CHARLESTON, Oct 22.

COTTON—We continue to have a steady demand for all descriptions. The inquiry is fully equal to the supply; of the sea, prices have not varied, except that fine qualities command a trifle higher; quotations rather more favorable than heretofore. The sales of the week have amounted to upwards of 1200—bales—1100 of the new and the balance of the old crop. Of the former, 118 bales at 19½, 23 at 19½, 22 at 19½, 132 at 19½, 681 at 20; of the latter from 13½ to 17, and a prime lot of 42 bales at 19½cts. In Long cottons, considerable has been done; of the old crop. At out 120 bales of Sea Islands, common quality, were disposed of at full prices—40 to 45 cents.

RICE—The enquiry for this article has been good.—Our quotations are fully maintained. Sales of the week amount to near 900 bbls., principally a good to prime article, at from $3 50 to $3 9 16; inferior qualities, from $3 to $3 47½.

FLOUR—Our supply of the last week has amounted to 10 bbls. Virginia, of the celebrated brand Gallego this quality always commands higher price than the usual quotations for any other article—our market, with the exception of the little what remains unsold at the above quantity is quite bare, and further arrivals no doubt will bring our quotations.

GROCERIES—Our country trade has not yet fairly commenced—the transportation into the interior being still much obstructed. Of Sugars there have been several sales, 48 hhds. Muscovados received via New Orleans and offered at auction, brought from 8½ to 9c; 40 hhds Porto Rico from stores at prices not transpired; 40 hhds Cuba Muscovados, a prime article, at 9 12. Of Coffee few sales. 30 bags Cuba fair from stores brought 13¼. Molasses retains its value quotations. There have been no receipts since our

FLOUR—An arrival from New Orleans brought us 10,000 wt Western; sales of 24,000 wt should have effected at 10c.

GRAIN—Is scarce, and we have advanced our quotations.

LIQUORS—All kind of domestics are very scarce; sales of New England Rum have been affected at our quotations—the same of Whiskey. In foreign Spirits very little doing, our quotations are however obtained from quotations from stores.

STOCKS—We have regulated the following Stocks in the Price Current according to sales at auction as after yesterday—Bank of Charleston, 60 shares @ 135; Farmers and Mechanics, 150 shares at 99½; Fire and Marine Insurance, 10 shares at 93; Union Insurance, 50 shares at 82, Rail Road, 40 shares at 114½; 10 shares at 115¼.

SAVANNAH, Oct 20.

On prime and square bales which has continued much sought after a small advance could be realized, while other sales were at our extreme former quotations. We end the week very quietly, the better qualities in round bales within easier reach than before. The sales of the week will amount to 1571 bales—the particulars of which are as follows, viz:—206 at 18, 157 at 18¼ 730 at 18¼, 18 5-16 165 at 18½; 205 at 18 1-2. In Sea Islands we hear of no transactions.

AMERICAN COTTON AND WOOLEN GOODS—The fall business for the West is now nearly over for the season. Prices continue without change and the stock of Domestic is light.

The week's sales amount to 320 bales of which 100 were good to choice Upland, at 20 a 21 1-2 cents; 76 bales good at 20; about 100 only fair to good, 19 a 20 cents; some Mississippi at 19 a 19 1-2. Some further shipments are going forward.

FLOUR—On Saturday last the Flour market became more active, and on Monday there was an animated demand for shipment and on speculation. On Tuesday prices advanced to $9,25, and subsequently to $9,50, at which price fair to good brands are held to day. The week's sales exceed 6000 bbls nearly all at $9 per bbl; one small lot was obtained at 12 1-2 cents less, and some scraped $8,62 1-2. A few hundred bbls good brands brought $9,25. THIRD MUNICIPALITY.

The friends of Martin Van Buren and Richard M. Johnson, residing in the 3d Municipality, are requested to attend a meeting at the house of PHILIP POWER, corner of Levee and Champs Elysees streets, on this evening, the 1st November, to adopt such measures as may conduce to an effectual support of their candidates.

