THE BEE While Blue and Dity Paper, NEW-ORLLANS: MONDAY MORNING, APRIL 18, 1826.

FOR PRESIDENT M. VAN BUREN.
FOR VICE PRESIDENT
RICHARD M. JOHNSON.

The engine of the waterworks was to bave been The engine of the waterworks was to have been tried yesterday for the first time, previous to the works going into operation, which may be expected during the course of the present week. Immediately afterwards the water will be conveyed as far as the pipes have been laid; and it is to be hoped that all respectable householders will directly order hydrants to be constructed on their premises. The water can be raised to the second story of every house from 15 to 30 feet above the level of the streets. This is an accommodation act to be foregone nor neglected.

By the plugs throughout the streets, the whole city may at any time be thoroughly cleaned in a few house and were this done two or three times a week, there

and were this done two or three times a week, there can be no doubt of its materially promoting and ensuring the health of the city.

We have learned that a plan of a new custom house has been drafted, and forwarded to the treasury departnas been dranted, and forwarded to the treasury department at Washington to be communicated to congress.

The estimated cost is \$350,000; and it is believed that an appropriation to that amount will be made during the present session.

We have heard some singular remarks on the small We have heard some singular remarks on the smallness of the fountain erected in the Principal square, by those who supposed it was intended for a monument rather than a jet d'eas. Thy should have known that the water can be propelled upwards only to a certain keight; and that the lower the altitude of the fountain, the greater will be the jet d'eas. which was the primary desideratum. Make the altitude greater, and you lessen the cost of the water visible; but if you wish a monument with the fountain, then place an obelisk at each angle: and you may gratify both pride and plea

The new canal for the use of the upper municipal ty, or rather the New Orleans canal is an object of in terest and importance to our city; and as we are solici tous to promote all objects of internal improvement, we have felt and displayed a regard for its manage.

ment and completion.

During the month of Ootober last, we visited the ca-During the month of Ootober last, we visited the canal, and noticed it; but then reluctantly we were compelled to cansure rather than permitted to compliment:
for the whole concern was one of mismanagement,
confusion and extravagance. Engines had been raised at an enormous expence to dig seven feet to raise
of at an enormous expence to dig seven feet to raise
onearly seven inches of sand distributed sparsaly in a
meagre stratum. Bridges had been constructed to
scorn utility, and summediately were thrown down as
worse than useless. Embankments were made which od at an eneromous expense to dig seven feet to raise nearly seven inches of and distributed sparsely in a megge stratum. Bridges had been constructed to a meage stratum. Bridges had been constructed to a seven suitive, and themselves the seven suitive, and themselves the seven suitive, and then required heavy outlays for repairs. The very line of the camels had been improperly and unnecessarily crockened; and as for the canals and harbor, it would have been prefershes that they had not been stimpted. We candidly commented of the canals had been surprepaired to the seven suitive to the canals and anxious that those abuser's should be corrected. That was 'the bead and front of our offending. On Saurday last, we paid another visit to that canal in company with its new engineer, Mr Albert Steins and were not less surprised at the numerous abuses it which he has had to correct, than delighted with the excellent system which he has attempted all the improvements in his power. Formerly the piles wore supposed to the canals, but he has attempted all the improvements in his power. Formerly the piles wore supposed to the canals but he has attempted all the improvements in the contains the reverse is the correct principle, and have been adopted by planks, a while they support the embankments; the reverse is the correct principle, and has been adopted by planks, and these support the embankments. Hitherto shells which cost the company nearly 2 dollars and has been adopted by planks, and these support the embankments the reverse is the correct principle, and has been adopted by planks, and these support the embankments. Hitherto shells which cost the company nearly 2 dollars and has been adopted by selection of the contains of the contains of the contains of the cost of the planks, and these support the contracted of the worst worst contracted of the worst contracted of the worst c

