"'Holy Ghost and Us" Society Organized at Boston.

Its Members Pledged to Go Out Into the World to Preach the Gospel Without Money.

Boston has got down to practical religion. The "Holy Ghost and Us society" is creating a sensation, and men, women and children are casting all their worldly belongings at the feet of F. W. Sandford, leader of the movement, and going out into the world to preach the Gospel without money and without knowing where their food or clothes or shelter is coming from.

What Mr. Sandford offers is a religion stripped of formality, dignity, and creeds.

The "Holy Ghost and Us society" makes no hesitation about cursing all creeds and denominations alike. That the ministers and the press of Boston not affect Mr. Sandford in the least.

"The Holy Ghost and Us," he said. when asked to explain the motive for the society's eccentric name, "stands for a combination that owns and moves heaven and earth.

"To us, the beings who inhabit the rises for the solemn ceremony. earth, and the Holy Ghost, the living and present representative of God, there is nothing the earth can refuse to yield. Why should people work and take their minds from spiritual things when the Holy Ghost, who is just as real and actual a living man as anv of us, yet vested with supernatural power, stands here in our midst ready to provide us with a living?"

"But everyone who works does not find a living coming so easily," was sug-

"Then it's because they have not you will make His acquaintance you ly in the professional element. will find that you won't have to work for a living, but that He will be at your elbow ready to provide for every needfrom food and drink and clothes and shelter to your car fares."

ATHEISM BRINGS TO IAIL.

New York Father Who Refuses to Send His Boy to School Because He There Learns About God.

Carl S. Bitner was a prisoner in the Morrisania police court, New York, the other day because he persisted in refusing to send his boy Carl, 12 years old, to the public schools so long as anything about God shall be taught in the religious exercises. Magistrate Deuel commanded him to send the boy to school, and Bitner said that he would do so with the proviso that the boy should be allowed to leave the room whenever religious exercises are

On December 8 Miss Margaret Mardictation exercise an extract from Longfellow:

and the seen-Make the house where God may dwell;

beautiful, entire and clean Carl-Bitner was in the class, and he wrote the lines correctly, but left out the word "God." The teacher thought he had done so unintentionally, and asked him to write it over. He did so, but again left out the same word. She called him up and asked him why he left the word out. The boy replied that his father forbade him to speak or write the word, as there was no such thing. The teacher took him to Mr. Silver, the principal, who sent him home with a note.

In court Bitner said that this was the third time he had been compelled to take his children away from the public schools because the teachers insisted on religious teaching.

SILK SPIDERS IN VENEZUELA.

A Report from Consul Plumacher Shows Great Possibilities of a New Industry.

Consul Plumacher, of Maraicabo, under date of December 26, reports to the state department that large silk-spinning spiders are found in the palm trees of Venezuela. Some produce white, some yellow silks. The consul understands that the silk has been made into handkerchiefs. A copy of the report, together with a specimen of silk which accompanied it, was referred to the department of agriculture. Under date of January 27, the Entomologist says that silk produced in this way cannot be made valuable commercially, because of the troublesome necessity of keeping the spiders separated to prevent their devouring each other, Their food being insects, this also involves considerable labor in supplying them. Attempts to utilize the silk of a Madagascar spider of the same species some years ago resulted in the discovery that the product was more expensive than ordinary silk.

Hymen's Knot Tied in a Tree. A Louisville bride had peculiar notions about weddings and she had made up her mind to have her marriage different from the ordinary ceremonial. There were to be no attendants except the maid of honor, the bride's sister, and at the appointed hour the family congregated about a large gnarly tree. the oldest growing on the country place where the alfresco service was to take place. At the same time the bride and groom, maid of honor and the clergyman came from the house, and when they reached the tree they climbed it and the ceremony was performed amid the foliage of the lower branches.

Westminster Abbey. In Westminster abbey 1,173 persone have been buried.

Her Election to Membership in Pro fessional Woman's League Said to Have Aroused Opposition.

