THE UNION-IT MUST BE PRESERVED." SATURDAY MORNING, JUNE 21, 1834.

We are authorized to announce JAMES BRADFORD, o Feliciana, as a candidate for Congress for the Second Dis

There was a total eclipse of the moon this morning. It commenced at 2 o'clock A.M. and ended at daylight. It is

presumed that it was visible throughout the United States. We have seen a letter from our fellow townsman, John R Grimes, Eag. announcing that he will be in the city in the course of a few days. We are gratified to learn that he has, at the argent solication of his friends, consented to become a

candidate for the House of Representatives of the State Le-We feel confident that his old constituents will receive intelligence with similar feelings to our own, and hasten to inward his zeal in their service by a continuance of their

tie, commenting with proper severity upon some disorders that are said to exist there. As we cannot be supposed to of the ne of our merchants and the Board of Directors of · cognisant of those matters, we must decline publishing the article unless the author gives us his induced a govern-other contailments will be made than the condition of the recefor the trath of his statement. Wan this restriction, we shall cheerfully comply with this restriction, we shall cheerfully comply with his request.

One million of dullars have arrived in New York from i ! where England, shipped by Rothehild, the banker, to merchanet in that city. What say the panic makers to ties Doginsy sun nout out the impracticability of the experi-

The Laussiann attempts to show that a State officer has a right to meddie in elections, while it denies the same right to a United State officers. As we have before said, we In see no difference. If one is reprehensible, the other b equally so, and any teasoning tending to maintain the contrary, can only be regarded as deceptive, and illusory. But we know the motive that prompts the Louisiana to the task. It withes to screen Judge \*\*\*\* and others holding commis-1 1 ider the State, from the obloquy that would follow "... it is a ser interference in a contest from which they ex poet to ve a personal advantage. It will not do, for

The its mount many have both come to hand they uncommonly barran of intelligence. Our Washington papers are to the 7th inst. We find not a word worth transferring to our columns.

Nat a bad Prophet. - In 1311, Peter B. Porter held the following prophetic language in an able speech delivered in Congress against the charter of the present Bank: "Let the principle of constructive or implied powers be once estabtished, in the extent to which it must be carried, in order to pass this bill, (bank bill,) and you will have planted in the secon of the Constitution, a viper, which one day or other, will sting the liberty of this country to the heart."

The real objections of the Wittle party to Judge Dawson, are not these which they daily rentrate to the community of they well know that the principal objections which they are rather contradictory than otherwise. The truth is, they have Judge Dawson because he is the fire ad of Gen Jackson, and him they ablor and deleas which they have so far urged, are rather contradictory than otherwise. have so far urged, are rather contradictory than otherwise. The truth is, they hate Judge Dawson because he is the front of Gen. Jackson, and him they abhor and detest with the ter, invincible, and immigrable harred; and, who is there that has traced the wretched machinations of the opposition from the first flour that Gen. Jackson was proposed as a candidate for the Presidency—from the charge of his being a Recipier, an Irishman, obson of Irish paretts: up to the coffin handbills, a regular gradation of obloquy, insult, and slander, each rising above the other in intensity and malgnity—who I say, that has witnessed all this; can for an instant to the finance of the proposition of the pro

body will make that such disposition of the matter as will specify an elicital entire and rebuke emphatically the insolute suited partials and rebuke emphatically the insolute suite partials and insult upon them.—N. Y. Times. A TRIVETH IN SURGERY.

A.TELUMPH IN SURGERY.

"Ad straining Mothes, extreme remedia."

The writer of the paragraph witnessed on Saturday morning ope of the most appelling and painful operations ever performed upon any living human being, and while it reflects credit upon the surgeon, and does honor to the country, it serves as a convincing proof to saffering humanity, that while there is life there is hope, and that uone need despair even in the most aggravated forms of disease. The operation above referred to was performed by Dr.Mott with his usual skill and intrepidity. The subject of it was a young unan about 25 years of age, who had been for a long time afflicted with stone, and which had increased with unprecedented rapidity, until it had attained a size so great as to occupy the whole of the blader in its distended state; yet wonderful to relate, the huge fields was entirely and successfully, removed. Several attempts were made by the surgeon, both to crush it and drill it into pieces, in order that it might be taken away with greater facility, as well as with more safety to the individual, but these efforts were all abortive—leaving no alternative but that of enlarging the wound, and removrefit spon the surgeon, and does honor to the country, a grees as a convincing proof to suffering humanity, that while there is life there is hope, and that unon need despatient in the most aggravated forms of disease. The operation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation above referred to was performed by Dr Mott with his insulation and respect to the insulation of the subject of the was a great as to occupy the whole of the blastiar in its distended state; yet wonderful to relate, the huge makes was onlively and successfully removed. Several attempts were made by the surgeon, both to crush it and drill it into pieces, in order that it might be taken away with greater facility, as well as with more safety to the individual, but these efforts were all abortive—leaving no alternative but that of enlarging the wound, and removing it ostire.