At a meeting held on Monday evening, 31st October, of the democratic citizens of the 3d Municipality, at the house of Chas Diamond. Jeremiah Berry, Esq. was called to the chair as President; Chas Diamond, Esq. and Capt Gilbert Morris were appointed Vice Presidents; and N C Tobin and W R Pearson, Secretaries.

The Chairman having explained the object of the meeting, Messrs Thos Shidell, J J Mercier, Bernard Lafigny, and R M Carter delivered appropriate addresses.

Upon motion, a committee of five were named to draft resolutions. The chairman appointed Messrs Genois, E Sewell, James O'Rouke, Jno Kellar, and John Donovan, who retired and introduced the following:

Whereas, Martin Van Buren and Richard M Johnson, by their patriotic course in life, have always served their country in the ranks of democracy—and that the National Conventions assembled in Baltimore have nominated the first as a candidate for the Presidency of the United States, and the second for Vice President: and that the said nomination has met with the approbation of the people of Louisiana, in convention

Resolved, That we shall use all honorable means to secure the triumph of those candidates; conceiving that their election is essential to the peace, prosperity and happiness of our common country.

Resolved, That ward committees be named by the chairman of this meeting, and that we invoke every citizen placed upon said committee, to be zealous in the discharge of his duties as a citizen, a republican, and a democrat.

The chairman named the following as the ward committee, in accordance with the last resolution:

Charles Diamond,	Jeremiah Berry,
Jacob Keyser,	John Mitchell,
J H Genois,	P Summers,
E W Sewell,	B Goode,
Zenon Trudeau,	E McGinty
John Donovan,	Wm Brothers,
N C Tobin,	Chas Reary,
W R Pearson,	Chas Berry,
Joseph Genois,	William Hoskins,
James Flood,	Harvey Norton.

Upon motion, thanks were tendered to Chas Diamond for the use of his room.

Upon motion, ordered, that these proceedings be published in the democratic papers of this city.

On motion, the meeting adjourned.

J BERRY, President,
GILBERT MORRIS, CHAS DIAMOND, } Vice Presidents.
N C TOBIN, W R PEARSON, } Secretaries.

The following is from Poulson's Philadelphia Advertiser. We do not think it entitled to much credit, as the Washington papers are silent on the subject.—They would, most certainly, had any such occurrence taken place, have alluded to it.

"We understand that Mr GONDOVEVA, the Mexican Minister, arrived at the Mansion House yesterday, from Washington. We are extremely sorry to hear from a respectable source, that his negotiations with our government have terminated unsatisfactorily and that he is preparing to return home with his diplomatic family. This will be unwelcome news to the friends of peace, and to the commercial interests of the country."

FRANCISCO MORENO has been appointed Spanish Vice Consul at Pensacola, and has been officially recognized as such by the President of the U S.

The elections in Pennsylvania, as far as returns have been received, give 16 Van Buren men to Congress, and 9 Whigs. In the House of Assembly, there are 73 Van Buren, and 27 Whigs.

OHIO.—It is ascertained there is a majority elected to the legislature of this state favorable to democratic principles; and that the vote for governor will be very close. We are assured that the electoral vote will remain for Van Buren and Johnson, by men of information, and in whose statement we place implicit confidence.

Mr Ennis' paper, the *Rambler* has acquired a most distinction for the industry and talent displayed in its columns. We are happy to hear that the efforts of the editor are properly appreciated and rewarded by the community. Mr Ennis has alone been able to establish upon a firm basis, a literary journal: all the attempts which preceded his, have ended in loss and disappointment. For this alone, he deserves great approbation.

The Florence (Ala) Gazette has a most excellent article upon H L White and his inconsistencies. It is well worthy the perusal of all those who continue honestly to support him notwithstanding it is manifest that a candidature can have no other object than to defeat Harrison, who wishes to emancipate our slaves, and enslave our white men.

