STATE PAPER. WEDNESDAY MORNING, MARCH 5, 1884.

JOURNAL OF THE SENATE.

THURSDAY, 20th, February 1834. The Senate met agreeably to adjournment. Members present: Messis, Chas, Derbigny, Presi dent, Beanvais, Burthe, Dupré, Hiriart, Labranche, Lacuste, Leblanc, Moure, Nicholas, Prudhomme, Saunders, Sipan, Tenney and Thomas, The President appointed Mesars, Nicholas, Saun

report on the Atchafalaya.

Mr. Brauvais, Chairman of the Committee to who

bad been referred the petitions from certain inhabitants of the city of Lafayette, presented the following report: Your Committee, to whom was referred the petition relative to the "Act to incorporate the city of Lafayette," have the honor to report-

proaching, and as the petitions referred to your Com-mittee are contradictory, as some for the repeal, others for the continuance of the said Act, your Committee is of opinion that it would be prudent to leave the matter in its present situation, without their consider ation, until the next session.

the latter resolution from the House, and it was read for the first time.

Mr. Nicholas, Chairman of the Committee appoin led to examine the affairs of the Union Bank, made

REPORT ON THE UNION BANK. The Joint Committee who were appointed to examine the affairs of the Union Bank, having performed

that duty, report-That of the various points to which their instruction directed their enquiries, attention was first turned to that which was first in order of time—the distribution of stock. On this the fullest information was furnish stock assigned each, as also, the reasons for the excission of such names as were not retained. After the most acrupulous examination of this branch of the subject, whatever difference of opinion there might be on minor Points, there seems no reason to believe that any o her course than the one pursued by the three Direct lieve that any ors, could have produced any change in the general result. Your Committee being instructed "should there appear any ground of complaint, or instance of injustice, to report the same;" deem it a duty to state that their emaxination has brought to light no case of the kind. It is believed that the paper herewith, marked A, will furnish the Legislature with all the details that can be required on this b anch of the enquiry From the general statement herewith, marked B, will be seen that on the 31-t January there were notes in circulation \$932,585. Specie 247,465 65. For eign notes 138,725. Deposites 829,331 50, of which 79,432 72 were on interest. Among the deposites that of the General Government form an item of 140,584 03. The Committee required into the cun ditions on which this portion of the deposites was ab ined, and are now b accompanying copy of the contract, marked D. A small amount of this deposite, said to be less valuable than at least one individual deposition of the Bank, is not, in itself calculated to produce any alsom or come quence either good or bad, in a large commercial commini y. Without entering into the enquiry, or presu ming to express an opinion as to the influence which the State Banks' becoming the depositories of the Federal Government, has had in producing the present general embarrasament; the facts submitted show that here at least, the legitimate influence would have been very small; it is but justice to the Union Bank, to state that the public deposite was offered to, not sought by the Directors. There will be found in the contract only two provisious likely to excite attention, it is the authority io require accurity, and to make an examin ation of the affairs of the Bank. No objection was made to the power to demand security, as it was not thought probable that a case would occur justifying

such a demand. The design being, doubless, to guard the Treasury against small Banks, not from a Bank of so large a capital, and that, should it be unde, it might always be avoided by giving up the deposites. of so large s As to the examination, the Directors saw nothing objectionable in its having no concealment, they lelt a proud assurt are that a scrutiny, ordered by such high authority, would result beneficially, in giving a wider at read to their credit, and a more enlarged circulation to their paper. From the general statement already referred to, marked B, it will be seen that \$3,154,155 41 are employed in discounting notes and bills.— \$3,217,877 19 in credit loans or warrants drawn by the stockholders. And \$11,600 on mortgage loans. To an enquiry of, why it was that so small an amount was applied to loans on mortgage, other than what grew necessarily out of the p ovisions of the Charter, the Committee were informed that the amount actually received by the Bank was \$6,047,000; it is 5,500,000 on the sale of bonds; 547,000 advanced on the unsold bonds, liable of consequence, to be at any moment re-claimed. From this amount there has been furnished the branches \$1,175,000, which, added to the amount drawn by stuckholders, and given on mortgage, as stated above, make an aggregate of \$4,394,447 19, which deducted from the amount received, including the advance, leaves \$1,652,523 for general banking purposes. Having a view to the general benefit re sulting from applying so much of the capital to afford-ing commercial facilities, as also the increased profits on the very handsome deposites obtained by this Bank, which probably could not be had without the aid these neans enable it to affired; it would seem that the amount so employed is, whilst it is not disproportionate to the wants and fair claimes of the merchants, highly promotive of the general interest of the Bank. The state neat monexed to the general statement, exhibits full Information as to the exchange operations, blowing that whilst they are large, profitable to the Bank, and useful to the community, it receives and requires no actual application of the capital. The number of persons receiving discounts was, on the 31st January, 600, at at that date the then Board had received \$181.446. who were, it is proper to state, among the larger and most valuable depositors of the Bank. The papers marked E and F furnish all the required information n relation to the branches. It is not fair to infer from

the first year's operation what may be the permanent profitableness of the branches, especially as the capital was furnished at various periods of the year, and for the most part after there is much demand for money

in the country. It is to be presumed, that infinite better profits will be made. An extension of loans on origage, scens to be desired by the Directors of the mother bank. Louns, in those branches, are restrict-

ed to \$5,000, without the previous consent of the modiscounted a tes as yet; the full amount of the capital beginning furnished the branches, in consequence of the bonds remaining angula. choing this report. The Committee can't but express the gratification felt in the performance of their day, not only from the frank manner in which every enquiry was answered, but from finding an institution by them. in which the State has so deep an interest, occupying