Since the operation, the nation has been doing well, and bills fair to receiver. The stone was ascertained, inmediately after, to weigh 17 or 3 dwits avoirdupois, which is nearly doughted the perfect of the state and pass the bony stricture in the gripe of the forceps, which is inentioned for the purpose of conveying, if possible, to the mind of the reader, an idea of the great difficulty and danger necessarily attending so important an operation.

The Poles—The meeting held on Thursday evening, in the Representatives' Hall of the Capitol, in behalf of the unformal properties of the least 8 days assessment to about 8000 bales—stocks still continue light.

The Poles—The meeting held on Thursday evening, in the Representatives' Hail of the Capitol, in behalf of the unfortunate expatriated Poles, was very fully and respectably attended. We observed that a number of Senators and members of the House of Reprenentatives were present. The meeting was opened by an address to the throne of Grace in behalf of Poland and her banished sons, two of whom were found to the condition of the doing. behalf of Poinnd and her banished sons, two of whom were present. A short statement of the present condition of the 243 Poles, thrust into New York by Anstrian frigates, was followed by a most fervent and elequent appeal of the Hon-Theodore Frolinghuysen, of New Jersey, who well merits the appeliation of the Christian Orator. Several other gentlemen followed, and at the close of the meeting, a number of members of Congress and other gentlemen, and ladics, gave substantial proofs of their interest, which the Rev. Mr. The lady the control of the provided of the lady of members of Congress and other gentiemen, and sades, gave substantial proofs of their interest, which the Rev. Mr. Richmond, through us, gratefully acknowledges.—The lady who contributed her mite, as she hastly passed, is not forgotten. A subscribtion paper, in the name of all the 150 Poles that still remain destitute, and suffering, we understand even for clothing and food, in New York, lies upon the table of the Congress Library.—Nat. Intel.

A PLAIN QUESTION .- We would ask the honorab members of Congress who compose the minority of the non it if the House had no right to make the investige tion they ordered, and the Committee undertook. Neith-of these gentlemen voted in favor of the resolution to ap point this committee, and surely if it was improper they ought to have declined acting. Their suffering themselves to be placed upon it was an acknowledgment of its validity and correctness. How then can they deny in Charleston, June 21.

A Mystery.—Much excitement existed at New York on Thursday last, in consequence of the arrival of the British cutter Post Boy, from Falmouth. (Eng.) when she railed on the 5th May, in ballast, bringing but one letter; addressed to a mercantile house in that eny. Many speculations was the state of the results but the following their report the right of the House to invarigate such pre-bendings. "Answer that, Hal?" It is very, however, to explain their Tourie. When they undertook to act, they had not been taught that the Bank considered the investi-gation unpleasant. Our lesson on this point may have been taught them after their arrival in Philadelphia.—N. ess speculations to our readers:
"The Mystery Solved.—The article under our Posteript Y Times.

"It is stated, upon good authority, that the publication nney's speech alone, will cost the Bank fifty thousand They were distributed by members o' Congress and the wrapping paper used, is estimated to have cost the United States four hundred dollars."

This statement falls short of the truth. We understand

that the wrapping paper of Congress, used up in sending of this speech, (published at the expense of the nation, as a stockholder in the Bank, and the other stockholdes,) wil cost, of itself, \$600. The use which the Bank has mide of the Post Office, in sending off its publication-under the abuse of the franking privilege, would, it honestin the money market, and the market rate of interest has improved about one per cent. The hanks have taken about all the paper falling within sixty days, at six per cent; but when good notes go into the brokers' hands, the rate has recently been S a 9 per annum, and within a few y paid for, amount to an im of speeches, in pamphlet of 35 pages, \$50,600. Clobe,