When the Judge was first brought out as a candidate, he still professed to be a Jackson man; his friends swore roundly that he was a Jackson man, good and true. "Now the matter has changed" indeed; and the question is who has *changed*, Gen'l Jackson or Judge White? Like all other apostates from their party, and especially who have deserted the administration of Gen Jackson, the Judge tells a Knoxville friends, that he has not changed, but that Gen. Jackson has proved recreant to all the principles upon which he came into office. This is just what Calhoun, Poindexter, Mangum, Moore, Duff Green, and all the renegades from the Jackson party have to say for themselves. They have not changed their former principles: Not they—but Gen. Jackson has. Let us see whether Judge White is the same consistent Jackson Republican, he once was.

1st. Judge White since his nomination voted against the three million appropriation for the defence of the country.

2nd. He made a speech in favor of, and voted for Calhoun's Executive Patronage Bill—a blow aimed at Gen. Jackson.

3rd. He voted against expunging Mr Clay's unconstitutional resolution of censure against the President.

4th. When a Jackson man, he voted for Mr Taney for Judge of the supreme Court: at the last session, he voted against Mr. Taney for Chief Justice of the Supreme Court.

5th. He voted against Mr Stephenson, as Minister to England, at the last session, when previous to that time he had been his advocate.

6th. He voted against Amos Kendall for Post Master General—on a former occasion he had voted for Amos for an important office.

7th. When Gen. Jackson vetoed Mr. Clay's Land Bill, Judge White sustained the veto. At the last session, he not only voted for the Bill, but made a speech in favor of it "Mark this my countrymen."

8th. He voted against the admission of Arkansas and Michigan into the Union—to keep them from voting for Mr Van Buren.

9th. During the last session, Mr. White voted against Mr. Walker's amendment, to reduce the price of public lands in favor of actual settlers, and to permit them to enter land in forty acre tracts. [Senate Journal, page 294.]

10th. He voted for Mr Van Buren as Secretary of State—as minister to England—and for Vice President of the United States—vent the whole figure—Baltimore Convention and all.

He is now afraid of the indignant ghosts of his revered parents, if he does not oppose Van Buren and his "caucus."

In the name of all the capabus, is there no change here—is this the same Hugh L White? But it is unnecessary to point out further instances of his apostacy. This very speech is conclusive proof of Judge White's hostility to Gen Jackson and to "the party." Who of the opposition have ever said or written more bitter things against Gen Jackson, than are set down in this speech? It charges him with an abandonement of former principles, and with getting up the Baltimore Convention to elect Mr V B his successor. It goes further, and charges that Gen Jackson's course leads to monarchy! Duff Green, himself, has never charged stronger: the only difference is that Duff scorns to use such insincere terms, as "our venerable friend," when he means to lampoon the President.

POST OFFICE REFORM.—Mr. Kendall has published in the *Globe* certain regulations for the Post office Department intended to obviate the failures in the mails. The following is an abstract of them:

That no notice be hereafter given to contractors of failures to arrive at any post office in contract-time, as reported by postmasters to the Department; and if no excuse be received from them within a reasonable time, the Third Assistant is directed to present the cases thus reported, to the Postmaster General for fine.

Ordered, That a specific sum be required for each specific delinquency of any contractor, and that general allegations be not admitted. If bad roads be alledged a specific report must be made of what portion of the road was so bad as to obstruct the mails, and what was its peculiar condition; if high waters, it must be shown what water courses were impassible; and so of all other excuses.

Regulations for a system of letter carriers in the cities of the United States, under the 41st section of the "Act to change the organization of the Post Office Department, &c. approved 2d July, 1836.

1. When it shall be deemed proper for the accommodation of the public in any city, that a system of letter carriers shall be established, it shall be the duty of the Postmaster General to cause the same to be established, and to appoint such number of carriers as he may think proper, and assistants to the Postmaster General to deliver them.