The period of the case of the second of the condition of the case of the condition of the case of the For the purpose of party suspersion, the visues of the enemy are midd to appear as crimes: thus has it been, since politics formed a part of any government in any age. And at the present period, we cannot expect to be exempted from this mulady of human nature. Martin Van Bonst has been actualed of cunning. poet to be exempted from this muledy of human mature
Martin Vari Bonen has been accused of cunning,
because he exercised an uncampled degree of torbearance during the late contest with the United States
bank. Yet that forbearance was highly creditable to
him. Me did not thrust himself forward, as a presumptuous vice president might have done; but finding the
chief magistrate determined and able as well as correct ta his views, he but gave his sanction. Was this
cunning? Nay was it not rather moderation seldom
equalled in the tide of times? But
Apirite are not finely touch'd,
But to fine issues.

It would not have been gradent for him to interfere,
therefore he kept aloof.

And as he did in that instance, so has he acted in
others. Without interfering in the duties of another,
he may sanction or support their exercise; and when
it is necessary for him to set in propria persona, when
has he been found wanting? when offending any by
the manner of his conduct?

has he been found wanting; which manner of his conduct?

The cusning that has been usually attributed to Mr Van Buren is prudence of no ordinary attainment; it is that which enables hefu to ascertain what to shoth so as not to offend. If all in public life had such a shoth so as not to offend. shifth so as not to offend. If all in public life had such a degree of prudence, what blessings might not result to society yet that virtue has never disappeared from the public or private conduct of Mr Van Bunn. If pradence constitutes him a magician, then he but deals in the magic of mental attainments and moderation in conduct.

But he has not only that prudence which teaches what to avoid, but that wisdom which dictates what to adopt and follow: and in this respect, he is greatly superior to any candidate for the presidency, now before the public. In either and both he is greatly superior to White or Harrison; and in prudence at least he is certainly superior to Webster: but Webster can scarcely be now considered a candidate of more than Masse. Looking therefore on the personal merits arons or these candidates, even were we not of the democratic party we would prefer Van Buren to all the o here—this conciliation and urbanity of manners are unsurpassed; his incimate knowledge of the ways and means passed; his intimate knowledge of the ways and means of the federal government, and of the reserved rights of the states, are superior; and his ability and determination to act according to that knowledge and to act sametime with prudence and candor in private and public life, give him claims to the suffrages of the people which faw unite in their oceans.

ole which few unite in their person. CITY COUNCIL.
SITTING OF SATURDAY, 16, 1836.
Present the Recorder and all the Members except

Mr Caldwell.
The following letter from the Mayor was read:

super more than designed.

The company of their specimens are have been a second and the company of the specimens are the second and the specimens are the s

ley Francuis. Victory and Espiration ings to belong with its appurtenances to the Corporation.

Is was offered as an amendment, That the Mayor be authorized to purchase from J O'Rourke a lot laving 22 ft front on Joseph st, and 70 on Tchoupitoulas for tire company No.5, and that the sum of \$5000 be paid to the committee of said Fire Company for the purpose of building an engine house Said lot and house to revert to the corporation when it ceases to be used for the purposes for which it is designated.

Mr Allard as an amendment and that all these constitutions be made under the inspection of the city Burveyor and according to his plans all of which were adopted.

A petit ion was read from Mechanics Fire Company No.6 asking for an appropriation of \$3000.

Mr Pichot called for the reading of the resolution which had before appropriated a certain sum to this company.

Mr Pichot called for the reading of the resolution which had before appropriated a certain sum to this company.

The resolution was read
Mr Berry offered a resolution that \$6000 be appropriated to the use of Fire Campany No 6, for the same purposes and under the same conditions as the appropriations are made for the other Fire Companies.

Mr Pichot objected to this, notwithstanding he has always been one among the first to vete for appropriations to the different Fire Companies he thinks that this would be overstepping the the bounds—with what has already been granted he thinks in all conscience that \$4.600 is quite enough and in fact it is unavisable to not premature. It is better on the whole to defer the subject till next sitting.

Mr Baldwin presented a substitute granting said company \$2,500.