The opposition profess the nselves pleased with the electron of Mr. Bell to the Spakership. Before the electron, the New York American denounced him as a collar inderstanding that the Branch Bink here had received orders to call in its balances from the local Banks in spelow, of course, the tone will be changed to suit circum stances, and a little flattery, not very elegantly or delicate-ly given, will be administered to Mr. Bell, by way of as certaining how far the gentleman is practicable. Mr. Stevenson was tried with the favorable compromise of a lawsuit, but without effect and Mr. Bell is to be tempted with the soft and tender blandishments of the Pennsylva-nia lawsuiter and the suminary the National Garacte. They mis Inquirer, and its initiator, the National Gazette. They mistake their man. Mr. Bell is a warm friend of the administration, a steady and determined apponent of the Bank, and a politician to be gained neither by threats nor From the W.Y. Star.

NEW YORK RACES.

The Rices—North against Soufa.—I have not been to a herse moderned the great contest between Eclipse and thenry to which the fate of nations seemed to depend by the national interest created, and don't attend such sports times southful greentry attractive is in the wind. But herizing a returned but of North against Sunth—enconnecing ribust of strange faces in Broadway, and a number of tall, good looking, middle aged men, with drait hats, both boat brons, and top boats, looking very much like the idhabitants south of Mason and Dixon's line; I flatteries .- Pennsylvanian.

CAPILLARY ATTRACTION.—So early as before the time of Account, Capillary Attraction was a kind of riddle to Philosophers; who, in the spirit of that age, ascribed it to integral Atmospheric Pressure. Newton himself placed the phenomenon among those of Attraction; making this defenouse on among those of Attraction; making this defenouse had been astronomical and Capillary Attraction. The considered as null, in the property of the time of the pressure of the phenomenon among those of Attraction; making this defendance of the pressure of th drait hats, broad brons, and top boots, leoking very much distinction between Astronomical and Capillary Attracting the shabitants south of Mason and Dixon's line; I too-that whilst the one followed the law of the Squares, apprehead, as they py north, that something of great consequence was under consideration. So hitching the little still more rapid ratio. Hawkshee, Dr. Jurn, Veitbrecht mare to the green wagon, I started alone for the race Clairaut, the Mare course; but thought of stopping for my friend Hale, of the subject and left it is Journal of Commerce—but recollected in time, that he had Clairant, the Marquis Laplace, Dr. Young, and other But the discovery of its true nature, is due to Mr. Dia-

But the discovery of its true nature, is due to Mr. D.aper, of Mecklenburg, in this State, who has recently returned from Europe, where he has been sundying, under some of the most emment. Philosophers.

We understand, that by taking advantage of a very slight indication, Mr. Draper found, that all the phenomena of Capillary Attraction may receive an explanation, founded upon the Laws of the Equilibrium and Motton of Electricity—that Electricity is produced in every case of Capillary Action—that the intensity of the Attraction. exstock in it; men's motives now a days are always suspi-cious. The road is excellent; and the view from the hill about two miles from Williamsburg is superb—embracing omy. The flags on the race course were floating gaily in the wind; the cyster stands were numerous beyond example; turtle soup and cold nuts were distributing in the Pavilion; here and there a roly poly table, and now and then the rattle of the dice box was heard on tables along Capillary Action-that the intensity of the Attraction, exactly keeps pace with the development of Electricity, and whatever disturbs the production of the one, disturbs to exactly the same amount the action of the other—(these facts were determined by the Torsion balance of Coulomb)—that the Mathematical formulas of Clairaut and Laplace may receive actual experimental verification from the baance—that the voltaic bettery has as complete a controul over liquids, as it has over the magnetic needle, making them stand at any required point—and that Capillary Attraction is capable of disturbing Chemical Affinity, and decomposing a variety of substances, such as the protected by order of the Court.

A. PITOT, Clerkand binoside of Nitrogen, Ammonia. Bisulphuretted Hydrogen, and even Water, gives indications of yielding

the same treatment.

The applications of this investigation. experimental, are not of less interest. It into Chemists with the real value of African one substance has for snother—a point attempted in the tables of Geoffray, which are no generally admitted to be er-roncous, being tables of Decomposition. It gives a saluof Geoffray, which are no generally roncous, being tables of Decomposition. It gives a salutary caution to Meteorologists, who by following its indications, may make their baremeters rise to 89 1-2 inches, install of standing at 29—and to Physiologists who will perhaps find in the rise of temperature, which a membrane experiences when a gas is passing through it, some insight into the origin of Animal Heat.—Richmond Engineer.