2. The postmaster of the city that the carrier appointed by the Postmaster General executive board, with equal security, accepting the duty; and will forward them, when executed, to the Department.

The last Richmond Enquirer gives us the following agreeable intelligence from the Old Dominion:

VIRGINIA.

"Old Virginia never tire," in the republican cause. Our newspapers from the neighboring as well as distant counties are thus cheering. We hear from the Northern Neck, that the people are rejecting the unexampled half White, half Harrison, half home, half stigmatic, ticket, with disdain. They wish to have some say and part in the election of their Chief Magistrate—and have the idea of transferring their own rights of suffrage, with their legal bundle bound up in a parcel of glasses—who their slaves avowed their selection, and will use them as he ultimately governed by avowed enemies, their own interests perhaps, or the intrigues of their managers.

Such things as the following reach us from all quarters—(except from such federal counties as Loudoun, Augusta, Ohio, &c.)

Extract of a letter from Monongalia county—"We will carry the Van Buren ticket in triumph in all the counties here, but Ohio—Marshall by one hundred voice majority."

NEW ORLEANS AND SAVANNAH PACKET LINE.

The Savannah Georgian, of 23d inst. says—"Our readers will observe an advertisement in our columns by which it appears that a line has been established between this port and New Orleans, by Messrs Cohen & Miller, merchants of this city, to be composed of vessels of the first class, and commanded by experienced masters in the trade. The brig *Kentucky*, Capt Faine; the schr *Thetis*, Capt Pitcher, with another brig, will constitute the line. These vessels have good accommodations for passengers; and he commands all public patronage, by every facility in order to forward their merchandize to or from this port. We are gratified to perceive that our enterprising merchants are alive to the importance of a regular communication between two cities, whose commercial operations demand a closer affinity than transient vessels afford. We wish Messrs Cohen & Miller complete success.

Filling in of the shore of Lake Erie—The bank of the lake, as we learn to the Cleveland Gazette, continues to fall off in large masses, so as to endanger private dwellings. Much of the beautiful plain in the immediate vicinity of that town has been thus destroyed, and the loss has been great to the proprietors.

A late English paper states that a certain Lorenzo Giordano, of Finmare, has found the means of remaining for six hours at a time in the deepest places at the bottom of the sea, with the power of walking at the rate of a mile an hour. For this secret he asks the sole right during this for two years, and the half of what he finds in his submarine peregrinations.

Advices from Manilla to the 9th March state, that 50,000 piculs of the sugar crop had been contracted for on American account. The last price paid was $5,75 the picul, but $5 87 1-2 was afterwards refused. Exchange 4s 8d the dollar, 6 mo, at, and likely to rise, as bills were difficult to negociate.

CHARLESTON, Oct. 21.

THE RAIL ROAD.—The subscriptions go on prosperously. The books of the Commissioners exhibited at 2 o'clock an aggregate of 8540 shares subscribed up to that time. The subscription lists in the hands of the different committees will present an equally flattering result. Let each and all come forward, in proportion to his or their means however small. The impulse has been given—a proper spirit has been aroused, and Charleston we hope and trust, will exhibit the proud attitude of having subscribed one half the amount necessary to secure the Charter, to wit: two millions of dollars.

The New Jersey State Gazette, of the 18th ult., states that the Presidential electors will not be chosen by the Legislature, as was anticipated, but that an early day will be fixed by that body for an election by the people.

NORFOLK, Oct. 17.

The brig Carroll, capt. Mitchell, sailed yesterday morning for New Orleans, having on board 100 passengers, who are bound to Texas.

MILLEDGEVILLE, Oct. 25, 1836.

DECISIVE UNION VICTORY.—The eight Union candidates for congress, all friendly to the election of VAN BUREN, have been elected. The Union party has also a large majority in each branch of the State legislature, supporters of Van Buren.

An English paper says:—"The Americans have been turning their attention to the Black Sea, at last, and there are now on their way from Odessa to the United States four large cargoes of Rye. If fast operations be at all supported, the speculation will leave an enormous profit."