Mr Labitut as an amentment that \$30,000 shall be appropriated for the purchase &c. of 3 ang ness—say two for the square of the city and one for the 8th ward two for the square of the city and one for the 8th ward—and that Messra Buisson Fachot, High and Thomas shall be appointed as commissioners, this amendment together with the whole was adopted.

Mr Allard presented a resolution that the commissioners of the market shall receive the difference bettern their present salary and \$100 per month from the time, that the Commissioners of the Police have received \$100 per month—and that the sum of \$200 be paid as a gratury to Mr Courten for the extra services he has rendered to the council.

Mr Baldwin moved to strike and the latter part—what Satinnine as an amendment to D Asygustin, Equiv. The same shall be appropriated to a strike the latter part—what Satinnine as an amendment to D Asygustin, Equiv. The same shall be appropriated to the council, and so a further token of the resolution. The mayor be authorized to cause to be made two silver pitchers with an inscription in French and English. From the city council of New Orleans to D Augustin, Equiv. April 1836.

Mr Baldwin as an additional section offered a resolution th

siting the amount of the assests in the Tressurer, so also the liabitities to which the mayor, alderman and imbabrants of New Orleans are subject—all which was adopted.

Mr Pichot introduced a report from the Judiciary Mr Pichot introduced a report from the R R Keere 5060 acres of land accompanied with a resolution—That as seen as Mr Bry shall make known to the mayor wifeher any location has been made by Mr Keere and what the nature of it is, the mayor is authorized to grant a little to Mr Keene—adopted.

Mr Gaiennie introduced a resolution, that the mayor is authorized under the inspection of the citizens or to cause to be open-did the Washington market and that stands until further order be granted graits to those who carry provisions there for rele.

Mr Berry inoved as an amendment that the report and resolutions relative to the Currollton Bank market be taken up, which was done and the several resolutions together with that to which this is an amendment were adopted.

Mr Baidwin introduced a resolution authorizing the Mayor Recorder and Treasurer to sign all the bonds for the contracts of Measrs Phelips and Minturn and that said bonds be deposited with the Mayor—adopted. Mr Schmidt presented a resolution that \$1000 be granted to the New Orleans Lyceum.

Mr Pichot as an amendment that \$500 be granted to the New Orleans Lyceum.

Mr Diabutu as an amendment that \$500 be granted to the New Orleans Lyceum.

Mr Ginnie presented a resolution that \$2000 be granted to the New Orleans Lyceum.

Mr Thomas moved to reduce the sum to \$1000.

Mr Pichot thought as \$1000 and help said and that the mayor he authorized to pay every May for the same purpose and to the rusters of the said society for the subscription of the council.

Mr Thomas moved to reduce the sum to \$1000.

Mr Pichot thought as \$1000 and hel been granted to the Lyceum—the present appropriation englit to be made for the benefit of poor orphans.

The question was put and carried.

Yi as and nays called for.

All voted in favor except Measrs High and Thomas —th

I am unavoidably called on to appear before the public in vindication of whithing of the city council. I do it, too, without that reloctance which a man should test in intruding upon the public matters of a personal and private nature, because the public are in a manner interested in knowing the truth of this matter, and that the means of showing the natures and good faith of transaction alluded to, and so palpable and strong that a simple statement of the facts will be sufficient to de away with the gross mirrepresentation and false head with which this matter appears turough the deliberations of the council, and show to the public in the language of its members, upon whom should rest the brand of injumy

ORDER OF THE COURT.

ORDER OF THE COURT.

We deadey, I ith Feb. 1826.

"On consecring the report of the commissioners appointed in this case to superintend the sale of property therein mentioned "&c., "It is further ordered: "The attorney of the United States, concurring in the opinion of the court, and not opposed by the council for the city corporation, that the clern of this court for the purposes of safe keeping and collection, shall ferthwith deposit to the credit of the court, and subject to its fature order, all the notes received by the said commissioners (except those authorized to be withheld by them) in the City Bask and Commercial of New Orleans."
