued for the arrest of O'Neil, who will find that in the long run such a business is not a paying one.

The Cyprians.—Quite a large haul of the most disreputable of the "fair sex," women who inhabit Perdido and Girod streets, was made by the police on Monday night, and many of them were yesterday sent to the Workhouse by Recorder Bright. The remainder were discharged on making promises of better behavior. By the way, the recent foray of the police of the Fifth District will find that in the long run such a business is not a paying one.

The Cyprians.—Quite a large haul of the most disreputable of the "fair sex," women who inhabit Perdido and Girod streets, was made by the police on Monday night, and many of them were yesterday sent to the Workhouse by Recorder Bright. The remainder were discharged on making promises of better behavior. By the way, the recent foray of the police of the Fifth District will find that in the long run such a business is not a paying one.

Committed.—Mary Burns, alias Marro, was yesterday sent before the First District Court on a charge of having stolen a quantity of clothing from Mr. Parker. Bail, $500.

Drowned.—A stevedore, named Richard McGuire, fell from the wharf at the foot of St. Peter street on Saturday evening, while intoxicated, and was drowned. His body was recovered yesterday and on inquest by Coroner Orr, a verdict of "accidental drowning" given. The deceased has left a wife and two children, the latter in Dublin. He was a native of Ireland, and was 30 years of age, and a stevedore.

Highway Robbery.—Catherine Sanders yesterday appeared before Assistant Recorder Fehrle, and stated that on Saturday evening, about 11 o'clock, she was there met by a man whom some days after she knew, who forcibly took away from her a gold watch and chain, and $3 in money. The accused is in the custody of the police for the theft, charged with the public trust. The resolutions

Fire.—An alarm of fire at an early hour yesterday morning was caused by the burning of a dwelling-house at Algiers. The building was an old one story tenement of little value.

Sad Accident.—Mr. François Maurice, who was very seriously injured on Saturday last, by a piece of something which accidentally fell on his body, while he was engaged in working as a carpenter in a house on Chartres street, has since died of his injuries. His levels were repaired by the piece of something, which struck him in the abdomen. Mr. Maurice was a worthy citizen, and the father of a large family. He was the brother of Lieut. Maurice, of the Third District police.

☞ The attention of purchasers is called to the Sale at Auction, This Day, at 10 o'clock, by R. B. Sykes, at No. 31 Front street, between Gravier and Poydras street, of a large assortment of Groceries, Wines, Liquors, &c. Sale positive.

☞ We are requested to call the attention of the Trade to the Liberal Credit Sale of Havana Cigars, at the store of Mr. Jos. Ulrich, at 8 o'clock, at Messrs. Labadie & Xiques, Importers.

☞ Cotton buyers' attention is called to Brophy & Fowler's regular entertainment for THIS DAY, at 2 o'clock, P. M.

JOY FOR THE INVALID.—We cog the following from the "Philadelphia Saturday Gazette," and recommend our readers to procure a supply, as any invalid should not delay purchasing:

"Dr. Scofland's German Bitters.—This celebrated medicine, prepared by Dr. C. M. Jackson, at the Imposing German Medicine Store, No. 180 Arch St., is now universally approved pulmic attraction, and the proprietor, who is a scientific physician, is selling immense quantities of it. The virtues of this remedy are so fully set forth in the extended notice of it, to be seen in our advertising columns, that there is hardly any room left for us to speak of it. This much we may add—Of the long train of physical ills to which humanity is heir, there is some source, more or less remote, from impurities of the blood. The Bitters are peculiarly adapted to purify the blood, and to remove all those disorders which never fail to accompany a disordered state of the liver. Headache, pilles, languor, fretfulness, a bilious tongue, a morbid breath, loss of appetite, a dull, heavy, lethargic state of existence, are its inseparable and life-wasting attendants. These diseases, which have baffled the skill of the ablest Doctors, have been radically cured by Hoofland's German Bitters. See advertisement.

CATHERWOOD'S

Celebrated GINGER Brandy.

This very superior liquor, combining all carminative, stimulating, and tonic qualities at the pure Havana Ginger, united with a very superior article of Brandy, and which has become a favorite beverage in all the cities where it is sold, as well as in the North and East, is now introduced into this market for the first time.

For sale, by the single bottle or gallon, and for sale by