Mrs. Langtry has been duly elected a member of the Professional Woman's league, and it is said that certain resignations will follow. The Lily was made a leaguer at the meeting of the executive committee after an exciting session of that body. Her vouchers were Mrs. W. G. Jones, the veteran actress, and Mrs. Fred Ross, the sister of Lillian Russell.

The system of election in the league is peculiar. The name of the candidate, with her vouchers, is sent to the executive committee, the members of which alone have the right to vote on it. The vouchers are then called on to appear before the committee to give their candidate qualifications for membership. It is on record that Mrs. Langtry's vouchers were put through an inquisition as was never before known in league history.

When the vote was taken there were three blackballs against Mrs. Langtry. have risen against this intruder does. The announcement of her election was made at the postponed business meeting.

It is customary for the newly-elected to take the league pledge before the entire body at the business meeting following election. Every member

Had Mrs. Langtry been present for this purpose the opposition had arranged to make their feeling manifest by keeping their seats. Her absence saved her the mortification.

Feeling against Mrs. Langtry in the league began when she appeared a few weeks since as guest of honor on Social day and recited "The Absent-Minded Beggar." It has deepened since the anouncement of her candidacy was made.

The Lily's supporters declare that she was solicited to join the league, made friends with the Holy Ghost. If and that the bitter opposition is chief-

LAUGH IS ON DEPEW.

How Tom Platt Turned a Neat Trick on His Colleague and Stole the Patronage Belonging to Him.

Senator "Tom" Platt the other day turned a neat trick on his colleague Chauncev M. Depew, at the republican caucus at Washington. Some smiles were indulged in at the expense of the famous after-dinner speaker. The re port of the committee charged with the distribution of patronage was read It was to the effect that each senator should control patronage to the amount of \$2,800 in addition to his clerk. Senator Depew's name did not appear on the list. After the reading Mr. Depew called attention to the omission of his name and remarked that he supposed it was an oversight.

Senator Allison, who presided, did not venture an explanation, and there was an embarrassing pause, during which the senators looked interrogatvin, a teacher in school No. 62, gave as a lingly at each other. No one spoke, and then all eyes were focused upon the "easy boss" who was almost buried in Let us do our work well, both the unseen a comfortable armchair. He flinched and slowly rose to his feet, saying:

"My distinguished colleague evide ly does not understand the situation. He has been allowed to name the secretary of the senate. As that is one of the highest salaried offices in connection with this body, he is not entitled to any more patronage."

To say that Mr. Depew was astonished would be putting it mildly, and before he had recovered his wits the caucus adjourned. Everyone knows Secretary Bennett is the personal appointee of Senator Platt, and Senator Depew had nothing whatever to do with the appointment. The manner in which Mr. Platt appropriated the patronage of his colleague has afforded Senator Depew's friends an opportunity to have some fun with the genial New Yorker.

LOVING CUP FOR STEDMAN.

The Banker-Poet Affectionately Remembered on His Retirement from New York Stock Exchange.

The esteem and affection with which Edmund Clarence Stedman is regarded stock exchange was convincingly manifested on Mr. Stedman's last day as a board member, in the presentation to him of a silver loving cup, a compliment which, it is said, has never before been paid a member on his retirement. "Deacon" White made the presentation speech and at its close read an original poem, the closing stanza of which was: With men he's the poet-banker,

The banker-poet above. The pride of the masses, The pride of Parnassus; With men and with muses in love. Oh, Clarence, our loved one! when back with the muses,

When back on Olympus once more, As you look from your height, With eyes of delight, You'll yearn for the boys on the floor.

CALF WITH TWO HEADS.

Planter Williams, of Arkansas, Is the Possessor of a Freak of Nature.

day by J. W. Williams, a planter who resides on the outskirts of that city. The freak was a portion of a twoheaded calf, which was found on Wil-

liams' place, dead. mouth. Each had two eyes and one any other country, the total given in ear, and all were fully developed.

seen in this section.