CHARLESTON, Oct. 21st.

Extract of a letter received in this city, dated

"RICE HOPE, (N Santee,) Oct. 9.

"Since I have been here I have seen much misery, and much of human suffering. The loss of property has been immense, not only on Santee river, but also on this river. Mr Schoolbred and others according to the statements of the physicians, will escape—the majority of the negroes hands are dead—Brickyard, Cordesville, Blackmarsh and Cooners. Mr. Wm Mazyck has lost 35 negroes Col. Thomas Pinckney, in the neighborhood of 19, and many other Planters, 10 to 20 on each plantation. Mrs Elias Horry will, among the planters, be the heaviest sufferer, as to date, 39 negroes—the best part of her primest negroes, on that plantation.

SOUTH AMERICA.

Extract of a letter from Bogota, dated

JULY 5, 1836.

By reference to a map of Columbia, you will perceive a town called *Chagres* at the mouth of a river of the same name emptying into the Atlantic thirteen degrees north of the line. [illegible] about three degrees north from that [illegible] Panama [illegible] Chagres [illegible] is 13 miles. The [illegible] the river [illegible] current does not exceed [illegible] could be ascended in five hours. [illegible] to Panama is fifteen miles, a mostly level road. [illegible] from Philadelphia to Norristown—[illegible] CAN BE EFFECTED A SAFE CONVEYANCE FROM THE ATLANTIC TO THE PACIFIC OCEAN IN SIX HOURS—[illegible] at New Orleans [illegible] 45 yrs to Panama [illegible] Boldie, besides [illegible]

[illegible] Sandwich Islands [illegible] stock of [illegible] around the Cape. [illegible] The provisions [illegible] national [illegible] the Executive [illegible] communicated to our Pacific squadron in twenty days from Washington city.

You will perceive that we have [illegible] with the government for Free Ports on the Atlantic and Pacific, which will eventually prevent those heavy losses which have frequently been sustained by cargoes arriving unseasonably at ports where high duties are exacted.

The Western States of our Union have heretofore derived but trifling advantage from the markets of the Pacific, because their beef, pork and flour could not encounter a voyage around Cape Horn, whereas they will now be able to find a market at Panama in 16 days from New Orleans.

The mahogany, dye stuffs, fruits and minerals which abound in this country, have been almost entirely excluded from the United States, in consequence of the delay and expense of transportation; but all difficulties will now be removed, and a profitable trade between the two countries will be the inevitable result.

The excessive importations into the United States from England and France, and the heavy stocks of goods accumulated in the hands of our merchants, may be sent through the Free Ports of the Isthmus upon better terms than they could direct from Europe around Cape Horn.

Of a Semi-monthly Price Current to be entitled,

Walker's Commercial List AND PRICES-CURRENT.

The undersigned has, convinced from the experience which he has had in attending to the commercial departments of various papers in this city, that this matter is extremely fluctuating, and more particularly, from a number of the leading articles or Western produce.

There is perhaps no place in which prices vary so frequently and so frequently as in this. Impressed with that opinion, and yielding to the solicitations of numerous friends, he intends commencing a publication of this description, to appear on or about the first of December next, and invites a share of that patronage which the commercial community never refuse to just claims.

Previous to the publication of the contemplated Price Current, a letter sheet will be printed at the office of the Bee, to commence on Saturday the 29th inst. and continued weekly until full preparations are made.

The Commercial List and Price Current will contain the current wholesale prices of all leading articles, the receipts and exports of cotton, and tobacco, the arrivals and clearances of vessels, and such other matter as may be thought best suited to the mercantile community.

There will likewise be a letter sheet published, to appear simultaneously with the price current. It is not intended to promise too much but every thing that a faithful and persevering zeal can accomplish, will be done. The regular publication to the patronage of merchants is guaranteed.

Days of publication, *Wednesdays* and *Saturdays*.

JOHN C WALKER.
