COMMERCIAL.

REMARKS.

Business remains without change, it is still as can be sales of all articles are in small quantities principally to city consumption, and with the exception of cotton and tobacco are likely will frequently submit in lower it may not be considered general, for cause form it on our quotations, but for a large might submit to a reduction; at the time there is no large demand for any article. remains healthy notwithstanding the extreme weather; the thermometer has ranged about the week past 94 to 96 degrees at and we have had 2.50 more to refresh us as we are for some weeks more.

Since our last weekly report advices have been received from Liverpool to the 16th ult., which show a decline of 1-8 to 1-4d per lb on middling, and lower on American cotton—the accounts of the like decline, therefore we conclude that received from the last to the 16th June left to from those descriptions. The fine qualities of the former prices.

The latest accounts from Havre former prices sustained.

Sales of the week ending 15th of June were and the market is pronounced dull; those small compared with those of some weeks we find that for seven weeks the sales 268,700 bales and to the 20th 310,000, weekly 39,000 bales, which made an increase of 70,000. The excess of 169,219 bales over the same period last receipts from the 1st Jan'y were 738,000 estimated at 975,000, which varies from the same period last season.

Advices from foreign markets for tobacco are favorable, stocks small, and prices looking up.

We have no quotations to report the same as last week, it is scarce, but there is little demand—for rate we refer to table.

Rice rules remain without change, with the exception of Mississippi, of which are better, others worse, unchanged.

Exchange.—We quote on London 11¼ a 12¼ th, banks charge 13 per cent premium on France 105 a 107½ per cent. New York 60 days 4 a 5, sight 6 a 6½ premium.

Cotton.—The transactions of the week amount to about 3000 bales, which is very large, considering the quantity for sale, which is not now estimated over 2,000 bales, in most of the receivers are shipping on owners account. The prices are said to be from ½ to ¾ cent lower last week, but we do not change our quotations. There is very little Louisiana or Mobile cotton in market, what is on sale consists principally of North Alabama and Tennessee.

The receipts are 781,220 bale against 570,764 to the same period last season, making an excess of 210,447 bales. This exports are as follows—viz:

	BALES.
Excess to British ports,	183,411

Tobacco.—The sales of the week amount to about 500 hhds, which remain the same as last week. We hear of no sale of manufactured, but at par. Seconds are scarce, others at our general quotations.—Some parcels of inferior crossed have sold at 3¾ a 4 cts.

The exports are 30,329 hhds against 28,593 to same period last season, making an excess of 617 hhds, which is distributed thus:

The stock now on hand and on shipboard not cleared is about 9,000 hhds.

Beef.—There is very little more to come in, the market is considered bare, and such as is coming in is second hands, and our quotations fully sustained.

Flour.—There is very little on plantations sales at our quotations, but holders are firm at

Corn.—We advance our quotations to 86 50 a 87 50 a bushel, however are small, and we think cannot be obtained at 6 85 by taking a quantity.

Oats.—We find no change in prices with the exception of which we advance to 11 a 38 cts, selling 19½ for a superior article.

Rice.—Is scarce, but characterize at 7 a 7½ cts per lb the end of was at 7 and there is more now first hands.

Hay.—has been no receipts since our last, and no sale for some weeks, there is nothing to quote.

Whiskey.—We find no change in rates since last week, there are no sales to be had. FOREIGN MARKETS

LIVERPOOL, 7th June, 1838

Our Cotton market has been dull since our last, and middling qualities have declined ¼-32d a 1-4 per lb. The better qualities are also saleable and rather lower, except really fine Cotton which being relatively scarce maintains its value. The dullness and depression here have had an unfavorable influence on business at Manchester, and the whole is attributed mainly to the recent accounts from the United States, showing that the supply from the late crop will be larger than had before been anticipated. It had put a stop to purchases on speculation, and the desire and consumer, having for some time past taken a liberal supply, are now supposed nearly supplied. The sales for the week ending 8th inst were 29,320 bales, and this week they amount to 31,136 bales—in the latter 4000 are Upland 5 5-8a 5 11-16—and 3,300 Orleans at 5 1-2 to 5 3-4, with 6 bales at 9 a 9 1-2—2900 Alabama and Mobile at 5 5-8 a 7 1-8, with 25 bales at 9d, and 500 Sea Islands at 15 to 33 pence.

Friday Evening.—When we wrote our cotton circular of the 8th inst, there were many causes operating on our cotton market, but they were thought to be only temporary, and the natural effect of the extraordinary activity which had for several weeks been displayed. In the course of the seven preceding weeks, the sales amounted to 268,700 bags, and to include 210,000 bags, averaging 30,000 bags weekly, probably increasing the stock to 700,000. Being the former part of the year, their purchases but little calculated for their consumption, so that their actual presence is barely equivalent to four weeks' consumption. The advices of heavy supplies coming from the United States since October, from the interior of the different ports of the United States, are also adverse to an accounting for the falling off which has taken place in the import from the the United States has exceeded that of the corresponding period of last year 169,919 bags, and should the excess at the close of the year be not materially beyond that, the increased consumption, it is expected, will prevent any great accumulation of prices. Some few parcels of the sales have not been heavy, and no concessions made to effect any reduction in our quotations, except the lower qualities of short stapled American descriptions, which have receded 1d per lb. The sales to speculators amount to 2,800 bales American, 300 Surat, and to exporters of 400 American, and 700 Surat. Orleans continues to go off more largely than Upland or Alabama. From the 9th to the 15th inst. inclusive, the sales altogether are computed at 31,100 bags, viz 500 Sea Island at 15d to 33 3d; 110 Stretched do 7¼ a 15d; 4300 Upland, at 5d to 6d; 3290 Alabama and Mobile, at 5½d to 7d; and 2d at 9d; 300 Pernambuco, at 7¾ to 9d; 600 Bahia, at 6d to 8d; 300 Maranham, at 7¾ to 9d; 600 Demarara, at 9½d; 440 Laguira, at 7d to 8 1-2; 500 Egyptian, at 8d to 13d; 50 Peruvian at 13d; 140 Manilas at 4½ to 5½d; 2140 Surat at 3¾ to 4¼d.

The imports in the same time amounted to 373,680 bags. A year ago it amounted to 571,760 bags.