Practice Makes Perfect. Gen. Buller will soon have so much practice, says the Chicago Record, that having birthdays, says the Chicago he will be able to cross the Tugela Record, he will soon be older than in both directions at once.

AN ECCENTRIC ORDER DIVIDED OVER MRS. LANGTRY. | CAN TEMPER COPPER.

Rockefellers Interested in Process of a Boston Inventor.

Claim Made That the Long-Lost Proc ess of Tempering Copper Has Been Found-Anti-Rust and Strong as Steel.

An inventor claims to have discovered the long-lost process of tempering copper, and he has succeeded in getting such a shrewd moneyed man as Frank Rockefeller, the Standard Oil millionaire, in believing in the invention. He is Charles Fletcher, of Boston. Through his inventive genius Fletcher has succeeded in making sheets of copper into wonderful thinness and with the same strength, capacity and springiness as steel. Thousands of dollars have been expended in the experiments. The process consists in rolling in hot steel plate and two heated copper plates at the same time in such a way that the copper forms a skin over the surface of the steel and gives it all the weather and wet resistance of pure copper. It will not rust and has at the same time the strength of steel. It can be stamped as well as tin and otherwise worked in ways impossible with cop-

Last summer Mr. Rockefeller and the inventor had a model made of the new material towed behind a whaleback boat up and down the lakes. At the end of the trip the copper skin over the steel plates was as shiny as when first put in the water. It would apparently be valuable material to make steel lake steamers. In speaking of the invention Mr. Rockefeller said: "I think the invention is one of the most remarkable that has come to my notice. The copper and steel are rolled at the same time and in the finished plates, no matter whether it is thick or thin, the copper is united with the steel so that it is impossible to break or strip it off in any way. It is practically a single thickness of metal with a copper surface on either or both sides, whichever way it is made, and it can be made either way."

Inventor Fletcher is an odd genius. His letter paper is headed "Faraday Laboratory, Boston, Mass.-What God Hath Wrought, Numbers 22, 23." The letterheads also have a dozen references to the Bible."

TO IMPROVE ARMY STAFF.

Efforts to Be Made to Pass Bill in Congress That Will Carry Out Suggestions of Secretary Root.

Efforts will be made at this session of congress to enact legislation providing for improvements in the staff of the army on the line recommended by Secretary Root in his annual report. Gen. Hull, chairman of the house military affairs committee, had a long conference with Secretary Root and the bureau chiefs of the department in Fegard to a bill which is being prepared with this end in view.

The recommendations made by Secarmy war college be established, comments and a number of competent officers of high rank to be detailed for service in the college for limited periods, so that, while the college shall FERGUS G. LEE. be continuous in records, character and performance, it will gradually change ln its personnel.

Any officer of the army below the rank of a field officer, not already a graduate of one of the service schools. should be detailed for a fixed period to receive instructions at this college in the science of war, including the duties of the staff and all matters pertaining to national defense. All staff appointments other than medical are recommended to be made from the line of the army for a period of four or five years, the holder to return to the line at the end of that period, and not be eligible to reappointment until after at least one year's service in the line.

All selections of candidates for appointments and promotions in the staff and line should be made by boards of officers appointed for that purpose upby his fellow members of the New York on an examination and estimate of the efficiency records.

MISS ASTOR'S SUITOR IN WAR.

Young Duke of Roxburghe Distinguishes Himself Under Gen. French in South Africa.

The young duke of Roxburghe, a captain in the Blues, is said to be a suitor for the hand of Pauline Astor, daughter of William Waldorf Astor.

The duke has been distinguishing himself under Gen. French at Rensburg. A letter from a Guard's private contains a thrilling account of how a small party of Guards was surprised by the Boers, "who rained bullets and shells upon us. We had orders to re-

tire. All of us were dismounted. "When we reached the bottom of the hill some one galloped off with my horse. The firing was getting thick and I thought my last day had come, for I saw no chance of escaping alive. But A remarkable freak of nature was the duke of Roxburghe came back for brought to Pine Bluff, Ark., the other me and I rode behind him into safety. "I owe my life to him."
