Category:NASA

Wikimedia Commons est disponible en français.

Category "NASA" cross-links many subcategories, where images are moved:

- Each NASA center: such as Category:Johnson Space Center.
- Each Shuttle: such as Category:Space Shuttle Atlantis (Endeavour, Columbia, Pathfinder, etc.)
- Move US astronauts to: Category:Astronauts from the United States or Category:STS crews, or see general Category:Astronauts (several astronauts have their own name sub-categories).
- Also note: Category:Logos of NASA or Category:NASA document collections.
- For an outline of subcategories, see: "Commons:Category scheme space exploration".

Thousands of those images all cross-link to Category:PD NASA.

#### ESA Copyright Notice

The ESA Portal Multimedia Gallery contains images and videos used throughout the ESA Portal. The images are offered in the Gallery in the highest resolution available.

Most images have been released publicly from ESA. You may use ESA images or videos for educational or informational purposes. The publicly released ESA images may be reproduced without fee, on the following conditions:

- Credit ESA as the source of the images:

Examples: Photo: ESA; Photo: ESA/Cluster; Image: ESA/NASA - SOHO/LASCO

- ESA images may not be used to state or imply the endorsement by ESA or any ESA employee of a commercial product, process or service, or used in any other manner that might mislead.
- If an image includes an identifiable person, using that image for commercial purposes may infringe that person's right of privacy, and separate permission should be obtained from the individual.

If these images are to be used in advertising or any commercial promotion, layout and copy must be submitted to ESA beforehand for approval to: ESA Multimedia [multimedia@esa.int](mailto:multimedia@esa.int)

Some images contained in this Gallery have come from other sources, and this is indicated in the Copyright notice. For re-use of non-ESA images contact the designated authority.

**WARNING:** images created by ESA are **not automatically in the public domain!** Most ESA images are free only for educational and non-commercial use, and may not be modified. They are thus **not free enough** for Commons. The ESA should be uploaded to Commons **only if they are explicitly marked as PD** (or released under a free license) by ESA.
