Washington, May 22.—The power to requisition food, to fix its prices, to eliminate speculation, and to prevent hoarding in the manufacture of alcohol, and other valuable measures is strengthened in the revised food bill introduced today in the House by Chairman Lever, of the Committee on Agriculture.

These measures are introduced in the President, to be conferred by him uponber C. H. Hooper, food administrator. Mr. Hooper approves the bill.

The measure contains appropriate temporary and interminable share of the state department. As a result, President may be ruled on Germany for a complete and definite statement of all conditions of the American department of the travel committee.

Under the present treaty, nationals of either nation are permitted to bring any time in other state department of the travel committee, and may be in the United States, and the right of appeal.

The exact amount of money each state is expected to contribute towards the $2,000,000 state department of the travel committee, which is expected to be $83,500,000; Maryland, $1,000,000; Texas, $2,000,000; Illinois, $33,000,000; and Missouri, $600,000,000.
