INFIRMARY .- Dr. HAMMOND respectfully informs the public, that having been advised by some of the most celebrated of the Medical faculty of this city, to open a private, institution for the reception of Jusane Patientst at some elegible spot on this island, has selected that well known, high, airy and universally healthy spot. the Hamilton Spring Place.-It is delightfully situated on the cast bank of the Hudson River, eight miles from the city, on the Bloomingdale road-commanding a fine view of the North River, sloops, steamboats, &c. as they pass and repass. There patients are furnished with every kind of exercise and amusement such as riding, hunting, fishing, sailing, gardening, warm, cold, shower, fresh and salt water bothing. In consequence of opening this institution, Dr. H. has discontinued his old establishment in Massachusetts; consequently his whole attention is now paid to this. In this In-Native and Foreign Plants, and a vocabulary of firmary, (which is entirely seperate from the Insane Hospital.) the following putients are received, viz: those that are laboring under chronic, nervous or cachectic diseases, males or females of intemperate habits, such as are ummanageable by parents or guardians; for patients of the latter description who have neglected their education, a private instructor is provided. Dr. H. is happy to state, from the success he has met with, (both in his old establishment and this) in restoring to health and reason patients of the above descriptions, he is induced to believe that patients are restored in much less time and in a greater degree, in this than in public Assylums, being well aware that the public have certain prejudices against both public and private hospitals, such as the progrators or bespers of them being harsh, overbearing, tyranical, and in some instances, oruel to their patients. In order to do away such feelings, so har as respects himself he bega leave to refer those. whom it may con cern, to the Rev. Samuel Essiman, No. 229, Bowery, Valentine Mott, M. D. professor of surgery in Ruigers' Medical College, Park Place;
